

Contents

1	Controversies in Neoplastic Myeloplasia	1
	James E. Talmadge	
1.1	Introduction	1
1.2	Controversy 1: What Are MDSCs Phenotypically?	3
1.3	Controversy 2: Is T-Cell Suppression by MDSCs Antigen Specific?	4
1.4	Controversy 3: What Are the Differences Between PMN-MDSCs and Neutrophils (PMNs)?	5
1.5	Controversy 4: What Are the Differences Between M-MDSCs and Monocytes/Macrophages?	6
1.6	Controversy 5: What Are Clinically Effective Therapeutic Interventions for MDSCs?	7
1.6.1	Inhibiting MDSC Immunosuppressive Activity	7
1.6.2	Depleting MDSC Number	11
1.6.3	Regulating MDSC Development/Apoptosis	12
1.6.4	Inducing MDSC Differentiation	14
	References	15
2	Differentiation of Murine Myeloid-Derived Suppressor Cells	25
	David Escors	
2.1	Introduction	25
2.2	Physiological Myeloid Differentiation	26
2.2.1	Conventional Myeloid Cell Types and Their Role in Immunity	26
2.2.2	Physiological Myelopoiesis	28
2.2.3	Transcription Factors Driving Myelopoiesis	29
2.3	MDSC Differentiation in Cancer	30
2.3.1	Myeloid Cells and Cancer Progression in Murine Models	30
2.3.2	The Definition of Myeloid-Derived Suppressor Cells	30

2.3.3	Perturbed Myelopoiesis Behind MDSC Differentiation	31
2.3.4	Do MDSCs Belong to a Specific Myeloid Lineage? Relationship Between M-MDSCs and G-MDSCs	31
2.4	Summary and Conclusions	33
	References	34
3	Human MDSCs	39
	Grazyna Kochan	
3.1	Introduction	39
3.2	Murine MDSCs	40
3.3	Human MDSCs	41
3.4	Other Proposed Human MDSC Phenotypes	41
3.5	Mechanisms of Action	42
3.6	Models of Human MDSC Differentiation	44
3.7	Summary and Conclusions	44
	References	45
4	Ex Vivo MDSC Differentiation Models	49
	David Escors and Grazyna Kochan	
4.1	Introduction	49
4.2	Ex Vivo Murine MDSC Differentiation Models	50
4.2.1	Differentiation Methods Based on Cancer Cell-Derived Conditioning Medium	50
4.2.2	Differentiation Methods Based on Defined Media	53
4.3	Ex Vivo Human MDSC Differentiation Models	54
4.3.1	Differentiation Methods Based on Cancer Cell-Derived Conditioning Medium	55
4.3.2	Differentiation Methods Based on Defined Cytokine Combinations	55
4.4	MDSC-Like Cell Lines	56
4.5	Summary and Conclusions	57
	References	58
5	Immunoregulatory Myeloid Cells in the Tumor Microenvironment	61
	Jo A. Van Genderachter	
5.1	Introduction	61
5.2	Myeloid Cells Within the Tumor Microenvironment and Their Immunoregulatory Role	62
5.3	Concluding Remarks	67
	References	68

6	Signal Transducer and Activation of Transcription 3: A Master Regulator of Myeloid-Derived Suppressor Cells	73
	Karine Breckpot	
6.1	An Introduction to Tumor Immunology and Myeloid-Derived Suppressor Cells	73
6.2	Signal Transducer and Activator of Transcription 3: The Basics	75
6.3	Signal Transducer and Activator of Transcription 3 Play a Role in the Accumulation and Differentiation of Myeloid-Derived Suppressor Cells	76
6.4	Activated Signal Transducer and Activator of Transcription 3 can be Found in Monocytic and Polymorphonuclear Myeloid-Derived Suppressor Cells	77
6.5	Signal Transducer and Activator of Transcription 3 and its Role in the Tumor Promoting Activity of Myeloid-Derived Suppressor Cells	78
6.6	Targeting Signal Transducer and Activator of Transcription 3 as a Strategy to Manipulate Myeloid-Derived Suppressor Cells	80
6.7	Conclusions	82
	References	82
7	Future Perspectives	91
	David Escors and Grazyna Kochan	
7.1	Myeloid Cells and Cancer.	91
7.2	Differentiation of Myeloid-Derived Suppressor Cells	93
7.3	Targeting MDSC-Specific Pathways for Therapy	94
7.4	Summary and Conclusions	98
	References	99

Myeloid-Derived Suppressor Cells and Cancer

Escors, D.; Talmadge, J.; Breckpot, K.; Van

Ginderachter, J.A.; Kochan, G.

2016, IX, 102 p. 8 illus. in color., Softcover

ISBN: 978-3-319-26819-4
