

Contents

Part I Background, Editorship, and Global Perspectives

1 Purpose of the Book and Editorial Perspectives	3
Mahmoud Abdulwahed, Mazen O. Hasna and Jeffrey E. Froyd	
1.1 Purpose of the Book	3
1.2 Perspectives on Engineering Education in the Middle East.....	4
1.3 Perspectives on Engineering Education in North America	6
References	8
 2 Developments in Engineering Education and Engineering Education Research in Europe	 11
Erik de Graaff	
2.1 Introduction	11
2.2 A Historical Perspective on Engineering in Europe	12
2.2.1 Introduction	12
2.2.2 Emergence of Higher Engineering Education.....	12
2.3 The Current Status and Impact of Engineering Education Research....	13
2.3.1 Introduction	13
2.3.2 Research and Development Centres in the 1960s	14
2.3.3 Emerging of Consultancy and Training Centres	16
2.3.4 Revival of Educational Research	16
2.4 Methods of Engineering Education Research	18
2.4.1 Methodological Diversification	18
2.4.2 A Taxonomy Proposal for Engineering Education Research ...	18
2.4.3 Publication on Engineering Education Research	19
2.5 The Future of Engineering Education and Research in Europe	27
2.5.1 Introduction	27
2.5.2 Scenarios for Future Developments	28
2.6 Concluding Remarks	31
References	31

3 Engineering Education in Southeast Asia: Practice and Research	35
Khairiyah Mohd Yusof, Fatin Aliah Phang and Shahrin Mohammad	
3.1 Introduction	35
3.2 Creating Interest in Engineering Education	36
3.2.1 Engineering Education Societies and Organizations	36
3.2.2 Conferences, Seminars, and Symposiums in Engineering Education	37
3.3 Engineering Education Practice	39
3.3.1 Accreditation and Accrediting Bodies.....	40
3.3.2 Accreditation and Quality Assurance: The Malaysian Experience	41
3.3.3 Engineering Education Centers.....	43
3.4 Engineering Education Research	45
3.4.1 Virtuous Cycle of Research in Engineering Education.....	45
3.4.2 Postgraduate Studies in Engineering Education	49
3.4.3 Publication and Dissemination of Research Findings.....	50
3.5 Bridging Research and Practice	51
3.6 Conclusion.....	52
References	53

Part II Innovations in Learning, Teaching, and Engineering Education

4 Leveraging Pedagogical Innovations for Science, Technology, Engineering, and Mathematics (STEM) Education in the Middle East Context	59
Shadi Balawi, Kinda Khalaf and G. Wesley Hitt	
4.1 Introduction	59
4.1.1 Twenty-First-Century Engineering Skills: Skills Gaps Throughout the World	59
4.1.2 Is Problem-Driven Learning (PDL) Culturally Transferrable?.....	61
4.1.3 Cultural Transfer of Pedagogical Reform in STEM	63
4.2 KU's Three Course Reform Projects.....	67
4.2.1 Case Study 1: The Engineering Design-and-Build Course.....	67
4.2.2 Case Study 2: Collaborative Workshop Physics	78
4.2.3 Case Study 3: Biomedical Engineering Problem- Driven Course	91
4.3 Discussion	102
4.4 Conclusions.....	108
References	110
5 Model for Transforming Engineering Education Using Technology-Enhanced Learning	117
Mohammed Samaka and Mohamed Ally	
5.1 Introduction.....	117

