
Contents

1	The Blue Zone of the Planet Earth	1
1.1	Sculptures of the Ocean Basin and Estuary	1
1.2	Fluid Movements in the Oceans and Estuaries	11
1.2.1	Waves	11
1.2.2	Tides	19
1.2.3	Current	23
1.3	Chemical Characteristics of Ocean and Estuarine Water	27
	References	36
2	Biodiversity of the Blue Zone	37
2.1	Producer Community	37
2.1.1	Phytoplankton	37
2.1.2	Seaweeds	42
2.1.3	Seagrass and Salt Marsh Grass	44
2.1.4	Mangroves	50
2.2	Consumer Community	57
2.2.1	Zooplankton	57
2.2.2	Osteichthyes	58
2.2.3	Chondrichthyes	59
2.2.4	Reptiles	60
2.2.5	Marine Mammals	68
2.3	Decomposer Community	75
2.3.1	Taxonomy of Micro-organisms in the Blue Soup	83
2.3.2	Habitats of Marine Micro-organisms	83
2.3.3	Role of Marine Micro-organisms in the Carbon Cycle	88
	References	90
3	Blue Carbon Assessment	93
3.1	Remote Sensing Technology	93
3.1.1	Electromagnetic Energy	94
3.1.2	Spectral Band	94

3.1.3	Spectral Signature	95
3.1.4	Sensors and Platforms	96
3.1.5	Orbits and Swaths	97
3.1.6	Satellite Sensor Characteristics.	97
3.1.7	Geodesy, Geodetic Data and Map Projections	98
3.1.8	Satellite/Sensor: Exclusive for Monitoring Marine Ecosystem and Blue Carbon.	99
3.2	Chemical Method.	102
3.2.1	CHN Analyser: An Overview of the Instrument. . .	104
3.2.2	Analysis Mode Options in CHN Analyser.	105
3.2.3	Precision.	105
3.3	Case Studies	106
3.3.1	Assessment of Blue Carbon Through Remote Sensing.	106
	Annexure: Check List of Coringa Mangroves	110
	References	111
4	Blue Carbon in Floral Community	113
4.1	Mangroves	116
4.2	Seagrass and Salt Marsh Grass	129
4.2.1	Seagrass	129
4.2.2	Salt Marsh Grass	134
4.3	Seaweeds	136
	References	138
5	Phytoplankton Carbon Stock	143
5.1	Marine and Estuarine Phytoplankton: Assessment and Distribution.	143
5.1.1	Microscopic Method.	143
5.1.2	Chemical Method.	145
5.1.3	Assessment Through Remote Sensing.	146
5.2	Assessment of Phytoplankton Carbon	149
5.3	Artificial Enhancement of Phytoplankton: Bioremediation or Biodeterioration?	160
	Annexure	172
	References	200
6	Blue Carbon in Faunal Community	203
6.1	Stored Carbon in Bivalves.	203
6.2	Stored Carbon in Gastropods	214
6.3	Stored Carbon in Coral Reefs	217
6.3.1	Types of Coral Reefs	220
6.3.2	Photosynthesis.	221
6.3.3	Calcification	222
6.3.4	Coral Reefs: A Source or Sink of Carbon?	225
	References	225
7	Threats to Blue Carbon Reservoir	227
7.1	Natural Threats	228

7.2	Anthropogenic Threats	253
7.3	Case Studies on Blue Carbon Loss.	267
	References	270
8	Road Map to Expand Blue Carbon Reservoir	275
8.1	Conservation Approach.	275
8.1.1	Status	275
8.1.2	Threats	276
8.1.3	Scientific Management	279
8.2	Policy Approach	287
8.3	Case Studies	292
8.3.1	Case Study of Gujarat	292
8.3.2	Case Study of Indian Sundarbans.	294
	References	299

Blue Carbon Reservoir of the Blue Planet

Mitra, A.; Zaman, S.

2015, XII, 299 p. 383 illus., 360 illus. in color.,

Hardcover

ISBN: 978-81-322-2106-7
