## Part I Sailboat Platforms and Applications

|  |           |
|--|-----------|
| <b>A-TIRMA G2: An Oceanic Autonomous Sailboat . . . . .</b>  | <b>3</b>  |
| Antonio C. Domínguez-Brito, Bernardino Valle-Fernández,<br>Jorge Cabrera-Gámez, Angel Ramos-de-Miguel and Juan C. García   |           |
| <b>Integration of Wind Propulsion in an Electric ASV . . . . .</b>   | <b>15</b> |
| Nuno A. Cruz, José C. Alves, Tiago Guedes, Rômulo Rodrigues,<br>Vitor Pinto, Daniel Campos and Duarte Silva  |           |
| <b>Mobile Autonomous Platforms for Passive-Acoustic Monitoring<br/>of High-frequency Cetaceans . . . . .</b>   | <b>29</b> |
| Holger Klinck, Selene Fregosi, Haru Matsumoto, Alex Turpin,<br>David K. Mellinger, Anatoli Erofeev, John A. Barth,<br>R. Kipp Shearman, Karim Jafarmadar and Roland Stelzer                      |           |
| <b>Design and Development of a Self-Stabilizing, Autonomous<br/>Sailboat with Zero-Net Stored-Energy Use . . . . .</b>   | <b>39</b> |
| Robert Baker, Laura Kambourian, Sohrab Hajarjan,<br>Thomas Augenstein, Stephen Harnett, Gyu-Min Lee,<br>Mukund Sudarshan, Cole Richter, Colette Trouillot,<br>Philippe Williamson and Andy Ruina |           |
| <b>Kite Sailing Platform Mathematical Model and Stabilization . . . . .</b>  | <b>59</b> |
| Konstantin Aprosín, Aleksander Tavlintsev,<br>Sergey Semenenko and Maria Shorikova   |           |

## **Part II Mission Planning, Localization and Obstacle Avoidance**

|  |           |
|--|-----------|
| <b>AIS-Enabled Collision Avoidance Strategies<br/>for Autonomous Sailboats . . . . .</b> | <b>77</b> |
| José C. Alves and Nuno A. Cruz   |           |

|  |           |
|--|-----------|
| <b>Consideration of State Representation for Semi-autonomous<br/>Reinforcement Learning of Sailing Within a Navigable Area . . . . .</b> | <b>89</b> |
| Hideaki Manabe and Kanta Tachibana   |           |

|  |            |
|--|------------|
| <b>AEOLUS, the ETH Autonomous Model Sailboat . . . . .</b>   | <b>103</b> |
| Jonas Wirz, Marco Tranzatto, Alex Liniger, Marcello Colombino,<br>Henrik Hesse and Sergio Grammatico |            |

|   |            |
|---|------------|
| <b>SWARMON—Real-Time Localization System. . . . .</b>   | <b>113</b> |
| Benoit Bourdon, Jean-Jacques Boye, Quentin Descours,<br>Bastien Drouot, Olivier Reynet and Thibault Viravau |            |

## **Part III Controllers and Sensors**

|   |            |
|---|------------|
| <b>Autonomous Sailboat Track Following Control. . . . .</b> | <b>125</b> |
| Qian Wang, Mengqi Kang, Jinsong Xu and Jianyun Xu           |            |

|  |            |
|--|------------|
| <b>Modeling and Control for an Autonomous Sailboat: A Case Study . . .</b> | <b>137</b> |
| Jon Melin, Kjell Dahl and Matias Waller                                    |            |

|  |            |
|--|------------|
| <b>Quantitative Analysis of Various Sail Luffing Sensing Methods . . . . .</b> | <b>151</b> |
| Halie Murray-Davis and Andrew Bennett  |            |

|                               |            |
|-------------------------------|------------|
| <b>Author Index . . . . .</b> | <b>163</b> |
|-------------------------------|------------|

Robotic Sailing 2015

Proceedings of the 8th International Robotic Sailing  
Conference

Friebe, A.; Haug, F. (Eds.)

2016, X, 164 p. 99 illus., 77 illus. in color., Hardcover

ISBN: 978-3-319-23334-5
