

Contents

1	Introduction	1
	Bibliography	3
2	Particle Scattering in Astrophysical Environments	5
2.1	Collisional Cross Sections	6
2.1.1	Partial Wave Scattering	6
2.1.2	Interaction Potentials	16
2.1.3	Partial Wave Cross Sections	18
2.1.4	Empirical Scaling Cross Sections	26
2.1.5	Charge Exchange Cross Sections	30
2.2	Monte Carlo Transport	32
2.2.1	Ion Transport	38
2.2.2	Frame Transformations	42
2.3	Precipitation of Energetic Neutral Atoms in the Atmosphere of Mars	44
2.4	Transport of Energetic Neutral Atoms in the Local Interstellar Medium	68
	Bibliography	80
3	X-Ray Scattering by Nanoparticles	85
3.1	Radiation Scattering Cross Sections	86
3.2	Heliosphere Dust Scattering	94
3.3	X-Ray Scattering from Cometary Atmospheres	98
	Bibliography	102
4	Conclusions	105

Scattering of Particles and Radiation in Astrophysical
Environments

Lewkow, N.R.

2016, XI, 106 p., Hardcover

ISBN: 978-3-319-25077-9
