# Contents

<b>1</b>	<b>Introduction</b> . . . . .	1
1.1	A Book on Icelandic Soils . . . . .	1
1.2	Soil—Mold . . . . .	1
1.3	Soil Science in Iceland . . . . .	2
	References. . . . .	3
<b>2</b>	<b>High in the North—Climate, People, and Agriculture</b> . . . . .	5
2.1	The Climate . . . . .	5
2.2	The People. . . . .	6
2.3	Agriculture and Land Use . . . . .	9
2.4	Forestry in Iceland . . . . .	12
	References. . . . .	14
<b>3</b>	<b>Geology</b> . . . . .	17
3.1	Introduction . . . . .	17
3.2	Why Does Iceland Exist? The Mantle Plume Under Iceland . . . . .	17
3.3	Volcanoes and Active Volcanic Systems . . . . .	19
3.4	Tephra and Volcanic Ash. . . . .	21
3.5	Tephrochronology. . . . .	22
3.6	Glaciation—The Quaternary . . . . .	22
3.7	Older Rocks—The Tertiary . . . . .	25
3.8	The Magnificent Glaciers. . . . .	26
3.9	Rivers and Streams . . . . .	29
	References. . . . .	33
<b>4</b>	<b>Vegetation and Ecosystems</b> . . . . .	35
4.1	Introduction . . . . .	35
4.2	Vegetation Classes and Common Plant Species . . . . .	35
4.3	Vegetation Cover and Relation to Elevation . . . . .	41
4.4	Wetlands, Drainage and Agriculture . . . . .	42
4.5	The Desert Ecosystems . . . . .	43
4.6	The Biological Soil Crusts . . . . .	44
4.7	Introduced and Invasive Species . . . . .	44
	References. . . . .	45
<b>5</b>	<b>Andosols—Soils of Volcanic Regions</b> . . . . .	47
5.1	Introduction . . . . .	47
5.2	Classification . . . . .	47
5.3	The Colloidal Constituents of Andosols—The Soils of Iceland . . . . .	48
5.3.1	Clay Mineral Formation in Andosols. . . . .	48
5.3.2	Allophane and Other Andosol Clays: Odd ‘Creatures’ Among Clay Minerals . . . . .	49
5.4	Allophane–Humus and Metal–Humus Complexes . . . . .	51

5.5	Andosols and the Carbon Cycle . . . . .	51
5.6	The Three Axes of Andosols: Vitric, Allophanic, and Metal–Humus Complex Andosols . . . . .	52
5.7	Physical Properties . . . . .	52
5.8	Chemical Properties . . . . .	53
	References. . . . .	53
<b>6</b>	<b>Classification and the Main Soil Types. . . . .</b>	<b>55</b>
6.1	Introduction and Historical Notes . . . . .	55
6.2	Main Classes . . . . .	56
6.3	Andosols . . . . .	57
6.3.1	The Pedogenic Parameters Underlying the Separation of Andosols . . . . .	58
6.3.2	The Andosol Classes: Brown, Gleyic, and Histic Andosols . . . .	60
6.4	Histosols . . . . .	64
6.5	Vitrisols—The Andic Soils of the Deserts . . . . .	65
6.6	Other Soils. . . . .	66
6.7	The Mosaic . . . . .	67
6.8	The Soil Map of Iceland . . . . .	69
	References. . . . .	70
<b>7</b>	<b>Physical Characteristics . . . . .</b>	<b>71</b>
7.1	Stratification of Soil Horizons . . . . .	71
7.2	Texture . . . . .	71
7.3	Bulk Density . . . . .	73
7.4	Hydrological Characteristics . . . . .	73
7.4.1	Infiltration . . . . .	73
7.4.2	Water Retention . . . . .	74
7.5	Cohesion and Erosion Susceptibility . . . . .	77
7.6	Simplified Pedon Descriptions . . . . .	80
	References. . . . .	88
<b>8</b>	<b>Chemical Characteristics. . . . .</b>	<b>91</b>
8.1	Introduction and pH . . . . .	91
8.2	Charge Characteristics . . . . .	93
8.3	Phosphorus Retention . . . . .	94
8.4	Oxalate and Pyrophosphate Extraction. . . . .	95
8.5	Carbon and Nitrogen. . . . .	96
8.5.1	General Carbon Levels . . . . .	96
8.5.2	Carbon Stocks—Accumulation . . . . .	96
8.5.3	The Icelandic Wetlands in Relation to Carbon Budgets . . . . .	98
8.5.4	Nitrogen . . . . .	99
8.6	Trace Elements. . . . .	100
8.7	Biology . . . . .	101
8.8	Chemical Data for Nine Selected Soil Pedons. . . . .	101
	References. . . . .	103
<b>9</b>	<b>Genesis and Mineralogical Characteristics . . . . .</b>	<b>107</b>
9.1	Minerals . . . . .	107
9.1.1	Allophane and Imogolite . . . . .	107
9.1.2	Ferrihydrite . . . . .	108
9.1.3	Organo-mineral Complexes . . . . .	108
9.2	Total Chemical Composition . . . . .	109
9.3	Micromorphology . . . . .	110

