1	Introduction	1
	References	10
2	Natural Disaster and Society	13
2.1	Major Natural Disasters and Their Socioeconomic Impact	13
2.1.1	Natural Disaster Triggered Nuclear Accident	13
2.1.2	World Food Price Increase Due to Drought	15
2.1.3	Sea-Level Rise and the Survival of Small Island States	16
2.1.4	Respiratory Hazards from Ash Clouds	19
2.1.5	Failure of State (Hurricane Katrina, United States)	20
2.2	Natural Disaster and the Society of Risk	22
2.2.1	Population Dynamics and Risk	22
2.2.2	Benefit and Risk—A Cause–Effect Relationship	25
2.2.3	Population at Risk	30
2.2.4	Gender Relation to Natural Disasters	42
2.2.5	Traumatization	43
2.2.6	Social Connotation of Disaster Impact	46
2.3	Risk to Economy	47
2.3.1	Eyjafjallajökull, Iceland	47
2.3.2	International Impact of Local Events (Fukushima Nuclear Power Plant Failure)	48
2.3.3	The Great Flood of 1993 (United States)	50
	References	52
3	Natural Disasters: Definitions and Classification	55
3.1	Natural Disaster Classification: General Aspects	55
3.2	Natural Hazards Originating from the Solid Earth	55
3.2.1	Geotectonic Hazards	56
3.2.2	Hydrological Hazards	122
3.2.3	Natural Disasters Versus “Extreme Events”	147

3.3	Natural Disaster Distribution	155
3.3.1	Type of Disaster	155
3.3.2	Regional Distribution (Hotspots)	157
3.4	Database and Data Reliability	172
	References	175
4	Institutional and Organizational Framework for a Disaster Risk Management	183
4.1	General Aspects	183
4.2	The United Nations System	185
4.2.1	United Nations Millennium Development Goals (MDGs)	186
4.2.2	United Nations (UNISDR)	188
4.2.3	The Yokohama Strategy	189
4.2.4	Hyogo Framework of Action	190
4.2.5	United Nations Office of Humanitarian Affairs (UNOCHA)	191
4.2.6	Comprehensive Nuclear Test Ban Treaty (CTBT)	194
4.2.7	United Nations Framework Convention on Climate Change (UNFCCC)	195
4.2.8	The Global Facility for Disaster Reduction and Recovery (World Bank—GFDRR)	196
4.2.9	Intergovernmental Panel on Climate Change (IPCC)	198
4.2.10	ISO (International Organization for Standardization)	201
4.3	The European Union	204
4.3.1	Eurocode	205
4.3.2	European Water Framework Directive (EWFD)	206
4.3.3	Natura 2000	208
4.4	German Regulations of Natural Disaster Management	210
4.4.1	German National Law to Increase Flood Prevention	210
4.4.2	German Advisory Council on Global Change (WBGU)	211
4.4.3	German Strategy for Adaptation to Climate Change (DAS)	217
4.5	The International Risk Governance Council (IRGC)	219
	References	221
5	Hazard Assessment	225
5.1	General Aspects of Data Monitoring and Measuring	225
5.2	International Classification Scales of Hazard Intensity	228
5.2.1	Earthquake Magnitude and Intensity Scale	229
5.2.2	Volcano Explosivity Index	229
5.2.3	Examples of Volcanic Alert Levels	231
5.2.4	Volcano Alert Levels for International Air Traffic (Aviation Color Code)	233
5.2.5	Beaufort Wind Scale (United Kingdom, Royal Navy)	234

5.2.6	The Saffir–Simpson Hurricane Wind Scale	234
5.2.7	Tsunami Watches and Warnings.	237
5.2.8	European Snow Avalanche Danger Scale.	239
5.3	Hazard Assessment.	242
5.3.1	Single Hazard Assessment	242
5.3.2	The Hazard Cascade.	251
5.3.3	Multiple Hazard Distribution	253
5.4	Example of a Multiple Hazard Assessment (Ende, Flores)	259
	References.	263
6	Vulnerability Assessment	265
6.1	General Aspects	265
6.2	Methods and Instruments.	267
6.3	Vulnerability Indicators	274
6.4	Vulnerability Assessment.	278
	References.	286
7	Risk Assessment.	289
7.1	General Aspects—Definition and Explanations.	289
7.2	Valuing Statistical Life (VSL)	294
7.3	Deterministic Risk Assessment	296
7.4	Probabilistic Risk Assessment (Computer-Based Hazard and Risk Assessment)	299
7.5	Probabilistic Risk Assessment in Practice “HAZUS-MH”	304
7.6	Risk Assessment (Disaster Risk Index)	312
7.6.1	Disaster Risk Index (DRI–UNDP).	313
7.6.2	Global Disaster Risk Analysis (World Bank).	315
7.6.3	Indicators of Disaster Risk and Risk Management (Inter-American Development Bank).	317
7.6.4	Global Climate Risk Index (Germanwatch).	319
7.6.5	WorldRiskIndex (German Alliance Development Works)	320
7.6.6	Earthquake Disaster Risk Index (EDRI)	323
7.6.7	Natural Disasters Risk Index (Maplecroft)	323
7.7	Final Remarks on Disaster Risk Indexes	326
	References.	329
8	Integrated Disaster Risk Management	333
8.1	General Aspects: The Concept of Risk Governance	333
8.2	Institutional Framework for Risk-Based Planning.	336
8.3	The Risk Mitigation Cycle.	346
8.4	Definition of National Goals on Disaster Risk Management.	351
8.5	Society’s Decision on Acceptable and Unacceptable Risk	353
8.6	Risk Perception	359
8.7	Risk Perception: “Gender Equality”	365
8.8	Risk Communication	368

8.8.1	Communication Processes	368
8.8.2	Risk Communication as a Responsibility of Science and Technology.	377
8.8.3	Communication from the Administration	379
8.8.4	Pre- and Post-disaster Communication	381
8.9	Risk Financing	382
8.9.1	Insurance (Self-Insurance)	385
8.9.2	Microfinancing	388
8.9.3	Risk Retention	390
8.9.4	Risk Transfer	391
8.9.5	Catastrophic Bonds (Cat Bonds, Cat Swaps, Risk Swaps).	392
8.9.6	National Risk Sharing	394
8.9.7	Turkish Catastrophe Insurance Pool (TCIP)	397
8.9.8	National Agricultural Insurance, India	399
8.9.9	General Conclusion	401
8.10	Critical Infrastructure.	402
	References.	404
9	Community Awareness and Participation.	409
9.1	Community-Based Disaster Risk Management (CBDRM).	409
9.2	Risk Reduction Education	419
9.3	Examples of Community Disaster Risk Management	424
9.3.1	Indonesia: Banda Aceh an Example for a Peaceful Settling of Dispute.	424
9.4	Community and Volunteers in Disaster Risk Management	428
9.5	Early Warning Systems	432
9.5.1	The German-Indonesian Tsunami Early Warning System (GITEWS).	438
9.5.2	Katwarn "Use of Early Warning Systems".	440
9.5.3	Hurricane Early Warning	441
9.5.4	Warning Chain	443
	References.	446
10	Responsibility of Geoscience in Natural Disaster Risk Management	449
10.1	Science and Technology.	449
10.1.1	The Role of Science and Technology.	449
10.1.2	International Framework for Science and Technology.	455
10.1.3	Technological Innovation	457
10.1.4	Acceptance of Technology	460
10.1.5	Code of Conduct.	462
10.2	Geoscientists in Disaster Risk Reduction Management.	466
10.3	Final Remarks	472
	References.	480
