

# Contents

<b>1</b>	<b>Rate of Convergence of Basic Neural Network Operators to the Unit-Univariate Case . . . . .</b>	<b>1</b>
1.1	Introduction . . . . .	1
1.2	Convergence with Rates of the Normalized Bell Type Neural Network Operators . . . . .	1
1.3	The “Normalized Squashing Type Operators” and Their Convergence to the Unit with Rates . . . . .	8
	References. . . . .	9
<b>2</b>	<b>Rate of Convergence of Basic Multivariate Neural Network Operators to the Unit . . . . .</b>	<b>11</b>
2.1	Introduction . . . . .	11
2.2	Convergence with Rates of Multivariate Neural Network Operators . . . . .	12
2.3	The Multivariate “Normalized Squashing Type Operators” and Their Convergence to the Unit with Rates . . . . .	19
	References. . . . .	21
<b>3</b>	<b>Fractional Neural Network Operators Approximation . . . . .</b>	<b>23</b>
3.1	Introduction . . . . .	23
3.2	Background . . . . .	24
3.3	Main Results . . . . .	32
	References. . . . .	57
<b>4</b>	<b>Fractional Approximation Using Cardaliaguet-Euvrard and Squashing Neural Networks . . . . .</b>	<b>59</b>
4.1	Introduction . . . . .	59
4.2	Background . . . . .	60

4.3	Results . . . . .	64
4.3.1	Fractional Convergence with Rates of the Cardaliaguet-Euvrard Neural Network Operators . . . . .	64
4.3.2	The “Squashing Operators” and Their Fractional Convergence to the Unit with Rates . . . . .	77
	References. . . . .	86
<b>5</b>	<b>Fractional Voronovskaya Type Asymptotic Expansions for Quasi-interpolation Neural Networks . . . . .</b>	<b>89</b>
5.1	Background . . . . .	89
5.2	Main Results . . . . .	93
	References. . . . .	101
<b>6</b>	<b>Voronovskaya Type Asymptotic Expansions for Multivariate Quasi-interpolation Neural Networks. . . . .</b>	<b>103</b>
6.1	Background . . . . .	103
6.2	Main Results . . . . .	113
	References. . . . .	118
<b>7</b>	<b>Fractional Approximation by Normalized Bell and Squashing Type Neural Networks . . . . .</b>	<b>119</b>
7.1	Introduction . . . . .	119
7.2	Background . . . . .	120
7.3	Results . . . . .	124
7.3.1	Fractional Convergence with Rates of the Normalized Bell Type Neural Network Operators . . . . .	124
7.3.2	The “Normalized Squashing Type Operators” and Their Fractional Convergence to the Unit with Rates . . . . .	134
	References. . . . .	141
<b>8</b>	<b>Fractional Voronovskaya Type Asymptotic Expansions for Bell and Squashing Type Neural Networks. . . . .</b>	<b>143</b>
8.1	Background . . . . .	143
8.2	Main Results . . . . .	147
	References. . . . .	151
<b>9</b>	<b>Multivariate Voronovskaya Type Asymptotic Expansions for Normalized Bell and Squashing Type Neural Networks. . . . .</b>	<b>153</b>
9.1	Background . . . . .	153
9.2	Main Results . . . . .	158
	References. . . . .	163

<b>10 Multivariate Fuzzy-Random Normalized Neural Network Approximation</b> . . . . .	165
10.1 Introduction . . . . .	165
10.2 Background . . . . .	166
10.3 Basic Properties . . . . .	171
10.4 Main Results . . . . .	177
References. . . . .	191
<b>11 Fuzzy Fractional Approximations by Fuzzy Normalized Bell and Squashing Type Neural Networks</b> . . . . .	193
11.1 Introduction . . . . .	193
11.2 Fuzzy Mathematical Analysis Background . . . . .	194
11.3 Fractional Convergence with Rates of Real Normalized Bell Type Neural Network Operators. . . . .	206
11.4 Fractional Convergence with Rates of Fuzzy Normalized Neural Network Operators . . . . .	208
References. . . . .	213
<b>12 Fuzzy Fractional Neural Network Approximation Using Fuzzy Quasi-interpolation Operators</b> . . . . .	215
12.1 Introduction . . . . .	215
12.2 Fuzzy Mathematical Analysis Background . . . . .	216
12.3 Fractional Neural Network Approximation by Quasi-interpolation Operators. . . . .	228
12.4 Fractional Approximation by Fuzzy Quasi-interpolation Neural Network Operators . . . . .	236
References. . . . .	248
<b>13 Higher Order Multivariate Fuzzy Approximation Using Basic Neural Network Operators</b> . . . . .	251
13.1 Fuzzy Real Analysis Background . . . . .	251
13.2 Convergence with Rates of Real Multivariate Neural Network Operators . . . . .	257
13.3 Main Results—Convergence with Rates of Fuzzy Multivariate Neural Networks. . . . .	260
13.4 Main Results—The Fuzzy Multivariate “Normalized Squashing Type Operators” and Their Fuzzy Convergence to the Fuzzy Unit with Rates . . . . .	264
References. . . . .	266
<b>14 High Order Multivariate Fuzzy Approximation Using Quasi-interpolation Neural Networks</b> . . . . .	267
14.1 Fuzzy Real Analysis Background . . . . .	267
14.2 Basic on Real Quasi-interpolation Neural Network Operators Approximation. . . . .	273

