Contents

1 Introduction to Socioecological Dimensions of Infectious Diseases and Health in Southeast Asia 1
Serge Morand, Jean-Pierre Dujardin, Régine Lefait-Robin, and Chamnarn Apiwathnasorn

Part I Infectious Diseases and Societies

2 Climate, Environment and Epidemic Febrile Diseases: A View from Chinese Medicine 9
Dominique Buchillet

3 Long Life of People Living with HIV/AIDS and the Practice of Medical Power 27
Malee Sitthikriengkrai and Chayan Vaddhanaphuti

4 Socio-environmental Global Changes and Infectious Diseases: Interdisciplinary Approach Applied to Tourism Studies 43
Bernard Moizo

Part II Socio-ecosystems and Health

5 Heavy Metals Contamination in the Ecosystem of Mae Thang Reservoir in Northern Thailand 57
Séraphine Grellier, Patrick Seyler, Clément Petitjean, Marie-Paule Bonnet, Warinya Thothong, and Jean-Louis Janeau

6 Water and Health: What Is the Risk and Visible Burden of the Exposure to Environmental Contaminations? Insights from a Questionnaire-Based Survey in Northern Thailand 75
Vincent Herbreteau, Kraichat Tantrakarnapa, Wasana Khaungaew, and Jean-Louis Janeau

7 Melioidosis in Laos 89
Yves Buisson, Sayaphet Rattanavong, Valy Keoluangkhot, Khamsing Vongphayloth, Loungnilanh Manivanh, Rattanaphone Phetsouvanh, Alain Pierret, Jean-Luc Maeght, Vanaporn Wuthiekanun, Paul N. Newton, and David A.B. Dance

Part III Global Changes, Land Use Changes and Vector-Borne Diseases

8 Adaptation of Mosquito Vectors to Salinity and Its Impact on Mosquito-Borne Disease Transmission in the South and Southeast Asian Tropics 107
Ranjan Ramasamy, Sinnathamby N. Surendran, Pavilupillai J. Jude, Sangaralingam Dharshini, and Muthuladchumy Vinobaba

9 The Malaria Landscape: Mosquitoes, Transmission, Landscape, Insecticide Resistance, and Integrated Control in Thailand 123
Hans J. Overgaard, Wannapa Suwonkerd, and Jeffrey Hii

10 Rubber Plantations as a Mosquito Box Amplification in South and Southeast Asia 155
Padikkala Kandiyil Sumodan, Ronald Morales Vargas, Jinrapa Pothikasikorn, Anchana Sumanrote, Régine Lefait-Robin, and Jean-Pierre Dujardin

Part IV Monitoring and Data Acquisition

11 Rescuing Public Health Data 171
Marc Choisy, Philavanh Sitboulang, Malyvanh Vongpanhya, Chantalay Saiyavong, Bouaphanh Khamphaphongphanh, Bounlay Phommasack, Fabrice Quet, Yves Buisson, Jean-Daniel Zucker, and Wilbert van Pahuis

12 The New Science of Metagenomics and the Challenges of Its Use in Both Developed and Developing Countries 191
Edi Prifti and Jean-Daniel Zucker

13 Barcoding, Biobanking, e-Banking: From Ecological to Ethical and Legal Aspects. Insights from the PathoDivSEA Project 217
Claire Lajaunie and Serge Morand

Part V Managing Health Risks

14 Methods for Prioritisation of Diseases: Case Study of Zoonoses in Southeast Asia 231
Marion Bordier, Lucas Léger, Suwicha Kasemsuwan, Sirichai Wongnarkpet, and François Roger

15 Managing Global Risks: Vietnamese Poultry Farmers and Avian Flu 257
Muriel Figué and Stéphanie Desvaux

16 The OIE Strategy to Address Threats at the Interface Between Humans, Animals and Ecosystems 275
Alexandre Bouchot and Marion Bordier

Part VI Developing Strategies

17 Business for Biodiversity and Ecosystem Services 295
Valérie Boisvert, Hélène Tordjman, and Frédéric Thomas

18 Bridging the Gap Between Conservation and Health 307
Angela Yang, Peter M. DiGeronimo, and Alexandre Azevedo

19 Implementation of the One Health Strategy: Lessons Learnt from Community-Based Natural Resource Programs for Communities' Empowerment and Equity Within an EcoHealth Approach 325
Aurélie Binot and Serge Morand
