

# Contents

## Part I Surveys

<b>A Comparison of Techniques for Dynamic Multivariate Risk Measures</b> . . . . .	3
Zachary Feinstein and Birgit Rudloff	
<b>Nonlinear Scalarizations of Set Optimization Problems with Set Orderings</b> . . . . .	43
César Gutiérrez, Bienvenido Jiménez and Vicente Novo	
<b>Set Optimization—A Rather Short Introduction</b> . . . . .	65
Andreas H. Hamel, Frank Heyde, Andreas Löhne, Birgit Rudloff and Carola Schrage	
<b>A Survey of Set Optimization Problems with Set Solutions</b> . . . . .	143
Elvira Hernández	
<b>Linear Vector Optimization and European Option Pricing Under Proportional Transaction Costs</b> . . . . .	159
Alet Roux and Tomasz Zastawniak	

## Part II Special Topics

<b>Conditional Analysis on <math>\mathbb{R}^d</math></b> . . . . .	179
Patrick Cheridito, Michael Kupper and Nicolas Vogelpoth	
<b>Set Optimization Meets Variational Inequalities</b> . . . . .	213
Giovanni P. Crespi and Carola Schrage	
<b>Estimates of Error Bounds for Some Sets of Efficient Solutions of a Set-Valued Optimization Problem</b> . . . . .	249
Truong Xuan Duc Ha	

<b>On Supremal and Maximal Sets with Respect to Random Partial Orders . . . . .</b>	<b>275</b>
Yuri Kabanov and Emmanuel Lepinette	
<b>Generalized Minimality in Set Optimization . . . . .</b>	<b>293</b>
Daishi Kuroiwa	
<b>On Characterization of Nash Equilibrium Strategy in Bi-Matrix Games with Set Payoffs . . . . .</b>	<b>313</b>
Takashi Maeda	

Set Optimization and Applications - The State of the Art  
From Set Relations to Set-Valued Risk Measures

Hamel, A.H.; Heyde, F.; Löhne, A.; Rudloff, B.; Schrage, C. (Eds.)

2015, XII, 331 p. 16 illus., Hardcover

ISBN: 978-3-662-48668-9
