

Contents

1	Introduction	1
1.1	Introduction	1
1.2	Natural Products as Drug Seeds	1
1.3	Protein–Protein Interactions	3
1.4	Evaluation of PPI Inhibitors with High-Throughput Screening	6
1.5	Proteasome-Assembling Chaperone	7
1.6	Thielocin B1	8
1.7	Preliminary Investigation to Elucidate the Mechanism of Inhibition of PAC3 Homodimer by Thielocin B1	9
1.7.1	In Silico Docking Studies and Molecular Dynamics Simulation Experiments	9
1.7.2	Structure-Activity Relationships of Several Thielocin B1 Derivatives	12
1.8	Synthesis of <i>Ortho</i> -substituted Aromatic Compounds	14
1.8.1	Synthesis of Multisubstituted Diphenyl Ethers	14
1.8.2	Synthesis of Benzaldehydes by the Direct Formylation of the Corresponding Aromatic Compounds	16
1.9	Evaluation of Small Compound/Protein Complexes Using NMR Experiments	18
1.9.1	NMR Chemical Shift Perturbation Experiments	18
1.9.2	Spin-Labeling Method	19
1.10	Outline of This Book	20
	References	21
2	Total Synthesis of Thielocin B1 and NMR Chemical Shift Perturbation Experiments with PAC3 Homodimer	25
2.1	Introduction	25
2.2	Strategy	25

2.3	Synthesis of the Central Core of Thielocin B1	28
2.3.1	Construction of the Depsidone Skeleton.	28
2.3.2	Construction of Desired Diphenyl Ether Moiety	30
2.3.3	Introduction of the Carboxyl Group for Central Core	33
2.4	Synthesis of the Side Wings.	35
2.5	Total Synthesis of Thielocin B1	37
2.6	NMR Chemical Shift Perturbation Experiment of PAC3 with Thielocin B1	38
2.7	Docking Study for Thielocin B1 and PAC3 Homodimer	41
2.8	Summary	42
2.9	Experimental Section.	42
2.9.1	General Techniques.	42
2.9.2	Experimental Methods.	43
	References.	61
3	Synthesis of Spin-Labeled Thielocin B1 and Observation of Paramagnetic Relaxation Enhancement Effects.	63
3.1	Introduction	63
3.2	Strategy.	63
3.3	Synthesis of Spin-Labeling Precursor.	66
3.3.1	Modified Synthesis of Central Core.	66
3.3.2	Elongation of the Side Wings.	67
3.4	Synthesis of Spin-Labeled Thielocin B1	68
3.4.1	Examination of Spin-Labeling by Amidation	68
3.4.2	Preliminary Investigation of the Spin-Labeling Process with a Model Substrate	68
3.4.3	Spin-Labeling for the Synthesis of Spin-Labeled Thielocin B1	74
3.5	Observation of the PRE Effects of Spin-Labeled Thielocin B1 on PAC3 Homodimer	75
3.6	Additional Docking Study of Spin-Labeled Thielocin B1 and PAC3 Homodimer.	77
3.7	Summary.	77
3.8	Experimental Section.	79
3.8.1	General Techniques.	79
3.8.2	Experimental Methods.	79
	References.	86
4	An Improved Method for the Direct Formylation of Substituted Benzenes Using Dichloromethyl Methyl Ether-Silver Trifluoromethanesulfonate	89
4.1	Introduction	89
4.2	Formylation of Substituted Phenyl Ethers.	89

4.3	Scope and Limitations	91
4.4	Summary	95
4.5	Experimental Section.	96
4.5.1	General Techniques.	96
4.5.2	Experimental Methods.	96
	References.	105
5	Conclusions	107
	Curriculum Vitae	109

Total Synthesis of Thielocin B1 as a Protein-Protein
Interaction Inhibitor of PAC3 Homodimer

Ohsawa, K.

2015, XIII, 109 p. 84 illus., 14 illus. in color., Hardcover

ISBN: 978-4-431-55446-2
