|-----------------------------------------------------------------------------------|-----|
| <b>1 Is There a Cosmic Web of Life?</b> .....                                     | 1   |
| The Panspermia Hypothesis.....                                                    | 2   |
| Some More Exotic Versions of the Hypothesis .....                                 | 6   |
| “Soft” Panspermia .....                                                           | 8   |
| Slightly Harder Panspermia.....                                                   | 12  |
| Are We Martians? .....                                                            | 14  |
| A Biological Universe?.....                                                       | 22  |
| The Case for Cometary Meteorites.....                                             | 27  |
| The Murchison Meteorite—Out of the Silent<br>Comet? .....                         | 38  |
| Diseases from Outer Space .....                                                   | 47  |
| Weird Correlations; Is the Encke/Whooping Cough<br>Association Another One? ..... | 51  |
| <b>2 The Birth of the Solar System: Some Unconventional<br/>Ideas</b> .....       | 55  |
| The Two Conventional Alternatives .....                                           | 55  |
| But Is Gravity Enough? .....                                                      | 63  |
| Planets Spun from the Sun? .....                                                  | 70  |
| <b>3 Focused Starlight, Cosmic Impacts and Life on Earth</b> .....                | 99  |
| Nature’s Ray Gun? .....                                                           | 99  |
| Biological Extinctions, Asteroidal Impacts<br>and Other Things .....              | 105 |
| What was the Asteroid’s Origin?.....                                              | 112 |
| Periodic Extinctions? .....                                                       | 117 |
| A Star Passed By.....                                                             | 124 |
| But Are Comet Showers Necessarily Dangerous? .....                                | 125 |
| <b>4 Comet Controversies</b> .....                                                | 133 |
| Are Comets Ejected by Planets, Their Moons ...<br>and the Sun? .....              | 133 |

|                                                                               |            |
|-------------------------------------------------------------------------------|------------|
| Do Jupiter's Comets Quickly Fade Away? .....                                  | 141        |
| Solar Comets? .....                                                           | 146        |
| Out of the Exploded Planet? .....                                             | 147        |
| Electrical Comets? .....                                                      | 157        |
| Antimatter Comets .....                                                       | 169        |
| Cosmic Serpents and Cosmic Winters.....                                       | 174        |
| The Celestial Swastika?.....                                                  | 193        |
| <b>5 Weird Theories of a Weird Universe .....</b>                             | <b>203</b> |
| The Cosmic Redshift and Electrostatic Repulsion .....                         | 203        |
| Max Tegmark's Mathematical Universe.....                                      | 209        |
| $\pi$ in the Sky? .....                                                       | 214        |
| The Universe = Mathematics .....                                              | 218        |
| Frog Perspectives and Bird Perspectives .....                                 | 222        |
| A Universe of Universes? .....                                                | 224        |
| But Is the Universe Really Mathematics—Or Is<br>It Merely Mathematical? ..... | 232        |
| Of Strings and Other Things .....                                             | 241        |
| The Branes of the Universe .....                                              | 248        |
| <b>Appendix A: The Maribo Meteorite.....</b>                                  | <b>257</b> |
| <b>Appendix B: The Sutter's Mill Meteorite:<br/>A Taurid Connection?.....</b> | <b>261</b> |
| <b>Author Index .....</b>                                                     | <b>263</b> |
| <b>Subject Index.....</b>                                                     | <b>267</b> |

Weird Astronomical Theories of the Solar System and  
Beyond

Seargent, D.A.J.

2016, XIV, 270 p. 43 illus., 32 illus. in color., Softcover

ISBN: 978-3-319-25293-3
