1	Ethnobotanical Study	1
	References	4
2	Pharmacognostical Studies	5
2.1	Macroscopic Analysis	6
2.2	Microscopic Analysis	6
2.3	Maceration	7
2.4	Histochemical Colour Reaction	7
2.5	Photomicrography	7
2.6	Organoleptic Character of Plant Powder and Extracts	8
2.7	Fluorescence Analysis of Plant Powder with Different Chemical Reagents	8
2.8	Determination of PH of Plant Powder	8
2.9	Water Solubility Index (WSI) and Water Absorption Index (WAI)	8
2.10	Acid Value	9
	References	9
3	Extraction of Bioactive Compounds	11
3.1	Maceration	12
3.2	Soxhlet Extraction	12
3.3	Fractionation	12
	References	13
4	Preliminary Phytochemical Studies	15
4.1	Detection of Alkaloids	16
4.2	Detection of Carbohydrates	16
4.3	Detection of Glycosides	16
4.4	Detection of Saponins	17
4.5	Detection of Protein	17
4.6	Detection of Amino Acids	17
4.7	Detection of Phytosterols	17

4.8	Detection of Fixed Oils and Fats	18
4.9	Detection of Phenolic Compounds	18
4.10	Detection of Flavonoids	18
4.11	Detection of Flavonol Glycosides	18
4.12	Detection of Gums and Mucilages	19
	References	19
5	Proximate Composition Analysis	21
5.1	Moisture Content	22
5.2	Ash Value	22
5.3	Crude Lipid	23
5.4	Total Carbohydrates	24
5.5	Starch	26
5.6	Total Proteins	27
5.7	Total Free Amino Acids	29
	References	31
6	Mineral Quantification	33
6.1	Estimation of Nitrogen	34
6.2	Estimation of Phosphorous	35
6.3	Estimation of Calcium and Magnesium	36
6.4	Estimation of Potassium	37
6.5	Estimation of Sodium	38
6.6	Estimation of Iron, Copper, Zinc and Boron	39
6.7	Estimation of Molybdenum	40
	References	41
7	Anti-nutritional Factors	43
7.1	Introduction	43
7.2	Trypsin Inhibitor	43
7.3	Phytic Acid	45
7.4	Cyanogen	46
	References	47
8	Quantification of Secondary Metabolites	49
8.1	Total Phenolic Content	49
8.2	Tannin Content	51
8.3	Flavonoid Content	52
8.4	Flavonol Content	53
8.5	Vitamin E Content	54
	References	55
9	In Vitro Antioxidant Assays	57
9.1	DPPH Scavenging Activity	58
9.2	ABTS ^{•+} Scavenging Activity	59
9.3	Phosphomolybdenum Assay	60
9.4	Ferric Reducing Antioxidant Power (FRAP) Assay	60

9.5	Metal Chelating Activity	61
9.6	Nitric Oxide Scavenging Activity	62
9.7	Superoxide Radical Scavenging Activity	63
9.8	Reducing Power Ability	64
9.9	Hydroxyl Radical Scavenging Activity	65
9.10	Hydrogen Peroxide Scavenging Activity	66
9.11	Lipid Peroxidation	67
9.12	DNA Protection Assay	68
	References	71
10	In Vitro Antihaemolytic Activity	73
	References	75
11	Antimicrobial Activity	77
11.1	Determination of Effect on Bacterial Morphology.	78
11.2	Determination of Effect on Fungal Morphology	78
	Reference	78
12	In Vitro Anthelmintic Assay	79
	References	80
13	Toxicity Studies	81
13.1	Acute Oral Toxicity Study.	81
13.2	Acute Dermal Toxicity Study	82
13.3	Subacute Toxicity	83
13.4	Calculation	85
	References	87
14	In Vivo Antioxidant Assays	89
14.1	Determination of Total Protein.	90
14.2	Determination of Superoxide Dismutase (SOD)	91
14.3	Determination of Catalase Activity in Blood and Tissue Homogenate	92
14.4	Determination of Glutathione Peroxidase (GPx) Activity	93
14.5	Estimation of Lipid Peroxidation	94
14.6	Determination of Reduced Glutathione (GSH) Content in Blood and Tissue Homogenate.	95
14.7	Assay of Glutathione S-Transferase (GST)	96
14.8	Assay of Glutathione Reductase (GR).	97
	References	98
15	Analgesic Activity	99
15.1	Hot Plate Method.	99
15.2	Acetic Acid-Induced Abdominal Writhes.	100
15.3	Formalin-Induced Nociceptive Behaviour	101
	References	102

