

Contents

1	Introduction: Deformation of Silicon Nitride at High Temperatures	1
1.1	Silicon Nitride Ceramics	1
1.2	Creep and Plasticity of Silicon Nitride	1
1.3	Control of Deformation of Silicon Nitride for Practical Applications	2
	References	3
2	Preparation of Nanosize Silicon-Nitride-Based Ceramics and Their Superplasticity	5
2.1	Introduction	5
2.2	Preparation of Dense Nano-Sized Si_3N_4 Ceramics	7
2.2.1	Si_3N_4 Ceramics	7
2.2.2	Sialon Ceramics	12
2.3	Preparation of Dense Nanoscale Si_3N_4 /Nanoscale C Metastable Composites	17
2.4	Superplastic Behavior of Nano-Sized Silicon Nitride Ceramics	22
2.4.1	Deformation Behavior	23
2.4.2	Microstructural Characterization	26
2.4.3	Deformation Mechanism	26
2.5	Conclusion	31
	References	32
3	Grain Boundary Control to Obtain Heat-Resistant Silicon Nitride	35
3.1	Addition of Yb_2O_3 and Lu_2O_3 to Silicon Nitride Ceramics as Sintering Additives	35
3.2	Sintering of Silicon Nitride Ceramics	36

3.3	High-Temperature Strength of Silicon Nitride Ceramics	37
3.4	High-Temperature Creep of Silicon Nitride Ceramics	40
3.5	Conclusion	43
	References	44
4	Conclusions	45

Fabrication of Heat-Resistant and Plastic-Formable
Silicon Nitride

Nishimura, T.; Xu, X.

2015, VIII, 46 p. 35 illus., 4 illus. in color., Softcover
