Contents

1 Introduction 1
1.1 Importance of the Study Area 1
1.2 Goals of the Thesis 2
1.3 Methodology 3

2 Research Area 5
2.1 Physical Geography 5
2.2 Geomorphological Features 7
2.2.1 Coastal Areas 7
2.2.2 The Mt. Sparagio Ridge 8
2.2.3 The Mt. Palatimone Ridge 8
2.2.4 The Purgatorio Plain 8
2.2.5 The Mt. Acci–Pizzo di Sella Ridge 8
2.2.6 The Mt. Speziale–Mt. Scardina Ridge 9
2.2.7 The Mt. Cofano Area 9
2.2.8 The Scopello Area 9
References 10

3 Hydrographic Aspects 11
3.1 Climatic Aspects 11
3.2 Elements of Hydrology 11
3.2.1 Streams 11
3.2.2 Springs 13
3.3 Hydrographic Network 14
3.3.1 Fluviokarstic Canyons 14
3.3.2 Fluviokarstic Gorges 14
3.3.3 Dry Valleys 16
3.3.4 Poljes 17

3.3.5 Uvalas . . . 17
3.3.6 Dolines . . . 19
3.3.7 Swallow Holes . . . 19
References . . . 21

4 Geological Framework . . . 23
4.1 Regional Geological Context . . . 23
4.1.1 Structural Domains in the Central Mediterranean . . . 23
4.2 Geological Setting of the Study Area . . . 25
4.2.1 Previous Studies . . . 25
4.2.2 Lithology . . . 27
4.2.3 Structural Setting . . . 29
References . . . 31

5 Hydrogeological Aspects . . . 35
5.1 General Framework . . . 35
5.1.1 Mt. Palatimone–Polje of Purgatorio's Hydrostructure . . . 37
5.1.2 Mt. Sparagio's Hydrostructure . . . 37
5.1.3 Mt. Bufara–Piano Zubbia's Hydrostructure . . . 39
5.1.4 Mt. Monaco–Speziale–Mt. Scardina's Hydrostructure . . . 39
5.2 The Coastal Strip and the Problems of the Vulnerability of the Aquifers . . . 40
References . . . 40

6 Karst Geomorphological Features . . . 43
6.1 Karst Features of the Study Area . . . 43
6.2 Surface Karst Morphologies . . . 43
6.2.1 Elementary Karren Features . . . 44
6.3 The Epikarst Pattern and Its Subcutaneous Rock Forms . . . 65
6.3.1 Soil Percolation Rock Forms . . . 66
6.4 Complex Processes–Polygenetic Forms . . . 72
6.4.1 Biokarstic Borings and Lichen Karren . . . 80
6.5 Macro Karst Forms . . . 86
6.5.1 Closed Depressions . . . 90
6.6 Karst Cave Morpho-Tectonic Structures . . . 99
6.6.1 The Caves in the Mt. Bufara–Cerriolo–Piano Zubbia Area (Site *a*) . . . 100
6.6.2 The Caves in the Mt. Palatimone–Mt. San Giovanni Ridge (Site *b*) . . . 116
6.6.3 The Caves of Purgatorio Polje (Site *c*) . . . 133

6.6.4 The Caves in the Mt. Sparagio Ridge (Site *d*) 146
6.6.5 The Caves in the Mt. Monaco–Mt. Speziale–Mt. Scardina Ridge (Site *e*) 156
6.7 The Sea Caves and Coastal Karren in the Relict Sea-Cliffs . . . 172
6.7.1 The Mt. Cofano–Mt. Palatimone Relict Sea-Cliff Features. 172
6.7.2 The Scurati–Cerriolo Relict Sea-Cliff Features 177
6.7.3 The Rocca Rumena Relict Sea-Cliff Features 182
6.7.4 Caves in the Sea Paleo-Terraces of the Cornino Plain 192
6.7.5 The Peninsula of Capo San Vito–Mt. Monaco Relict Sea-Cliffs and Makari–Tonnara del Secco Sea Paleo-Terraces Features 193
6.7.6 The Zingaro Natural Reserve Relict Sea-Cliff Features. 202
References. 205

7 Structural Geological Analysis of the Karst Surface Area 209
7.1 Aims of the Surface Structural Survey. 209
7.1.1 Structural Survey of Mt. Bufara–Cerriolo–Piano Zubbia Area (Site *a*) 210
7.1.2 Grotta del Fantasma Area 211
7.1.3 Grotta della Clava Area. 211
7.1.4 Grotta Maria SS. di Custonaci Area 212
7.1.5 Grotta Cerriolo Area 213
7.1.6 Bufara Doline Area. 214
7.2 Structural Survey of Mt. Palatimone Area (Site *b*). 214
7.2.1 Western Area (Middle Upper) Mt. Palatimone 215
7.2.2 The Central Ridge of Mt. Palatimone 216
7.2.3 The Eastern Ridge of Mt. Palatimone 216
7.3 Structural Survey of Purgatorio Polje (Site *c*) 218
7.3.1 Northern-Central Side of the Polje 218
7.3.2 Structural Survey of "Alto Muciara" Area in the South–Western Sector of the Purgatorio Depression (Site *c*) 219
7.4 Structural Survey of Mt. Sparagio Area (Site *d*) 221
7.4.1 Cocuccio–Giocolamaro–Noce Areas 222
7.5 General Analysis of the Results 223
7.6 Correlation between Structures and Cave Morphostructures in Site *a* 225
7.7 Correlation between Structures and Cave Morphostructures in Site *b* 226
7.8 Correlation between Structures and Cave Morphostructures and Karst Landforms in Site *c* 226

7.9 Correlation between Structures and Cave Morphostructures and Karst Landforms in Site *d* 226
7.10 General Observations on the Karst Landform Mt. Palatimone–Purgatorio Polje 227
References 227

8 Results and Discussion 229
8.1 Structural Control in the Karst Processes 229
8.2 Influences of Morphotectonic Evolution and Climate Changes on the Karst Landforms of the Study Area 232
8.2.1 Coastal Areas 232
8.2.2 Inland Areas 242
8.3 The Contributions of This Study 248
8.3.1 The Contribution to the Evolution of Karst Forms in the Context of Tectonic Sheets Together with Indications of Recent Activity 248
8.3.2 The Contribution that the Study of Karst Phenomena can give to the Variations of the Land-Sea Interface and of the Same Morphotectonic Evolution of the Coastal Belt, and of the Contiguous Inland Areas 248
8.4 Open Questions 249