5.2	Preparing Engineers for the Twenty-First Century	119
5.3	Upcoming Generation of Students	120
5.4	Problem-Based Learning for Outcome-Based Engineering Education.....	121
5.5	Formative Feedback on Program Effectiveness.....	122
5.6	Learning in Context.....	123
5.7	Technology-Enhanced Learning in Engineering Education.....	123
5.8	Use of Remote/Virtual Labs.....	125
5.9	Role of the Instructor in Technology-Enhanced Learning.....	126
5.10	Barriers to Technology-Enhanced Learning and How to Overcome Them.....	127
5.11	Learning Theories to Guide the Development of Engineering Programs.....	128
5.12	Model for Developing Engineering Programs	130
5.12.1	Content Identification.....	131
5.12.2	Components of the Model.....	131
5.13	Design for Transfer of Learning.....	134
5.14	Conclusions	134
	References	136
6	Using Forums and Simulation Exercises to Enhance Active Learning in Lean Construction Education.....	139
	Farook Hamzeh, Christina Teokari and Carel Rouhana	
6.1	Background and Purpose.....	139
6.1.1	Introduction.....	139
6.1.2	Discussion Forums.....	141
6.1.3	Simulation Exercises.....	142
6.2	Purpose.....	144
6.3	Application	146
6.3.1	Discussion Forums.....	146
6.3.2	Simulation Exercises.....	146
6.4	Design/Method/Approach.....	148
6.4.1	Background Research and Preparation of Surveys.....	148
6.4.2	Data Collection and Survey Analysis.....	149
6.4.3	Data Analysis and Reporting.....	149
6.5	Results and Discussion.....	150
6.5.1	Changes in Students' Assessment of Teaching Methods.....	150
6.5.2	Quantitative Assessment of Student Learning When Employing Simulation Exercises.....	153
6.5.3	Qualitative Assessment of Student Learning	154
6.6	Conclusions	155
	References	156

7 A Framework for Developing Innovative Problem-Solving and Creativity Skills for Engineering Undergraduates	161
Faris Tarlochan and Abdel Magid Hamouda	
7.1 Introduction	161
7.2 Design of Framework	164
7.2.1 Defining Problem Solving, Creativity, and Critical Thinking	164
7.2.2 Content for Teaching Problem-Solving and Creative Thinking Skills: TRIZ	168
7.2.3 Problem-Based Learning As the Delivery Mode	174
7.2.4 Assessment of Problem Solving and Creativity	176
7.3 Anticipations	180
7.4 Conclusions	180
Appendices	180
References	184
 8 Active Blended Learning to Improve Students' Motivation in Computer Programming Courses: A Case Study	 187
Saleh Alhazbi	
8.1 Introduction	187
8.2 Reasons for Programming Learning Difficulties	187
8.3 Motivating Students to Overcome Difficulties	189
8.4 Blended Learning to Teach Programming	189
8.5 Teaching Programming in the Middle East	190
8.6 Challenges of Blended Learning in the Middle East	191
8.7 Case Study	192
8.8 Pedagogical Facets of our Active Blended Learning	193
8.9 Environment Implementation	195
8.10 Evaluation	197
8.11 Discussion	199
8.12 Conclusion and Future Work	200
References	201

Part III Curriculum Development

9 Women's Specific Needs and Urban Planning Practices in the Middle East: The Case of Palestine	207
Manal A. Al-Bishawi	
9.1 Background	207
9.2 The Case of Palestine	209
9.3 Women's Needs in Urban Design and Planning	212
9.4 Women's Privacy in Middle Eastern Countries	214
9.5 Women's Role in Planning Practices and Fulfillment of Their Needs	216
9.6 Methodological Approach	217

