Contents

Clinical Protein and Immunofixation Electrophoresis 1
Jonathan R. Genzen

Serum Free Light Chain Analysis 25
Rajeevan Selvaratnam, Jing Cao and Amy B. Karger

Plasma Cell Neoplasms: Morphology and Immunohistochemistry 43
Garth Aasen and Robert W. McKenna

Classification of Plasma Cell Neoplasms 65
Sophia L. Yohe

Conventional and Molecular Cytogenetics in Plasma Cell Neoplasms 79
Michelle Dolan

Role of Flow Cytometry in Plasma Cell Neoplasms 101
Beenu Thakral, Kristy Wolniak and Michael A. Linden

Plasma Cell Neoplasms, A Therapeutic Approach 123
Brian L. McClune and Sagar S. Patel

Standardized Synoptic Reports for Plasma Cell Neoplasms: Integration of Laboratory and Clinical Data 143
Elizabeth L. Courville, Zohar Sachs and Michael A. Linden

Index 151
