

Contents

1	Introduction to MR Imaging	1
1.1	Magnetic Resonance Imaging	1
1.2	MRI Physics	3
1.2.1	Spin Physics	3
1.2.2	RF Excitation	4
1.2.3	Relaxation	6
1.3	Signal Generation	8
1.3.1	Spatial Encoding of MR Signal	9
1.3.2	2D Imaging	10
1.3.3	Small Tip Angle Approximation	13
1.4	Phase Contrast Imaging	16
	References	17
2	Simulation Overview	19
2.1	Bloch Equation	20
2.1.1	Solution of Bloch Equation	21
2.1.2	Time Update Form of Bloch Equation	23
2.2	Working Principle of MR Simulator	24
2.2.1	Imaging Parameters and K-Space Generation	26
2.3	Incorporation of T_2^* Effects in Gradient-Echo Imaging	28
2.4	Incorporation of Susceptibility Effects	28
2.4.1	Susceptibility Artifacts	29
	References	31
3	Working Principle of PC-MRA with MATLAB Examples	33
3.1	Gradient Echo Imaging	34
3.2	Velocity Encoding	35
3.3	Effects of Flow on the Image	39
3.4	Phase Contrast Techniques	40

3.5	Quantitative Flow Image Analysis	42
3.5.1	Two-Point Method	42
3.5.2	Simple Four Point Method	43
3.5.3	Balanced Four Point Method	44
3.5.4	Processing of Multi-channel PC-MRA	45
	References	47
4	Numerical Simulation of PC-MRA	49
4.1	Flow Phantom Model.	50
4.1.1	Masking Function	52
4.2	Simulation of Magnetization Transport.	54
4.2.1	Lattice Boltzmann Method (LBM).	55
4.3	Simulation of MRI Signal Generation Using LBM and Bloch Equation	58
4.3.1	Integration of LBM and Blochequation Simulation	59
4.4	MRA Simulation Using Particle Trajectory Models	61
4.5	Bloch Flow Equations	66
	References	69
5	Modeling of PC-MRA	71
5.1	An Overview of PC-MRA Modeling	71
5.1.1	Partial Volume Effect.	72
5.2	Global Segmentation of Speed Images	75
5.3	Initial Estimation of Mixture Parameters.	80
5.3.1	Iterated EM Algorithm.	81
5.3.2	Segmentation Using Local Phase Coherence	83
5.3.3	Segmentation Using MRF Formulation	83
5.4	Vascular Tree Construction.	85
5.4.1	Skeletonization	86
	References	88
	Appendix	91

Understanding Phase Contrast MR Angiography

A Practical Approach with MATLAB examples

Suresh Paul, J.; Gouri Raveendran, S.

2016, VIII, 92 p. 52 illus., 39 illus. in color., Softcover