14.3	Approximation by Fuzzy Quasi-interpolation Neural Network Operators . . . . .	284
	References. . . . .	296
<b>15</b>	<b>Multivariate Fuzzy-Random Quasi-interpolation Neural Networks Approximation . . . . .</b>	<b>299</b>
15.1	Fuzzy-Random Functions Theory Background . . . . .	299
15.2	Basics on Neural Network Operators . . . . .	304
15.3	Main Results . . . . .	312
	References. . . . .	319
<b>16</b>	<b>Approximation by Kantorovich and Quadrature Type Quasi-interpolation Neural Networks . . . . .</b>	<b>321</b>
16.1	Background . . . . .	321
16.2	Main Results . . . . .	327
	References. . . . .	330
<b>17</b>	<b>Univariate Error Function Based Neural Network Approximations . . . . .</b>	<b>331</b>
17.1	Introduction . . . . .	331
17.2	Basics . . . . .	332
17.3	Real Neural Network Approximations . . . . .	340
17.4	Fractional Neural Network Approximation . . . . .	350
17.5	Complex Neural Network Approximations . . . . .	367
	References. . . . .	372
<b>18</b>	<b>Multivariate Error Function Based Neural Network Operators Approximation . . . . .</b>	<b>375</b>
18.1	Introduction . . . . .	375
18.2	Basics . . . . .	376
18.3	Multidimensional Real Neural Network Approximations . . . . .	384
18.4	Complex Multivariate Neural Network Approximations . . . . .	404
	References. . . . .	407
<b>19</b>	<b>Voronovskaya Type Asymptotic Expansions for Error Function Based Quasi-interpolation Neural Networks . . . . .</b>	<b>409</b>
19.1	Background . . . . .	409
19.2	Main Results . . . . .	418
	References. . . . .	429
<b>20</b>	<b>Fuzzy Fractional Error Function Relied Neural Network Approximations . . . . .</b>	<b>431</b>
20.1	Introduction . . . . .	431
20.2	Fuzzy Fractional Mathematical Analysis Background . . . . .	432

20.3	Real Neural Network Approximation Basics. . . . .	444
20.4	Main Results: Approximation by Fuzzy Quasi-interpolation Neural Network Operators with Respect to Error Function . . .	451
	References. . . . .	462
<b>21</b>	<b>High Degree Multivariate Fuzzy Approximation by Neural Network Operators Using the Error Function . . . . .</b>	<b>465</b>
21.1	Introduction . . . . .	465
21.2	Fuzzy Real Analysis Basics . . . . .	466
21.3	Basics on Multivariate Real Neural Network Operators Approximation Relied on the Error Function . . . . .	473
21.4	Main Results: Fuzzy Multivariate Neural Network Approximation Based on the Error Function. . . . .	482
	References. . . . .	495
<b>22</b>	<b>Multivariate Fuzzy-Random Error Function Relied Neural Network Approximations . . . . .</b>	<b>497</b>
22.1	Fuzzy-Random Functions Basics. . . . .	497
22.2	Real Error Function Based Neural Network Approximation Basics . . . . .	501
22.3	Main Results . . . . .	508
	References. . . . .	520
<b>23</b>	<b>Approximation by Perturbed Neural Networks . . . . .</b>	<b>523</b>
23.1	Introduction . . . . .	523
23.2	Basics . . . . .	525
23.3	Main Results . . . . .	529
	References. . . . .	550
<b>24</b>	<b>Approximations by Multivariate Perturbed Neural Networks . . .</b>	<b>553</b>
24.1	Introduction . . . . .	553
24.2	Basics . . . . .	555
24.3	Main Results . . . . .	563
	References. . . . .	584
<b>25</b>	<b>Voronovskaya Type Asymptotic Expansions for Perturbed Neural Networks . . . . .</b>	<b>587</b>
25.1	Introduction . . . . .	587
25.2	Univariate Theory—Univariate Basics . . . . .	588
25.3	Univariate Results. . . . .	592
25.4	Multivariate Theory—Multivariate Basics . . . . .	602
25.5	Multivariate Results . . . . .	611
	References. . . . .	626

<b>26</b>	<b>Approximation Using Fuzzy Perturbed Neural Networks . . . . .</b>	<b>627</b>
26.1	Introduction . . . . .	627
26.2	Fuzzy Mathematical Analysis Background . . . . .	628
26.3	Real Neural Networks Approximation Basics . . . . .	632
26.4	Fuzzy Neural Network Approximations . . . . .	640
	References. . . . .	653
<b>27</b>	<b>Multivariate Fuzzy Perturbed Neural</b>	
	<b>Network Approximations . . . . .</b>	<b>655</b>
27.1	Introduction . . . . .	655
27.2	Fuzzy Multivariate Real Analysis Background . . . . .	656
27.3	Real Neural Networks Multivariate Approximation Basics . . .	662
27.4	Fuzzy Multivariate Neural Network Approximations . . . . .	670
	References. . . . .	685
<b>28</b>	<b>Multivariate Fuzzy-Random Perturbed Neural</b>	
	<b>Network Approximations . . . . .</b>	<b>687</b>
28.1	Fuzzy Random Analysis Basics . . . . .	687
28.2	Main Results . . . . .	696
	References. . . . .	709

Intelligent Systems II: Complete Approximation by  
Neural Network Operators

Anastassiou, G.A.

2016, XV, 712 p. 1 illus., Hardcover

ISBN: 978-3-319-20504-5
