

Contents

Part I Basic Epithelial Ion Transport Principles and Function

1	Fundamentals of Epithelial Cl^- Transport	3
	Bruce D. Schultz and Daniel C. Devor	
2	Fundamentals of Epithelial Na^+ Absorption	49
	Alexander Staruschenko, Daria V. Ilatovskaya, and Kenneth R. Hallows	
3	Physiologic Influences of Transepithelial K^+ Secretion	95
	Dan R. Halm	
4	Volume Regulation in Epithelia	131
	Erik Hviid Larsen and Else Kay Hoffmann	
5	Fundamentals of Bicarbonate Secretion in Epithelia	187
	Ivana Novak and Jeppe Praetorius	
6	Mathematical Modeling of Epithelial Ion Transport	265
	David P. Nickerson, Kirk L. Hamilton, and Peter J. Hunter	
7	Molecular Mechanisms of Apical and Basolateral Sorting in Polarized Epithelial Cells	279
	Ora A. Weisz and Heike Fölsch	
8	Membrane Protein Folding and Structure	303
	Liang Zhang and Patrick H. Thibodeau	

Part II Epithelial Ion Channels and Transporters

9	P2X Receptors in Epithelia	335
	Jens Leipziger	

10	Na⁺/K⁺-ATPase Drives Most Asymmetric Transports and Modulates the Phenotype of Epithelial Cells	351
	Marcelino Cereijido, Isabel Larre, Omar Paez, Liora Shoshani, and Arturo Ponce	
11	Na⁺-K⁺-2Cl⁻ Cotransporter	375
	Eric Delpire and Kenneth B. Gagnon	
12	Thiazide-Sensitive NaCl Cotransporter	401
	Arohan R. Subramanya	
13	NBCe1, an Electrogenic Na⁺ Bicarbonate Cotransporter, in Epithelia	437
	Aleksandra Sindić and Michael F. Romero	
14	Properties and Function of the Solute Carrier 26 Family of Anion Transporters	465
	Nikolay Shcheynikov, Ehud Ohana, and Shmuel Muallem	
15	ClC-2 Chloride Channels	491
	John Cuppoletti, Danuta H. Malinowska, and Ryuji Ueno	
16	CFTR and Cystic Fibrosis	519
	William T. Harris and Kevin L. Kirk	
17	TMEM16 Proteins (Anoctamins) in Epithelia	553
	Paolo Scudieri and Luis J.V. Galiotta	
18	Epithelial Sodium Channels (ENaCs)	569
	Tiffany L. Tai, He-Ping Ma, and Douglas C. Eaton	
19	ROMK and Bartter Syndrome Type 2	643
	Paul A. Welling	
20	KCa3.1 in Epithelia	659
	Daniel C. Devor, Claudia A. Bertuccio, and Kirk L. Hamilton	
21	BK Channels in Epithelia	707
	Donghai Wen, Ryan J. Cornelius, and Steven C. Sansom	
22	Orai Channels	725
	Trevor J. Shuttleworth	
23	ADPKD Channels: The Polycystins	747
	Bonnie L. Blazer-Yost	
24	CFTR and Cystic Fibrosis: A Need for Personalized Medicine	773
	Neil A. Bradbury	
25	Renal Aquaporins in Health and Disease	803
	Marleen L.A. Kortenoeven, Emma T.B. Olesen, and Robert A. Fenton	

Part III Pharmacology of Potassium Channels

26 Recent Developments in the Pharmacology of Epithelial Ca²⁺-Activated K⁺ Channels 857
Antonio Nardi, Søren-Peter Olesen, and Palle Christophersen

27 Small-Molecule Pharmacology of Epithelial Inward Rectifier Potassium Channels 901
Sujoy V. Kharade and Jerod S. Denton

Part IV Diseases in Epithelia

28 Diseases of the Pancreas Involving Channels/Transporters 931
David C. Whitcomb

29 Secretory Diarrhea 957
Nadia Ameen, Sascha Kopic, Md. Kaimul Ahsan,
and Dmitri V. Kravtsov

Index 991

Ion Channels and Transporters of Epithelia in Health
and Disease

Hamilton, K.L.; Devor, D.C. (Eds.)

2016, XIV, 1019 p. 181 illus., 44 illus. in color.,

Hardcover

ISBN: 978-1-4939-3364-8