9.4	Genesis . . . . .	112
9.4.1	Andosols . . . . .	113
9.4.2	Vitrisols—The Vitric Soils of the Deserts . . . . .	114
9.4.3	Histosols . . . . .	115
9.5	Chemical Weathering and Denudation . . . . .	115
	References. . . . .	116
<b>10</b>	<b>Frost and the Soil Environment. . . . .</b>	<b>119</b>
10.1	Arctic—Periglacial Environments . . . . .	119
10.2	Water Freezes in the Soil. . . . .	120
10.3	Soil Frost, Types of Ice, and Surface Runoff . . . . .	123
10.4	Needle-Ice Formation . . . . .	123
10.5	Thufur. . . . .	125
10.5.1	Thufur over Shallow Water Table. . . . .	126
10.5.2	‘Dryland Thufur’—Thufur in Areas Without the Presence of Shallow Water Table. . . . .	126
10.5.3	Thufur, Geography, and Some General Considerations . . . . .	129
10.6	Solifluction . . . . .	129
10.7	Patterned Desert Ground . . . . .	131
10.8	Palsas . . . . .	133
10.9	The Rock Glacier Dilemma . . . . .	135
10.10	Permafrost . . . . .	135
10.11	Construction and Soil Frost . . . . .	135
	References. . . . .	135
<b>11</b>	<b>The Volcanic Aeolian Environments of Iceland . . . . .</b>	<b>139</b>
11.1	Introduction . . . . .	139
11.2	Icelandic Sand Surfaces and the Origins of the Sand. . . . .	140
11.2.1	Extent . . . . .	140
11.2.2	Sand-Fields . . . . .	140
11.2.3	Sandy Lag-Gravel. . . . .	143
11.2.4	Sandy Lava Surfaces. . . . .	145
11.3	Composition. . . . .	145
11.4	The Redistribution of the Materials . . . . .	145
11.5	Wind Erosion Rates in Iceland . . . . .	147
11.6	The Dust Hotspots: Sandy Areas and Dust Plume Areas . . . . .	147
11.7	Quantification of Aeolian Sedimentation in Iceland and Implications for Soils and Ecosystems. . . . .	148
	References. . . . .	151
<b>12</b>	<b>Collapse, Erosion, Condition, and Restoration . . . . .</b>	<b>153</b>
12.1	Collapse . . . . .	153
12.2	Resilience and Impacts: A Little History of Soils and Vegetation . . . . .	153
12.2.1	Evidence of Ecosystem Changes. . . . .	153
12.2.2	Aeolian Deposition Rates. . . . .	155
12.2.3	Vegetation—Pollen . . . . .	156
12.2.4	Impacts, Resilience and Stability. . . . .	157
12.3	Soil Erosion. . . . .	160
12.3.1	Erosion Forms . . . . .	160
12.3.2	Advancing Sand Fronts (Encroaching Sand). . . . .	161
12.3.3	Rofabards . . . . .	161
12.3.4	Erosion Spots. . . . .	163
12.3.5	Hill Slopes: Solifluction, Water Channels, and Landslides . . . . .	164
12.3.6	Erosion Associated with Desert Landforms . . . . .	165

---

12.4	Wetland Disturbance . . . . .	167
12.5	Reading the Land—A Simple Scheme for Land Condition . . . . .	168
12.5.1	A Simple Land Condition Scheme . . . . .	168
12.5.2	Condition of Communal Grazing Areas . . . . .	172
12.6	Erosion Control and Restoration Perspectives . . . . .	173
12.6.1	Early Efforts and Drivers for Restoration . . . . .	173
12.6.2	Revegetation—Restoration . . . . .	174
12.6.3	Reclamation and Soil Development . . . . .	174
12.6.4	Many Ecosystems Are Being Reclaimed . . . . .	176
	References . . . . .	177
<b>Index</b>	. . . . .	<b>181</b>

The Soils of Iceland

Arnalds, O.

2015, XVII, 183 p. 186 illus., 169 illus. in color.,

Hardcover

ISBN: 978-94-017-9620-0
