Contents

Preface . . . . . *v*
Contributors . . . . . *ix*

1 Elicitation Approaches for Withanolide Production in Hairy Root Culture of *Withania somnifera* (L.) Dunal 1
Ganeshan Sivanandhan, Natesan Selvaraj, Andy Ganapathi, and Markandan Manickavasagam

2 Stimulant Paste Preparation and Bark Streak Tapping Technique for Pine Oleoresin Extraction 19
Thanise Nogueira Füller, Júlio César de Lima, Fernanda de Costa, Kelly C.S. Rodrigues-Corrêa, and Arthur G. Fett-Neto

3 A Modified Protocol for High-Quality RNA Extraction from Oleoresin-Producing Adult Pines 27
Júlio César de Lima, Thanise Nogueira Füller, Fernanda de Costa, Kelly C.S. Rodrigues-Corrêa, and Arthur G. Fett-Neto

4 Collection of Apoplastic Fluids from *Arabidopsis thaliana* Leaves 35
Svend Roesen Madsen, Hussam Hassan Nour-Eldin, and Barbara Ann Halkier

5 From Plant Extract to a cDNA Encoding a Glucosyltransferase Candidate: Proteomics and Transcriptomics as Tools to Help Elucidate Saponin Biosynthesis in *Centella asiatica* 43
Fernanda de Costa, Carla J.S. Barber, Darwin W. Reed, and Patrick S. Covello

6 Production of Recombinant Caffeine Synthase from Guarana (*Paullinia cupana* var. *sorbilis*) in *Escherichia coli* 49
Flávia Camila Schimpl, Eduardo Kiyota, and Paulo Mazzafera

7 Heterologous Expression and Characterization of Mimosinase from *Leucaena leucocephala* 59
Vishal Singh Negi and Dulal Borthakur

8 Production of Aromatic Plant Terpenoids in Recombinant Baker's Yeast 79
Anita Emmerstorfer-Augustin and Harald Pichler

9 Purification of a Recombinant Polyhistidine-Tagged Glucosyltransferase Using Immobilized Metal-Affinity Chromatography (IMAC) 91
Fernanda de Costa, Carla J.S. Barber, Pareshkumar T. Pujara, Darwin W. Reed, and Patrick S. Covello

10 A Western Blot Protocol for Detection of Proteins Heterologously Expressed in *Xenopus laevis Oocytes* 99
Morten Egevang Jørgensen, Hussam Hassan Nour-Eldin, and Barbara Ann Halkier

11 Laser Capture Microdissection: Avoiding Bias in Analysis by Selecting Just What Matters 109
Márcia R. de Almeida and Martina V. Strömvik

12 Analytical and Fluorimetric Methods for the Characterization of the Transmembrane Transport of Specialized Metabolites in Plants 121
Inês Carqueijeiro, Viviana Martins, Henrique Noronha, Hernâni Gerós, and Mariana Sottomayor

13 Protoplast Transformation as a Plant-Transferable Transient Expression System. 137
Patrícia Duarte, Diana Ribeiro, Inês Carqueijeiro, Sara Bettencourt, and Mariana Sottomayor

14 Design, Construction, and Validation of Artificial MicroRNA Vectors Using *Agrobacterium*-Mediated Transient Expression System 149
Basdeo Bhagwat, Ming Chi, Dianwei Han, Haifeng Tang, Guiliang Tang, and Yu Xiang

15 Knockdown of Polyphenol Oxidase Gene Expression in Potato (*Solanum tuberosum* L.) with Artificial MicroRNAs 163
Ming Chi, Basdeo Bhagwat, Guiliang Tang, and Yu Xiang

Index *179*
