

# Contents

- 1 Six Sigma Concepts . . . . . 1**
  - 1.1 Introduction . . . . . 1
  - 1.2 Six Sigma Methodology . . . . . 6
  - 1.3 Six Sigma Tools . . . . . 8
  - 1.4 Six Sigma Tasks . . . . . 10
  - 1.5 Six Sigma Deliverables . . . . . 11
  - 1.6 Lean Six Sigma . . . . . 12
  - 1.7 Six Sigma: The Belt Systems . . . . . 14
  - 1.8 Relevance for Managers. . . . . 16
  - References. . . . . 17
- 2 Six Sigma Project Management . . . . . 19**
  - 2.1 Project Management . . . . . 19
  - 2.2 SWOT Analysis . . . . . 20
  - 2.3 Project Phases . . . . . 21
  - 2.4 Alignment with the Business Strategy . . . . . 22
  - 2.5 Project Stakeholders . . . . . 23
  - 2.6 Managing the Stakeholders. . . . . 24
  - 2.7 A Six Sigma Project . . . . . 25
    - 2.7.1 Probability Model-Based Project. . . . . 27
    - 2.7.2 Regression Model-Based Project. . . . . 27
  - 2.8 Quantitative Project Management . . . . . 28
  - 2.9 Project Risk Assessment . . . . . 29
    - 2.9.1 Quantifying the Risk . . . . . 30
  - 2.10 Critical Evaluation of a Project . . . . . 31
  - 2.11 Role of Computing Technology in Project Management. . . . . 33
  - 2.12 Launch and Execution Process . . . . . 34
  - 2.13 Closure of the Project . . . . . 34

2.14	The Climate for Success . . . . .	34
2.15	Relevance for Managers. . . . .	35
	References. . . . .	36
<b>3</b>	<b>Six Sigma Process. . . . .</b>	<b>39</b>
3.1	Introduction . . . . .	39
3.2	Process Characterization. . . . .	42
3.3	Process Perception . . . . .	44
3.4	Process Capability. . . . .	44
3.5	Process Performance . . . . .	45
3.6	Process Improvement. . . . .	46
3.7	Process Control. . . . .	46
3.8	Relevance or Managers . . . . .	47
	References. . . . .	48
<b>4</b>	<b>Understanding Variation. . . . .</b>	<b>49</b>
4.1	Types of Variation . . . . .	50
	4.1.1 Special Cause Variation. . . . .	50
	4.1.2 Common Cause Variations. . . . .	50
4.2	Causes of Variations . . . . .	52
4.3	Need for Measuring Variation. . . . .	53
4.4	Measurement Variations. . . . .	54
4.5	Measurement System Characteristics . . . . .	55
4.6	Measures of Variations . . . . .	57
4.7	Relevance for Managers. . . . .	62
	References. . . . .	65
<b>5</b>	<b>Sigma Estimation . . . . .</b>	<b>67</b>
5.1	Introduction . . . . .	67
5.2	Some General Estimators of Standard Deviation . . . . .	68
5.3	Estimation of Standard Deviation Through Control Charts . . .	74
	5.3.1 Default Method Based on Individual Measurements . . . . .	74
	5.3.2 Sigma Estimation for Subgroups. . . . .	75
	5.3.3 MVLUE Method Based on Subgroup Ranges. . . . .	76
	5.3.4 MVLUE Method Based on Subgroup Standard Deviations . . . . .	76
5.4	Relevance for Managers. . . . .	77
	References. . . . .	79
<b>6</b>	<b>Sample Size Determination . . . . .</b>	<b>81</b>
6.1	Accuracy and Precision . . . . .	81
6.2	Sample Size When Characteristic of Interest Is Mean . . . . .	83
6.3	Sample Size When Characteristic of Interest Is Proportion . . .	86

6.4	Sample Size When Characteristic of Interest Is Counts . . . . .	91
6.5	Sample Size When Characteristic of Interest Is Difference of Means . . . . .	92
6.6	Sample Size When Characteristic of Interest Is Difference of Proportions . . . . .	93
6.7	Relevance for Managers. . . . .	95
	References. . . . .	97
<b>7</b>	<b>Define Phase. . . . .</b>	<b>99</b>
7.1	Project Charter . . . . .	99
7.1.1	The Problem Statement . . . . .	99
7.1.2	The Goal (or Result) Statement. . . . .	100
7.1.3	Customer Identification . . . . .	101
7.1.4	Process Models. . . . .	104
7.2	Defining Team Roles. . . . .	106
7.3	Managing the Project Team . . . . .	109
7.4	Planning Tools . . . . .	111
7.4.1	Gantt Chart . . . . .	112
7.4.2	Affinity Diagram . . . . .	113
7.5	Process Map and Flowchart . . . . .	114
7.6	Quality Function Deployment (QFD). . . . .	116
7.6.1	House of Quality . . . . .	116
7.6.2	Kano's Model . . . . .	117
7.7	Understanding Defects, DPU, and DPMO . . . . .	118
7.8	Incorporating Suggestions, Improvements, and Complaints. . .	120
7.9	Readying for the Next Phase . . . . .	120
7.10	Define Check Sheets . . . . .	121
7.11	Relevance for Managers. . . . .	121
	References. . . . .	122
<b>8</b>	<b>Measure Phase . . . . .</b>	<b>123</b>
8.1	Initiating Measure Phase . . . . .	123
8.2	Process Mapping. . . . .	124
8.2.1	Voice of Customer . . . . .	125
8.2.2	Voice of Process. . . . .	127
8.3	Adding Value Through Customer Service . . . . .	128
8.4	Value Stream Mapping . . . . .	129
8.5	Data Collection Plan . . . . .	130
8.5.1	Unit of Analysis . . . . .	131
8.5.2	Characteristics of Interest. . . . .	131
8.5.3	Data Types . . . . .	132
8.6	Cycle Time, Takt Time, Execution Time, and Delay Time . . .	134

8.7	Measurement System Analysis . . . . .	135
8.7.1	Assessing Bias in Continuous Measurements . . . . .	136
8.7.2	Assessing Bias of Attribute Data. . . . .	141
8.8	Descriptive Statistics . . . . .	146
8.8.1	Measures of Accuracy . . . . .	147
8.8.2	Measures of Symmetry and Shape . . . . .	149
8.9	Describing Sources of Variation . . . . .	153
8.9.1	Pareto Chart . . . . .	153
8.9.2	Control Charts . . . . .	154
8.9.3	Cause and Effect Diagram . . . . .	155
