# Contents

<b>1</b>	<b>Unique, Multi-generational Development: A Lesson in Forward Planning . . . . .</b>	<b>1</b>
1	Particular Features of the Region . . . . .	2
1.1	Geological History of Champagne . . . . .	2
1.2	Visual Appearance of the Chalk Champagne Region . . . . .	4
1.3	The Champagne Climate . . . . .	4
1.4	Agricultural Properties of Chalk Soil . . . . .	6
1.5	Methods of Increasing Fertility . . . . .	7
2	History . . . . .	7
2.1	From the Eighteenth Century Until the 1950s . . . . .	8
2.2	Farmers' Unions in Champagne . . . . .	11
2.3	From Farmers' Unions to Cooperatives . . . . .	15
2.4	Agricultural Cooperatives and Cereal Processing . . . . .	16
3	First Steps in the Development of the Bazancourt-Pomacle Site . . . .	19
3.1	Towards Collaborative Research . . . . .	19
3.2	From ISTV to the Involvement of Academic Research . . . . .	21
	References . . . . .	23
<b>2</b>	<b>An Original Business Model: The Integrated Biorefinery . . . . .</b>	<b>25</b>
1	The Concept of Biorefinery . . . . .	26
1.1	Definitions, Technical Status and Typology . . . . .	26
1.2	The Viability of the Biorefinery . . . . .	30
1.3	The Bazancourt-Pomacle Biorefinery . . . . .	31
2	Changes in the Environment that made the Bazancourt-Pomacle Biorefinery . . . . .	41
2.1	Exogenous Factors . . . . .	41
2.2	Endogenous Factors . . . . .	44
2.3	The Strategies and Solutions that Have made the Biorefinery What It Is Today . . . . .	51
3	The Bazancourt-Pomacle Biorefinery: An On-Going Success Story? . . . . .	58
3.1	Technological Readiness Levels: TRL . . . . .	58

3.2	What Are the Strengths, Weaknesses, Opportunities and Threats for the Bazancourt-Pomacle Biorefinery? . . . . .	59
3.3	BIOAMBER: A Locally Unrecognised Success Story . . . . .	62
	References . . . . .	65
<b>3</b>	<b>Industrial Symbiosis at the Bazancourt-Pomacle Biorefinery . . . . .</b>	<b>67</b>
1	What Is Industrial Symbiosis? . . . . .	68
2	Different Aspects of Industrial Symbiosis at the Bazancourt-Pomacle Biorefinery . . . . .	70
2.1	The Bazancourt-Pomacle Biorefinery and Its Local Environment . . . . .	71
2.2	The Firms Making Up the Biorefinery . . . . .	72
2.3	The Biorefinery and Water Symbiosis . . . . .	74
2.4	Possible Improvements to the System . . . . .	78
	References . . . . .	80
<b>4</b>	<b>Prospects for the Bazancourt-Pomacle Biorefinery Between Now and 2030 . . . . .</b>	<b>81</b>
1	Challenges for the White Biotechnology Centre of Excellence (CEBB) . . . . .	83
1.1	Multidisciplinarity . . . . .	84
1.2	The Public-Private Partnership . . . . .	85
1.3	Governance . . . . .	85
2	Recent Developments: 2014, a Turning Point? . . . . .	86
2.1	The Sale by ARD of Its Subsidiary SOLIANCE to the GIVAUDAN Group . . . . .	86
2.2	ARD's BIODÉMO Demonstrator . . . . .	87
2.3	The FUTUROL Industrial Pilot Scheme . . . . .	88
3	Potential for Integration of the Upstream Value Chain . . . . .	89
3.1	The Idea of an Experimental Farm . . . . .	90
3.2	Upstream Industry . . . . .	91
3.3	Cumulative Effects? . . . . .	91
4	Potential for Integration with the Downstream Value Chain . . . . .	92
4.1	Land Available for New Manufacturing Facilities or Biorefineries . . . . .	92
4.2	Downstream Industry . . . . .	93
4.3	The Move Downstream by Industrials and Cooperatives . . . . .	94
5	Maintaining or Renewing the Virtues of the Cooperative Model . . . . .	95
5.1	The Period 2015–2030–2040 . . . . .	95
5.2	The Basis of the Cooperative Model . . . . .	96
5.3	Is It Possible to Benefit from Cooperative Values Without Cooperatives? . . . . .	97
6	Does the IEB Need a More Formal Governance Structure? . . . . .	97
6.1	Networking, Strategic Monitoring and Strategic Decision-Making Tools . . . . .	98

---

6.2	Technology Transfer and Exploitation of Knowledge and Skills . . . . .	98
6.3	Financial Engineering . . . . .	98
	References . . . . .	100
<b>5</b>	<b>General Conclusion . . . . .</b>	<b>101</b>
1	What Is the True Nature of the Bazancourt-Pomacle Integrated Biorefinery? . . . . .	101
1.1	Integrated Biorefinery and Industrial District . . . . .	101
1.2	Biorefinery and Economic Rationale . . . . .	102
1.3	Biorefinery and Ecosystem: An Unplanned Process, but One that Did not Occur by Chance . . . . .	103
2	What Next? . . . . .	105
2.1	A Future Research Agenda . . . . .	105
2.2	Will the Private Sector Continue Its Initial Efforts? . . . . .	106
2.3	The Role of Public Policy . . . . .	107
	References . . . . .	108
	<b>Annexes . . . . .</b>	<b>109</b>
	<b>Glossary of Selected Scientific and Technical Terms . . . . .</b>	<b>119</b>
	<b>Glossary References . . . . .</b>	<b>123</b>

Biorefinery 2030

Future Prospects for the Bioeconomy

Schieb, P.-A.; Lescieux-Katir, H.; Thénot, M.;

Clément-Larosière, B.

2015, XXXII, 123 p. 44 illus., 25 illus. in color., Hardcover

ISBN: 978-3-662-47373-3
