

Contents

1	Literature Review and General Concepts	1
1.1	The Study Area	1
1.2	Physical and Anthropogenic Factors Affecting Floods	2
1.3	Previous Studies	4
	References	5
2	Methodology and Tools of Analysis	7
2.1	Methodology	7
2.2	Tools for Analysis	9
2.2.1	Data and Supplementary Information	10
2.2.2	Maps	10
2.2.3	Digital Elevation Models (DEMs).....	10
2.2.4	Satellite Images	10
2.2.5	Software.....	10
2.3	Satellite Image Processing.....	11
2.4	Geographic Information System (GIS)	13
2.5	Digital Elevation Models (DEMs).....	14
2.6	Field Verification	15
	References	16
3	Physical and Anthropogenic Factors	17
3.1	Drainage Systems	17
3.2	Rainfall Distribution	23
3.3	Geomorphologic and Geologic Characteristics	25
3.3.1	Geomorphology	25
3.3.2	Geology	29
3.4	Urban Expansion	30
	References	32
4	Floods and Torrents in Jeddah	33
4.1	Floods and Torrents in November 2009	34
4.2	Floods and Torrents in January 2011	35

4.3	Distribution of Floods and Torrents in Jeddah	38
4.4	Aspect of Floods and Torrents Distribution in Jeddah	40
	References	43
5	Hydrological Analysis of DEMs	45
5.1	Terrain Slope.....	46
5.2	Valley Cross-Sections.....	47
5.3	Channel Slope.....	50
5.4	Depressions.....	53
	References	56
6	Geometric and Morphometric Analysis of Drainage Systems	57
6.1	Geometric Analysis of Drainage Systems	57
6.1.1	Length/Width Ration	57
6.1.2	Shape Factor (S_f)	58
6.1.3	Width/Outlet Width Ration (W_b/W_o).....	58
6.2	Morphometric Analysis of Drainage Systems	60
6.2.1	Drainage Density	60
6.3	Streams Order.....	62
6.4	Meandering Ratio (M_r).....	63
6.4.1	Intersection Ration (I_r)	63
	References	66
7	Data Analysis and Manipulation	67
7.1	Rainfall and Floods.....	67
7.2	Geomorphologic Shape of Terrain and Water Flow	70
7.3	Geometric Analysis of Basins and Water Flow Regime.....	72
7.4	Morphometric Analysis and Flow Mechanism.....	73
7.5	Geographic Distribution of Floods.....	75
7.6	Urban Expansion and Floods in Jeddah City	76
	References	79
8	Data Modeling for Floods and Torrents Assessment	81
8.1	Floods and Torrents Map of Jeddah Area	82
8.2	Damaged Areas from Floods and Torrents	83
8.2.1	Field Verification	83
8.2.2	Damage Classification.....	84
8.3	Influencing Factors in Floods and Torrents.....	87
8.4	Mapping Floods and Torrents Risk	90
	References	96
9	Localities Damaged by Floods and Torrents	97
9.1	First Risk Category Localities	100
9.2	Second Risk Category Localities.....	108
9.3	Third Risk Category Localities	113
	References	117

10	The Existing Flood Controls in Jeddah	119
10.1	Absence of Flood Controls	120
10.2	Small-Scale Flood Controls.....	120
10.3	Large-Scale Flood Controls.....	121
10.3.1	Old Water Channel “ <i>Storm-Water Drainage</i> ”	122
10.3.2	Dams.....	124
10.4	Erroneous Flood Controls.....	125
10.4.1	Examples of Erroneous Small-Scale Controls	126
10.4.2	Examples of Erroneous Large-Scale Controls.....	129
10.5	Proposed Projects and Programs	137
10.5.1	The Rapid Solution.....	138
10.5.2	The “Natural Disasters Management Center”	138
	References	139
11	Required Controls for Floods and Torrents in Jeddah Region	141
11.1	Small-Scale Flood Controls.....	142
11.1.1	Fixing Weights.....	142
11.1.2	Retaining Walls.....	143
11.1.3	Open Channels.....	145
11.1.4	Small-Scale Tunnels	146
11.1.5	Stabilizing Terrain Surface by Vegetation Cover.....	146
11.2	Medium-Scale Flood Controls	147
11.2.1	Check Dams.....	147
11.2.2	Valley Obstacles.....	148
11.2.3	Valley Terraces.....	150
11.2.4	Bridges.....	151
11.2.5	The “Infiltration Domains”	151
11.3	Large-Scale Flood Controls.....	153
11.3.1	Widening the Old Channel and Constructing Basins	153
11.3.2	Convey Channels and Crossing Canyons.....	155
11.3.3	Retaining Dams	158
11.3.4	Integrated Plan to Support Sandy Flood Plains	159
11.3.5	Execution of the Proposed Infrastructure Works	160
11.4	Logistic Flood Controls.....	160
	References	161
12	Discussion and Conclusion.....	163
	Index	167

Flood Control Management for the City and
Surroundings of Jeddah, Saudi Arabia

Al Saud, M.

2015, XIII, 169 p. 106 illus., 102 illus. in color.,
Hardcover

ISBN: 978-94-017-9660-6
