

Contents

1	Physical and Chemical Properties of Nucleic Acids	1
	Daphne Real	
2	Sampling for Biostatistics	15
	Angela Conley and Jason Pfefferkorn	
3	Sampling of Microbiological Samples	25
	Christina Stam, Alberto Behar, and Moogega Cooper	
4	Techniques for Nucleic Acid Purifications from Plant, Animal, and Microbial Samples	41
	Jordan Ruggieri, Ryan Kemp, Stanislav Forman, and Marc E. Van Eden	
5	Magnetic Beads Based Nucleic Acid Purification for Molecular Biology Applications.....	53
	Nives Kovačević	
6	Systems for Mechanical Sample Lysis and Homogenization for Molecular Biology Applications.....	69
	James A. Atwood III	
7	Bead Beating Offers High-Performance Homogenization for Molecular Biology Downstream Processing of Tough and Difficult Samples	85
	Vanessa M. Yu	
8	High Performance Bead Beating Based Lysing, Homogenization and Grinding for DNA, RNA and Proteins Extraction with FastPrep® Systems	99
	Miodrag Mičić, Jeffrey D. Whyte, and Véronique Karsten	
9	Portable Systems for Sample Lysis and Homogenization	117
	Horacio Kido	

10	DNA and RNA Extractions from Mammalian Samples.....	125
	Shuko Harada	
11	Sample Preparation for Multiplex PCR Assays for Food and Agriculture Applications.....	139
	Rachel Binet and Aparna Tatavarthy	
12	Nucleic Acid Sample Preparation from Stem Cells	153
	Mirjana Pavlović	
13	Nucleic Acid Sample Preparation from Teeth/Dental Remains.....	183
	Denice Higgins and Jeremy J. Austin	
14	Nucleic Acid Sample Preparation for Food Traceability	195
	Leonor Pereira, Sónia Gomes, and Paula Martins-Lopes	
15	Nucleic Acid Sample Preparation for Quantitative and Qualitative GMO Analysis.....	217
	Maher Chaouachi	
16	Nucleic Acid Sample Preparation from Dairy Products and Milk.....	231
	Julie Ann Kase and Tina Lusk Pfefer	
17	Extraction of DNA from Plant Tissue: Review and Protocols.....	245
	Farshad Tamari and Craig S. Hinkley	
18	DNA Extraction from Seeds.....	265
	Célio Dias Santos Júnior, Natália Melque Monteiro Teles, Denis Prudêncio Luiz, and Thais Ferreira Isabel	
19	RNA Extractions from Difficult to Prepare and High Starch Content Seeds	277
	Preeya Puangsomlee Wangsomnuk, Benjawan Ruttawat, Wipavadee Rittithum, Pinich Wangsomnuk, Sanun Jogloy, and Aran Patanothai	
20	Nucleic Acid and Protein Sample Preparation from Yeasts.....	285
	Zhaohua Tang and Gretchen Edwalds-Gilbert	
21	Nucleic Acid Purification from Soil and Environmental Sources	307
	Moogega Cooper and Christina Stam	
22	Extraction and Purification of Viral Nucleic Acids from Environmental Samples	315
	Brandon C. Iker, Masaaki Kitajima, and Charles P. Gerba	
23	Preparation of Nucleic Acids from Marine Samples: Applications to Microbial Ecology Research.....	325
	Karine Lemarchand, Thomas Pollet, Vincent Lessard, and M. Amine Badri	

24	Nucleic Acid Sample Preparation from Feces and Manure.....	341
	Tim Reuter and Rahat Zaheer	
25	Bead-Beating Sample Preparation for Nucleic Acids Isolation from Fecal Samples.....	353
	Jeffrey D. Whyte	
26	Methods for Extraction and Purification of Lignin and Cellulose from Plant Tissues.....	365
	Ksenija Radotić and Miodrag Mičić	
27	Separation and Purification of Glycans Out of Glycoproteins	377
	Olga Gornik, Toma Keser, and Gordan Lauc	
28	Prion Extraction Methods: Comparison of Bead Beating, Ultrasonic Disruption, and Repeated Freeze-Thaw Methodologies for the Recovery of Functional Renilla-Prion Fusion Protein from Bacteria.....	389
	Robert M. Hnasko, Alice V. Lin, Larry H. Stanker, Kumar Bala, and Jeffery A. McGarvey	
	Index.....	401

Sample Preparation Techniques for Soil, Plant, and
Animal Samples

Micic, M. (Ed.)

2016, XXIII, 406 p. 96 illus., 65 illus. in color., Hardcover

ISBN: 978-1-4939-3184-2
