

Contents

Part I ABC Transporters: A Structure-Function Perspective

ABC Importers	3
Lotteke J.Y.M. Swier, Dirk-Jan Slotboom and Bert Poolman	
Bacterial ABC Multidrug Exporters: From Shared Proteins Motifs and Features to Diversity in Molecular Mechanisms	37
Hendrik W. van Veen	
Export of Staphylococcal Toxins by a Conserved ABC Transporter . . .	53
Seth W. Dickey, Som S. Chatterjee and Michael Otto	
ABC Exporters from a Structural Perspective	65
Markus A. Seeger, Enrica Bordignon and Michael Hohl	
Single Molecule or Ensemble Fluorescence Microscopy Investigations of ABC Transporter Oligomerisation and Dynamics	85
Kelvin Wong, Nicholas D. Holliday and Ian D. Kerr	

Part II Human ABC Transporters of Medical Relevance

Genetic Polymorphisms of P-glycoprotein: Echoes of Silence	105
King Leung Fung, Ryan C. Hunt, Chava Kimchi-Sarfaty and Michael M. Gottesman	
Interaction of ABC Transporters with Drugs	135
Peter Chiba, Gerhard F. Ecker, Fauzia Nasim and Yaprak Dönmez-Cakil	
Just How and Where Does P-glycoprotein Bind All Those Drugs?	153
Rituparna Mitra, Ellen M. Coyle and Richard Callaghan	
The ABCG2 Multidrug Transporter	195
Agnes Basseville, Matthew D. Hall, Cindy H. Chau, Robert W. Robey, Michael Gottesman, William D. Figg and Susan E. Bates	

Mechanistic and Pharmacological Insights into Modulation of ABC Drug Transporters by Tyrosine Kinase Inhibitors	227
Suneet Shukla, Atish Patel and Suresh V. Ambudkar	
Biology of Mitochondrial ABCs and Their Contribution to Pathology	273
Yu Fukuda, John A. Lynch and John D. Schuetz	
Human ABC Transporter ABCC11: Looking Back Pioneers' Odyssey and Creating a New Path Toward Clinical Application	297
Toshihisa Ishikawa and Yu Toyoda	
ABCC7/CFTR	319
Robert C. Ford	
Inborn Errors of the Cellular Expression and Localization of ABCG2 and ABCB6. A Database for ABC Transporter Mutations	341
Gergely Szakács, Tamás Hegedűs and Balázs Sarkadi	
Two Liver Transporters, ABCB11 and ABCC6; Novel Therapeutic Approaches in the Related Disorders.	357
András Váradi and László Homolya
