

# Contents

## Part I Intelligent Applications in Communication

<b>1</b>	<b>ANFIS-Based Symbol Recovery in Multi-antenna Stochastic Channels</b> . . . . .	<b>3</b>
	Banti Das, Manasjyoti Bhuyan and Kandarpa Kumar Sarma	
<b>2</b>	<b>STBC Decoding with ANN in Wireless Communication</b> . . . . .	<b>19</b>
	Samar Jyoti Saikia and Kandarpa Kumar Sarma	
<b>3</b>	<b>Carrier Phase Detection of Faded Signals Using Digital Phase-Locked Loop</b> . . . . .	<b>29</b>
	Basab Bijoy Purkayastha and Kandarpa Kumar Sarma	
<b>4</b>	<b>Adaptive MRC for Stochastic Wireless Channels</b> . . . . .	<b>49</b>
	Atlanta Choudhury and Kandarpa Kumar Sarma	
<b>5</b>	<b>ZF- and MMSE Based-Equalizer Design in IEEE 802.15.4a UWB Channel</b> . . . . .	<b>61</b>
	Tapashi Thakuria and Kandarpa Kumar Sarma	

## Part II Selected Issues in Biomedical and Social Science

<b>6</b>	<b>Role of Baby's Birth Symptoms and Mother's Pregnancy Conditions on Children's Disability Determined Using Multiple Regression and ANN</b> . . . . .	<b>77</b>
	Jumi Kalita, Kandarpa Kumar Sarma and Pranita Sarmah	
<b>7</b>	<b>A Soft Computational Framework to Predict Alzheimer's Disease (AD) from Protein Structure</b> . . . . .	<b>87</b>
	Hemashree Bordoloi and Kandarpa Kumar Sarma	

<b>8 Identification of Stages of Industrial Sickness of Large- and Medium-Scale Units Using Certain Soft-Computational Approach . . . . .</b>	<b>95</b>
Deepak Goswami, Kandarpa Kumar Sarma and Padma Lochan Hazarika	

### **Part III HCI and Bio-inspired System Design**

<b>9 Adaptive Hand Segmentation and Tracking for Application in Continuous Hand Gesture Recognition . . . . .</b>	<b>115</b>
Dharani Mazumdar, Madhurjya Kumar Nayak and Anjan Kumar Talukdar	
<b>10 Multicore Parallel Computing and DSP Processor for the Design of Bio-inspired Soft Computing Framework for Speech and Image Processing Applications . . . . .</b>	<b>125</b>
Dipjyoti Sarma and Kandarpa Kumar Sarma	

### **Part IV Soft Computing and Hybrid System Based Speech Processing Applications**

<b>11 Comparative Analysis of Neuro-Fuzzy Based Approaches for Speech Data Clustering . . . . .</b>	<b>137</b>
Pallabi Talukdar, Mousmita Sarma and Kandarpa Kumar Sarma	
<b>12 Effective Speech Signal Reconstruction Technique Using Empirical Mode Decomposition Under Various Conditions . . . . .</b>	<b>151</b>
Nisha Goswami, Mousmita Sarma and Kandarpa Kumar Sarma	
<b>13 Assamese Vowel Speech Recognition Using GMM and ANN Approaches . . . . .</b>	<b>163</b>
Debashis Dev Misra, Krishna Dutta, Utpal Bhattacharjee, Kandarpa Kumar Sarma and Pradyut Kumar Goswami	

### **Part V Review Chapters on Selected Areas**

<b>14 Speech Recognition in Indian Languages—A Survey . . . . .</b>	<b>173</b>
Mousmita Sarma and Kandarpa Kumar Sarma	

Contents	xiii
<b>15 Recent Trends in Power-Conscious VLSI Design—A Review . . . .</b>	<b>189</b>
Manash Pratim Sarma	
<b>16 Application of Soft Computing Tools in Wireless</b>	
<b>Communication—A Review. . . . .</b>	<b>197</b>
Kandarpa Kumar Sarma	
<b>Author Index . . . . .</b>	<b>209</b>
