

Contents

Part I Introduction

1	Introduction to Nonclinical Statistics for Pharmaceutical and Biotechnology Industries	3
	Lanju Zhang and Cheng Su	
2	Regulatory Nonclinical Statistics	19
	Mohammad Atiar Rahman, Meiyu Shen, Xiaoyu (Cassie) Dong, Karl K. Lin, and Yi Tsong	
3	How To Be a Good Nonclinical Statistician	33
	Bill Pikounis and Luc Bijmens	

Part II Statistical Methods for Drug Discovery

4	Statistical Methods for Drug Discovery	53
	Max Kuhn, Phillip Yates, and Craig Hyde	
5	High-Throughput Screening Data Analysis	83
	Hanspeter Gubler	
6	Quantitative-Structure Activity Relationship Modeling and Cheminformatics	141
	Max Kuhn	
7	GWAS for Drug Discovery	157
	Yang Lu, Katherine Perez-Morera and Rita M. Cantor	
8	Statistical Applications in Design and Analysis of In Vitro Safety Screening Assays	177
	Lei Shu, Gary Gintant and Lanju Zhang	

Part III Statistical Methods for Nonclinical Development

9	Nonclinical Safety Assessment: An Introduction for Statisticians	201
	Ian S. Peers and Marie C. South	

10	General Toxicology, Safety Pharmacology, Reproductive Toxicology, and Juvenile Toxicology Studies	231
	Steven A. Bailey, Dingzhou Li and David M. Potter	
11	Clinical Assays for Biological Macromolecules	263
	Jianchun Zhang and Robert J. Kubiak	
12	Recent Research Projects by the FDA's Pharmacology and Toxicology Statistics Team	295
	Karl K. Lin, Matthew T. Jackson, Min Min, Mohammad Atiar Rahman, and Steven F. Thomson	
13	Design and Evaluation of Drug Combination Studies	349
	Lanju Zhang and Hyuna Yang	
14	Biomarkers	365
	Chris Harbron	
 Part IV Statistical Methods for CMC		
15	Overview of Drug Development and Statistical Tools for Manufacturing and Testing	383
	John Peterson and Stan Altan	
16	Assay Validation	415
	Perceval Sondag, Pierre Lebrun, Eric Rozet, and Bruno Boulanger	
17	Lifecycle Approach to Bioassay	433
	Timothy Schofield	
18	Quality by Design: Building Quality into Products and Processes	461
	Ronald D. Snee	
19	Process Validation in the Twenty-First Century	501
	Helen Strickland and Stan Altan	
20	Acceptance Sampling	533
	Richard K. Burdick and Frank Ye	
21	Process Capability and Statistical Process Control	549
	Stan Altan, Lynne Hare and Helen Strickland	
22	Statistical Considerations for Stability and the Estimation of Shelf Life	575
	Walter W. Stroup and Michelle Quinlan	
23	In Vitro Dissolution Testing: Statistical Approaches and Issues	605
	David LeBlond	
24	Assessing Content Uniformity	631
	Buffy Hudson-Curtis and Steven Novick	

Contents	xi
25 Chemometrics and Predictive Modelling	653
Wen Wu and Athula Herath	
26 Statistical Methods for Comparability Studies	675
Jason J.Z. Liao	
Index	695

Nonclinical Statistics for Pharmaceutical and
Biotechnology Industries

Zhang, L. (Ed.)

2016, XXII, 698 p. 144 illus., 113 illus. in color.,

Hardcover

ISBN: 978-3-319-23557-8
