

## **Preface to ICWL 2013 Workshops**

The aim of the International Conference on Web-Based Learning (ICWL) series is to provide a leading annual international forum for researchers, professionals, and industrial practitioners to share their knowledge in this rapidly growing area. In 2013, the conference was held in Taiwan. This volume comprises papers from one collated symposium and six workshops from 2013:

1. The First International Workshop on Ubiquitous Social Learning (USL 2013)
2. The 2013 International Workshop on Smart Living and Learning (IWSLL 2013)
3. The Third International Symposium on Knowledge Management and E-Learning (KMEL 2013)
4. The 2013 International Workshop on Cloud Computing for Web-Based Learning (IWCWL 2013)
5. The 2013 International Workshop on Web Intelligence and Learning (WIL 2013)
6. The 2013 International Workshop on E-book and Education Cloud (IWEEC 2013)

These events were selected from a public call-for-proposals process. The event organizers put tremendous effort into soliciting and selecting research papers with a balance of high quality, novel ideas, and emerging applications. They also followed our recommended vigorous review process. A total of 29 papers from a wide range of countries were accepted.

We are grateful to the ICWL organizers for their generous support. We appreciate the hard work of all event organizers and Program Committee members in putting together the program. We also thank all the authors for their contributions.

Last but not the least, we thank Dr. Shih-Pang Tseng for helping us to compile this book.
