

# Contents

<b>1</b>	<b>An Introduction to Modern Statistical Methods in HCI . . . . .</b>	<b>1</b>
	Judy Robertson and Maurits Kaptein	
<b>Part I Getting Started With Data Analysis</b>		
<b>2</b>	<b>Getting Started with [R]; a Brief Introduction . . . . .</b>	<b>19</b>
	Lianne Ippel	
<b>3</b>	<b>Descriptive Statistics, Graphs, and Visualisation . . . . .</b>	<b>37</b>
	Joanna Young and Jan Wessnitzer	
<b>4</b>	<b>Handling Missing Data . . . . .</b>	<b>57</b>
	Thom Baguley and Mark Andrews	
<b>Part II Classical Null Hypothesis Significance Testing Done Properly</b>		
<b>5</b>	<b>Effect Sizes and Power Analysis in HCI . . . . .</b>	<b>87</b>
	Koji Yatani	
<b>6</b>	<b>Using R for Repeated and Time-Series Observations . . . . .</b>	<b>111</b>
	Deborah Fry, Kerri Wazny and Niall Anderson	
<b>7</b>	<b>Nonparametric Statistics in Human–Computer Interaction . . . . .</b>	<b>135</b>
	Jacob O. Wobbrock and Matthew Kay	
<b>Part III Bayesian Inference</b>		
<b>8</b>	<b>Bayesian Inference . . . . .</b>	<b>173</b>
	Michail Tsikerdekis	
<b>9</b>	<b>Bayesian Testing of Constrained Hypotheses . . . . .</b>	<b>199</b>
	Joris Mulder	

**Part IV Advanced Modeling in HCI**

- 10 Latent Variable Models . . . . . 233**  
A. Alexander Beaujean and Grant B. Morgan
- 11 Using Generalized Linear (Mixed) Models in HCI . . . . . 251**  
Maurits Kaptein
- 12 Mixture Models: Latent Profile and Latent Class Analysis . . . . . 275**  
Daniel Oberski

**Part V Improving Statistical Practice in HCI**

- 13 Fair Statistical Communication in HCI . . . . . 291**  
Pierre Dragicevic
- 14 Improving Statistical Practice in HCI . . . . . 331**  
Judy Robertson and Maurits Kaptein

Modern Statistical Methods for HCI

Robertson, J.; Kaptein, M. (Eds.)

2016, XX, 348 p. 77 illus., Hardcover

ISBN: 978-3-319-26631-2
