

# Contents

<b>1 Bulk Chemical Production: Chemo- and Bio-integrated Strategies. . . . .</b>	<b>1</b>
Huibin Zou, Guang Zhao, Hui Liu and Mo Xian	
<b>2 Chemical Conversion of Biomass to Green Chemicals . . . . .</b>	<b>19</b>
Yijun Jiang, Xicheng Wang, Quan Cao, Linlin Dong, Jing Guan and Xindong Mu	
<b>3 Bioconversion of Biomass to Bulk Chemicals. . . . .</b>	<b>51</b>
Biqiang Chen, Yifeng Tao, Meng Wang, Di Cai and Tianwei Tan	
<b>4 Microbial Production of Value-Added Chemicals from Pyrolysis Oil and Syngas . . . . .</b>	<b>69</b>
Anke Neumann, Stefan Dörsam, Florian Oswald and Katrin Ochsenreither	
<b>5 Combining Bio- and Chemo-catalysis for the Sustainable Production of Chemicals . . . . .</b>	<b>107</b>
Xiaohan Liu, Fabio Lorenzini and Andrew C. Marr	
<b>6 Utilization of Green Chemical Techniques in Enzymolysis of Cellulose . . . . .</b>	<b>139</b>
Lu Li, Shitao Yu, Shiwei Liu, Fusheng Liu and Congxia Xie	

Sustainable Production of Bulk Chemicals  
Integration of Bio-□Chemo- Resources and Processes

Xian, M. (Ed.)

2015, VII, 154 p. 69 illus. in color., Hardcover

ISBN: 978-94-017-7473-4
