

Contents

1	Introduction to Human Action Analysis	1
1.1	Overview	1
1.2	Action Recognition	3
1.3	Action Detection	3
1.4	Action Search	4
1.5	Action Prediction	5
1.6	Tree-Based Approaches	5
1.7	Outline of the Book	6
	References	7
2	Supervised Trees for Human Action Recognition and Detection	9
2.1	Introduction	9
2.2	Multiclass Action Recognition	11
2.2.1	Mutual Information-Based Classification	11
2.2.2	Random Forest-Based Voting	12
2.3	Action Detection and Localization	15
2.3.1	Spatial Down-Sampling	16
2.3.2	Top-K Search Algorithm	19
2.4	Experiments	21
2.4.1	Action Classification	21
2.4.2	Action Detection	22
2.4.3	Computational Cost	25
2.5	Summary of this Chapter	26
	References	27
3	Unsupervised Trees for Human Action Search	29
3.1	Introduction	29
3.2	Video Representation and Randomized Visual Vocabularies	32
3.3	Action Matching Using Randomized Visual Vocabularies	34

3.4	Efficient Action Search.	36
3.4.1	Coarse-to Hierarchical Subvolume Search Scheme.	36
3.4.2	Refinement with Hough Voting.	38
3.4.3	Interactive Search	39
3.4.4	Computational Complexity	40
3.5	Experimental Results	41
3.5.1	Action Classification on KTH.	42
3.5.2	Action Detection on MSR II.	42
3.5.3	Action Retrieval on MSR II	44
3.5.4	Action Retrieval on CMU Database.	46
3.5.5	Action Retrieval on Youtube Video.	48
3.5.6	Action Retrieval on UCF Sports Database	48
3.5.7	Action Retrieval on Large-Scale Database	49
3.5.8	Implementation Issues	50
3.5.9	Computational Cost	51
3.6	Summary of this Chapter	54
	References	55
4	Propagative Hough Voting to Leverage Contextual Information . .	57
4.1	Introduction	57
4.2	Activity Recognition by Detection	59
4.3	Propagative Interest Point Matching	61
4.3.1	Random Projection Trees	61
4.3.2	Theoretical Justification	62
4.4	Scale Determination	63
4.5	Experiments	64
4.5.1	RPT on the Testing Data	65
4.5.2	RPT on the Training Data	67
4.5.3	Computational Complexity	70
4.6	Summary of this Chapter	71
	References	71
5	Human Action Prediction with Multiclass Balanced Random Forest	73
5.1	Introduction	73
5.2	Problem Formulation	74
5.3	Matching and Predicting.	76
5.4	Experiments	78
5.5	Summary of this Chapter	80
	References	81
6	Conclusion.	83

Human Action Analysis with Randomized Trees

Yu, G.; Yuan, J.; Liu, Z.

2015, VIII, 83 p. 30 illus. in color., Softcover

ISBN: 978-981-287-166-4
