Case 3: Privacy in the Age of Patient-Driven Websites	57
Relevant Professions: Health Informatics, Medicine, Biomedical Sciences	57
Case 4: Workplace Wellness Programs and Health Disparities	58
Relevant Professions: Medicine, Nursing, Public Health	58
Case 5: Conducting Human Subject Research Abroad: Whose Standards?	59
Relevant Professions: Biomedical Science, Translational Science, Medicine, Public Health	59
Case 6: Authorship and Clinical Equipoise	60
Relevant Professions: Medicine and Biomedical Science	60
Case 7: When Professional Identity Conflicts with Research	61
Relevant Professions: Medicine, Biomedical Sciences and Nursing	61
Case 8: When Experimental Therapies Need to Be Tested	62
Relevant Professions: Medicine, Biomedical Science	62
Case 9: When Practice Guidelines Conflict with Professional Authority	63
Relevant Professions: Health Informatics, Medicine	63
Case 10: Whistleblowing in a Small Town	64
Relevant Professions: Nursing, Medicine, Dentistry, Dental Hygiene, Dental Assistant	64
Case 11: Managing Patient's Health Information from the Internet	66
Relevant Professions: Medicine, Nursing, Social Work, Dentistry	66
Case 12: Sandy's Case	67
Relevant Professions: Clinical Social Work, Nursing, Medicine, Health Informatics	67
Case 13: Disasters: Who Gets Priority?	68
Relevant Professions: Public Health, Medicine, Nursing	68
Case 14: Planning During a Pandemic: Does Social Worth Count?	69
Relevant Professions: Public Health, Medicine, Nursing	69

Case 15: Access to Sugary Drinks: A Tale of Public Policy	70
Relevant Professions: Public Health, Medicine, Nursing, Dentistry	70
Case 16: The Duty to Report a Colleague	72
Relevant Professions: Dentistry, Nursing, Dental Hygiene, Dental Assistant	72
Case 17: Expanding the Scope of Practice: The Tale of Michael Logan	73
Relevant Professions: Nursing, Dental Assistant, Medical, Physician Assistant	73
Ethics Case 18: The Pre-Employment Physical: To Whose Benefit? . . .	74
Relevant Professions: Dentistry, Dental Assistant, Medical, Physician Assistant, Nurse Practitioner	74
Case 19: Who's More Deserving of the Benefit: The Individual or the Community?	75
Relevant Professions: Dentistry, Dental Assistant, Public Health	75
Case 20: Beyond Teeth	76
Relevant Professions: Dentistry, Medical, Public Health, Nursing	76
Case 21: Minor Children and the Poor Prognosis	77
Relevant Professions: Nursing, Medical, Social Work, Clinical Psychology	77
Case 22: Disclosure of a Diagnosis: Legal and Ethic Obligations by Different Providers	78
Relevant Professions: Medicine, Nursing, Clinical Psychology, Social Work	78
Case 23: When Professionals Disagree	79
Relevant Professions: Medicine, Nursing	79
Case 24: Multiple Providers—Who Coordinates?	80
Relevant Professions: Medicine, Nursing, Pharmacy, Chiropractic	80
Case 25: Medical Errors at the End of Life	82
Relevant Professions: Medicine, Nursing, Dentistry, Pharmacy, Physician Assistant	82
Case 26: Industry Funded Research	83
Relevant Professions: Biomedical Sciences, Public Health, and Translational Medicine	83
Case 27: A Clash of Cultures	84
Relevant Professions: Medicine, Nursing, Social Work	84
Case 28: Surgery, Anesthesia, and Professionalism: Acute Abdomen in an Obese Patient	85
Relevant Professions: Medicine, Nursing	85

Case 29: Dying in the ICU: Is that What ICUs Are for? 87

 Relevant Professions: Medicine, Nursing. 87

Case 30: Dissemination of Medical Information to Minors 88

 Relevant Professions: Medicine, Nursing, Pharmacy 88