16	Anti-inflammatory Activity	103
16.1	In Vitro Anti-inflammatory Activity by Membrane Stabilization Method.	104
16.2	Carrageenan and Egg-Albumin-Induced Acute Paw Oedema in Rats	105
16.3	Croton Oil-Induced Ear Oedema Model	106
16.4	Histamine-Induced Acute Paw Oedema in Rats	107
16.5	Neutrophil Migration into the Peritoneal Cavity	108
16.6	Cotton Pellet-Induced Granuloma Model.	109
	References	110
17	Antipyretic Activity	113
17.1	Brewer's Yeast-Induced Pyrexia.	113
	References	115
18	Inflammatory Bowel Disease	117
18.1	Indomethacin-Induced Enterocolitis in Rats	118
18.2	Evaluation Based on Macroscopic Characters.	119
18.3	Macroscopic Changes of IBD	119
18.4	Myeloperoxidase Assay for Quantification of Inflammation	120
18.5	Measurement of Colonic Lipid Peroxide Concentration	121
18.6	Determination of Colonic GSH Contents.	121
18.7	Evaluation Based on Microscopic (Histologic) Characters	122
	References	122
19	In Vitro Anti-arthritic Activity	123
19.1	In Vitro Anti-arthritic Activity by the Inhibition of Protein Denaturation	123
19.2	Formaldehyde-Induced Arthritis in Rats	124
19.3	Complete Freund's Adjuvant (CFA)-Induced Arthritis in Rats	125
19.4	Haematological Parameters	126
	References	127
20	Anti-diarrhoeal Activity	129
20.1	Charcoal Meal-Induced Diarrhoea	129
	Reference	130
21	Anti-ulcer Activity	131
21.1	Ethanol-Induced Ulcer	131
21.2	Materials.	132
	References	133
22	Hepatoprotective Activity	135
22.1	Paracetamol-Induced Liver Damage	135
	References	137

23	Anti-diabetic Activity	139
23.1	In Vitro Anti-diabetic Activity	139
23.1.1	α -Amylase Inhibitory Activity	140
23.1.2	α -Glucosidase Inhibitory Activity	141
23.2	Evaluation on Normal Healthy Rats and Oral Glucose Tolerance Test	142
	References	143
24	Evaluation of Anti-diabetic Property on Streptozotocin-Induced Diabetic Rats	145
	References	148
25	In Vivo Wound Healing Studies	151
25.1	Excision Wound Models	152
25.2	Incision Model.	153
25.3	Dead Space Wound Model	154
25.4	Estimation of Hydroxyproline Content	155
	References	156
26	Determination of Cytotoxicity	159
26.1	Trypan Blue Dye Exclusion Method.	159
26.2	MTT Cell Viability Assay.	160
	References	161
27	Induction of Apoptosis	163
	References	164
28	Anti-tumour Activity	165
28.1	Solid Tumour Development.	165
28.2	Ascites Tumour Development	166
	References	167
29	Protein Bioavailability in Animal Model	169
	References	172
30	Detection of Phenolic and Flavonoid Compounds Using High Performance Thin Layer Chromatography (HPTLC)	173
	References	175
31	Isolation of Compounds	177
31.1	Thin Layer Chromatography (TLC)	178
31.2	Column Chromatography	179
32	Molecular Docking of Bioactive Compounds Against BRCA and COX Proteins.	181
	References	183
	Index	185
