1	Introduction	1
1.1	Research Problem	1
1.2	Research Scope	3
1.3	Research Aim and Objectives	3
1.4	Research Methodology	4
1.5	Research Significance	5
1.6	Organization of the Book	6
	References	7
2	Theories of Economic Development	11
2.1	Introduction	11
2.2	Goals of Economic Development	12
2.2.1	Growth of Gross National Product	12
2.2.2	Quality of Life	12
2.2.3	Sustainable Development	13
2.2.4	The Millennium Development Goals	14
2.3	The Evolution of Economic Development Thoughts	15
2.3.1	Early Views About the Nature of Economic Society and Prosperity	15
2.3.2	Classical Theories of Economic Development	16
2.3.3	Contemporary Theories of Economic Development	19
2.4	Summary	22
	References	24
3	Construction and Economic Development	27
3.1	Introduction	27
3.2	Some Basic Concepts of the Construction Industry	28
3.2.1	Construction as an Economic Activity	28
3.2.2	Construction Products	29
3.2.3	Structure of the Construction Industry	30

3.3	Major Economic Factors Influencing Construction Activity	31
3.3.1	Instability of Demand	31
3.3.2	Main Construction Inputs	32
3.3.3	Sources of Finance	35
3.4	Construction and Aggregate Output	36
3.4.1	Capital Formation	36
3.4.2	National Income	38
3.4.3	Other Observations	40
3.5	Construction and Sectoral Output	41
3.5.1	Backward Linkages	41
3.5.2	Forward Linkages	42
3.6	Construction and Macroeconomic Stabilization	43
3.7	Government Institutions for Construction Industry Development	44
3.8	Conclusions	46
	References	47
4	Trade and Economic Development	53
4.1	Introduction	53
4.2	Trade Between Nations and Some General Features	53
4.3	International Trade and Economic Development	54
4.4	International Market Access Issues and Trade Policies for Developing Countries	59
4.5	Trade Policy Institutions	61
4.6	Summary	62
	References	63
5	Public Investments in Infrastructure for Trade and Economic Development	67
5.1	Introduction	67
5.2	Theory of Coordination Failure and Role of Government	68
5.3	Public Investments in Infrastructure and Knowledge Gap	69
5.4	Infrastructure Planning and Implementing in Developing Countries	71
5.4.1	Problems in Infrastructure Planning	71
5.4.2	Problems in the Implementation of Infrastructure Plans	73
5.5	Conclusions	75
	References	76
6	Vietnam—Economic, Trade and Infrastructure Overview	81
6.1	Introduction	81
6.2	Vietnam—Country and Economic Overview	81

6.2.1	Geography and Population	81
6.2.2	Economic Overview	83
6.3	Integration into the World Economy.	88
6.3.1	Trade Liberalization.	88
6.3.2	International Trade and Economic Growth	90
6.4	Infrastructure Development	95
6.4.1	Infrastructure-Related Indicators Compared to Other Asian Countries	95
6.4.2	Government Planning on Infrastructure Development	100
6.5	Construction Industry	101
6.5.1	Construction and Economic Growth.	101
6.5.2	Construction Labour, Materials and Equipment	103
6.5.3	Legal Environment	108
6.5.4	Industry Structure for Infrastructure Development	109
6.5.5	National Professional Organizations.	112
6.5.6	Infrastructure Construction	113
6.6	Government Institutions Involved in the Development Planning Process	117
6.6.1	Overview of the Governmental System	117
6.6.2	Coordination of Planning Across Ministries	118
6.6.3	Ministries in Construction, Infrastructure and Trade Sectors	121
6.7	Conclusions	127
	References	128
7	Research Methodology	135
7.1	Introduction	135
7.2	Qualitative Versus Quantitative Methods.	135
7.3	Research Design	137
7.4	Longitudinal Survey.	138
7.5	Questionnaire Survey	139
7.5.1	Data Collection.	139
7.5.2	Data Analysis	143
7.6	In-depth Interviews	149
7.7	Two-Stage Validation.	150
7.8	Summary	152
	References	153
8	Data Analysis and Discussions	157
8.1	Introduction	157
8.2	Longitudinal Analysis.	158
8.3	Factor Analysis	161

8.3.1	Sample Profile	161
8.3.2	Ranking of Problems' Occurrence and Criticality	161
8.3.3	Factor Analysis of Problems' Occurrence	170
8.4	Structural Equation Modelling (SEM)	184
8.4.1	Hypotheses and the Model	184
8.4.2	Evaluation of the Measurement Model	187
8.4.3	Evaluation of the Structural Model	190
8.4.4	Interpreting Relationships	191
8.5	Interviews and Discussion	193
8.5.1	Profile of Interviewees	193
8.5.2	Inadequate Forecasting Capacity	194
8.5.3	Lack of Transparency and Accountability in Infrastructure Development	195
8.5.4	Lack of an Effective Land Acquisition Framework	198
8.5.5	Insufficient Building Capacity of Local Firms	201
8.5.6	Insufficient Institutional Capacity of the Government	205
8.6	Summary	209
	References	210
9	Conclusions	213
9.1	Introduction	213
9.2	Major Findings	214
9.2.1	Efficiency Level of Public Investments in Infrastructure	214
9.2.2	Factors Affecting the Efficient Use of Public Investments in Infrastructure	215
9.3	Recommendations	219
9.3.1	Institutional Capacity of the Government	220
9.3.2	Transparency and Accountability	221
9.3.3	Land Acquisition	222
9.3.4	Building Capacity of Local Firms	223
9.4	Validation	224
9.4.1	Institutional Capacity of the Government	225
9.4.2	Transparency and Accountability	226
9.4.3	Land Acquisition	227
9.4.4	Building Capacity of Local Firms	228
9.5	Contributions and Implications	229
9.5.1	Theoretical Contributions	229
9.5.2	Practical Policy Implications	231
9.6	Limitations of the Research	234
9.7	Suggestions for Future Research	235