9.7	Results and Discussion.....	219
9.7.1	First: Women's Participation in Public Life and the Influence of Privacy	219
9.7.2	Second: Attitudes of Decision Makers Toward Women's Privacy.....	222
9.7.3	Third: Women's Involvement in Design and Management of Public Space and Fulfillment of Privacy	227
9.8	Conclusion: Integration of Women's Needs in Architecture and Urban Planning Curriculum	228
	References	232
10	Improving and Expanding Engineering Education in the Middle East and Africa Using Mobile Learning Technology and Innovative Pedagogy	235
	Yacob Astatke, Jumoke O. Ladeji-Osias, Petronella James, Farzad Moazzami, Craig Scott, Kenneth Connor and Abdurrahim Saka	
10.1	Introduction.....	235
10.2	New Educational Technologies and Paradigms	237
10.2.1	Online Courses.....	238
10.2.2	Virtual, Remote, and Mobile Laboratories.....	239
10.3	Online Course Development.....	240
10.3.1	Pedagogy and Implementation of the Mobile Laboratory.....	241
10.3.2	Converting Face-To-Face Courses to Online Courses	244
10.3.3	Integrating Technology for Online Delivery.....	245
10.3.4	Content Delivery—Video Recording.....	247
10.3.5	Results of Online Pilot Courses	248
10.3.6	Lessons Learned/Best Practices	249
10.4	Assessment	250
10.4.1	Performance Assessment Framework	250
10.4.2	Outcome Assessment—Program Assessments	251
10.5	Mobile Laboratory for Ethiopian Engineering.....	252
10.6	Developing a MENA–US Collaboration Model: Online Education in Turkey	254
10.7	Summary and Conclusion	256
	References	256
11	Inclusion of Construction Health and Safety in Engineering Programs in the MENA Region: Assessment and Potential Enhancement	261
	Munjed A. Maraqa, Amr M. I. Sweedan and Essam Zaneldin	
11.1	Introduction.....	261
11.2	Health and Safety in the Construction Industry	263
11.3	Review of Education Role in Construction Health and Safety	266
11.3.1	Construction Site Health and Safety Education	266
11.3.2	Design for Construction Safety	270

11.4	Construction Health and Safety Requirements by Accreditation Organizations.....	273
11.5	Study Methodology	274
11.5.1	Practitioners' Survey	275
11.5.2	Engineering Programs Survey.....	276
11.6	Results and Discussion.....	277
11.6.1	Practitioners' Feedback	277
11.6.2	Engineering Academic Programs Feedback.....	283
11.6.3	Construction Health and Safety Courses from Program Websites.....	287
11.6.4	Proposed Curriculum Modifications	287
11.7	Conclusion.....	294
	References	295
12	Environmental Engineering Education in the UAE	301
	Mohamed M. Mohamed and Munjed A. Maraqa	
12.1	Introduction.....	301
12.2	Importance of E3 in the UAE.....	304
12.3	Environmental Challenges in the UAE	305
12.4	E3 in Higher Education Institutes in the UAE: The Review.....	306
12.5	UAE Market Needs for E3: The Survey	310
12.5.1	Survey Form and Respondents.....	310
12.6	Results and Discussion.....	311
12.7	Proposed Modification of the Engineering Curriculum.....	314
12.8	Minor Track in EnE.....	315
12.8.1	Additional Elective Courses.....	315
12.9	Fulfillment of ABET Requirements	316
12.10	Summary and Conclusions.....	317
	Appendix A.....	317
	References	319
Part IV Assessment and Accreditation		
13	Potential and Challenges of Project-Based Learning in Engineering Education at the United Arab Emirates University	323
	Rezaul K. Chowdhury	
13.1	Introduction.....	323
13.2	Project-Based Learning (PBL).....	326
13.3	Learning Styles of Students	328
13.4	Teaching Styles of Instructors	331
13.5	Technology-Supported Learning Environment.....	335
13.6	Conclusions.....	338
	References	340

14 Effective Alignment of Disciplinary and Institutional Accreditation and Assessment: A UAE Computing Case Study.....	343
Kevin Schoepp, Maurice Danaher and Leon Jololian	
14.1 Introduction.....	343
14.2 Zayed University.....	344
14.3 Learning Outcomes at Zayed University	345
14.4 International Accreditation and Assessment	347
14.4.1 ABET and MSCHE Learning Outcomes	349
14.4.2 MALOs and ABET Student Outcomes Alignment	350
14.5 Assessment Structures and Processes.....	350
14.6 Creating a Culture of Assessment	354
14.7 Assessment Enhancements.....	356
14.8 Proposed New Model.....	357
14.8.1 Mapping Between Institutional and Educational Effectiveness and Accreditation Requirements.....	358
14.8.2 The Office of Institutional and Educational Effectiveness	359
14.9 Conclusion.....	360
References	362

Part V Challenges and Sustainability Perspectives

15 Engineering Education in Northwest MENA Countries: Challenges and Opportunities for the Twenty-First Century.....	367
Mohamed Essaaidi	
15.1 Introduction.....	367
15.2 Engineering Education System in Northwest MENA Countries	369
15.2.1 Accreditation and Quality Assurance	370
15.3 Twenty-First-Century Engineering Education Challenges and Opportunities	370
15.4 Improvement Paths for Engineering Education in Northwest MENA.....	373
15.5 Conclusions.....	374
References	375
16 Perspectives on Engineering Education Quality in Tunisia After 50 Years of Statehood.....	377
Jennifer DeBoer	
16.1 Introduction.....	377
16.2 Background	378
16.2.1 Higher Education and National Priorities	378
16.2.2 Educational Data and Accountability	379
16.2.3 Demographic Trends	379
16.2.4 Recent Reforms	381

16.3	Methods.....	381
16.3.1	Research Design and Rationale.....	381
16.3.2	Sample and Sampling Frame	382
16.3.3	Data Collection.....	382
16.3.4	Analysis	383
16.4	Results.....	384
16.4.1	Historical Perspective.....	385
16.4.2	Curriculum	385
16.4.3	Regulation	389
16.4.4	Differentiation	393
16.4.5	Internal and External Pressures.....	395
16.4.6	Comparative Case Examples.....	399
16.4.7	Perceptions of Developing Quality and Ambiguity About Future Directions	401
16.5	Conclusions and Implications	402
	Appendices.....	404
	References	405
17	Social Justice and the Engineering Profession: Challenging Engineering Education to Move Beyond the Technical.....	409
	Ramzi N. Nasser and Michael H. Romanowski	
17.1	Introduction.....	409
17.1.1	Social Justice and Education.....	411
17.2	Research Methodology and Design	412
17.2.1	Sample.....	413
17.2.2	Content Analysis	414
17.3	Findings.....	415
17.3.1	ABET Standards, Reports, and College of Engineering Syllabi.....	415
17.3.2	Student Perceptions.....	417
17.3.3	Professor Interviews.....	419
17.4	Discussion	421
17.5	Recommendations: Good Sense and Critical Theory	421
17.5.1	Social Justice and Ethic of Caring	424
17.5.2	Accrediting Agencies	425
17.6	Conclusions.....	426
	References	426
Part VI	Industry Perspectives, Future Insights, and Conclusions	
18	Engineering Education in the Middle East and North Africa: An Industry Perspective	431
	Mabrouk Ouederni	
18.1	Introduction.....	431
18.2	Petrochemical Industry in the State of Qatar	432

18.3	The Need for Engineers.....	432
18.4	Engineering Education: An Industry Perspective	434
18.4.1	Align Education and Research Programs with Industry Needs.....	434
18.4.2	Industry Perspectives on Most Important Engineering Competencies.....	436
18.5	Conclusions.....	439
	References	440
19	An Insight into the Future of Engineering Education, Recommendations for Implementations, and Conclusions	441
	Mahmoud Abdulwahed, Mazen O. Hasna and Jeffrey E. Froyd	
19.1	Insights into the Future of Engineering Education and Research in the Middle East and North Africa.....	441
19.2	Insights into the Future of Engineering Education and Research in North America	442
19.3	Future Recommendations and Concluding Remarks of the Book....	443
	References	445
Index	447

Advances in Engineering Education in the Middle East
and North Africa

Current Status, and Future Insights

Abdulwahed, M.; Hasna, M.O.O.A.; Froyd, J.E. (Eds.)

2016, XXVI, 454 p. 106 illus., 57 illus. in color.,

Hardcover

ISBN: 978-3-319-15322-3
