1	Forecasting	1
1.1	Introduction	1
1.2	Forecast Pioneers	2
1.3	Data Collection	2
1.3.1	Stock Keeping Units	2
1.3.2	Monthly Buckets	2
1.3.3	Database	3
1.3.4	Demands and Lines	3
1.3.5	Calendar and Fiscal Months	4
1.4	Past Demands	4
1.4.1	Demand History	4
1.4.2	Outlier Demands	5
1.4.3	Return Demands	6
1.4.4	Demand-to-Date (D2D)	6
1.5	Future Requirements	7
1.5.1	Forecasts	7
1.5.2	Advance Demands	7
1.5.3	Other Requirements	8
1.5.4	Total Requirements	9
1.6	Horizontal, Trend and Seasonal Models	9
1.6.1	Horizontal Forecast Model	9
1.6.2	Trend Forecast Model	10
1.6.3	Seasonal Models	10
1.6.4	Seasonal Multiplicative Forecast Model	11
1.6.5	Seasonal Additive Forecast Model	11
1.7	Forecasting Methods	12
1.7.1	Moving Average	12
1.7.2	Regression	13
1.7.3	Discounting	13
1.7.4	Smoothing	13

1.8	Horizontal Moving Average Model	14
1.9	Trend Regression Model	15
1.10	Horizontal Discount Model	16
1.11	Trend Discount Model	18
1.12	Horizontal Smoothing Model	20
1.13	Trend Smoothing Model	20
1.14	Seasonal Multiplicative Model	21
1.14.1	Initialize	22
1.14.2	Monthly Revise	22
1.14.3	Forecast	22
1.15	Seasonal Additive Model	23
1.15.1	Initialize	23
1.15.2	Monthly Revise	24
1.15.3	Forecast	24
1.16	Cumulative, Integer and Weekly Forecasts	24
1.16.1	Cumulative Forecasts	25
1.16.2	Integer Forecasts	25
1.16.3	Weekly Forecasts	26
1.17	Summary	27
2	Forecast Error	29
2.1	Introduction	29
2.2	Standard Deviation for the 1-Month-Ahead Forecast Error	30
2.3	Standard Deviation for the Horizontal Moving Average Model	30
2.4	Standard Deviation for the Trend Regression Model	31
2.5	Standard Deviation for the Horizontal Discount Model	31
2.6	Standard Deviation for the Trend Discount Model	32
2.7	Standard Deviation for the Horizontal Smoothing Model	33
2.8	Standard Deviation for the Trend Smoothing Model	33
2.9	Standard Deviation for the Seasonal Multiplicative Model	34
2.10	Standard Deviation for the Seasonal Additive Model	35
2.11	Standard Deviation for the Cumulative Forecast	36
2.12	Standard Deviation for Weekly Forecasts	36
2.13	Standard Deviation for an SKU	37
2.14	Summary	38
3	Order Quantity	39
3.1	Introduction	39
3.2	Order Quantity in Monthly Buckets	40
3.3	Stocking Rate	42
3.4	Effective Cost-Per-Unit	42
3.5	Economic Order Quantity	42
3.6	Stocking Rate	43
3.7	Effective Cost-Per-Unit	43

3.8	Sensitivity	44
3.8.1	Sensitivity of the Annual Demand on Q	44
3.8.2	Sensitivity of the Cost Per Order on Q	45
3.8.3	Sensitivity of the Cost Per Unit on Q	46
3.8.4	Sensitivity of the Annual Holding Rate on Q	47
3.8.5	Sensitivity When Q is Used Instead of the EOQ	47
3.9	Constraints	48
3.9.1	Price Discounts	48
3.9.2	Setup Cost Discounts	50
3.9.3	Min and Max Constraints	51
3.9.4	Multiple Constraint	51
3.9.5	Bin-Max Constraint	52
3.9.6	Job Quantity Constraint	53
3.10	Least Unit Cost	53
3.11	Multi-Part Buy Quantity	55
3.12	Initial Buy Quantity (IBQ)	56
3.12.1	Lead-Time Cost	57
3.13	Final Buy Quantity (FBQ)	60
3.13.1	Final Buy Forecast (FBF)	60
3.13.2	Part Life Cycle	61
3.13.3	Final Buy Quantity	63
3.14	Summary	66
4	Safety Stock	67
4.1	Introduction	67
4.2	Safety Stock Need	68
4.3	Safety Stock Methods	68
4.4	Safety Stock Parameters	68
4.5	Months Supply Method	69
4.6	Normal Distribution	70
4.7	Standard Normal	70
4.7.1	Cumulative Probability Distribution	70
4.7.2	Standard Normal Table	71
4.7.3	Lead-Time Demand	72
4.7.4	Safety Stock from the Standard Normal	73
4.8	Truncated Normal Distribution	78
4.8.1	Safety Stock from the Truncated Normal	79
4.9	Safety Stock for a Group of Parts	84
4.10	Safety Stock When Late Delivery	86
4.11	Vendor Measures	87
4.11.1	On-Time Delivery	87
4.11.2	Vendor Safety Time	88
4.11.3	Part Data	89
4.12	Loss Sales	90
4.13	Summary	92

5	Replenishments	95
5.1	Introduction	95
5.2	Order Point and Order Level	95
5.2.1	When to Buy and How Much	96
5.2.2	Rounding the Order Point and Order Level	97
5.2.3	Adjusting Ties in Order Point and Order Level	97
5.2.4	When a Negative Order Point	98
5.3	Replenish Stock	98
5.3.1	Replenish Rule	98
5.3.2	Inventory Flow Over the Order Cycle	99
5.4	Replenish Quantity Constraints	99
5.4.1	Min Quantity and Multiple Quantity	100
5.5	Cycle Stock, Safety Stock and Total Stock	100
5.5.1	Average Cycle Stock, Safety Stock and Total Stock	101
5.5.2	Average Months of Cycle Stock, Safety Stock and Total Stock	101
5.5.3	Months-in-Buy	101
5.6	On-Order Inventory	102
5.6.1	Average On-Order Inventory	102
5.6.2	Average Months of On-Order Inventory	102
5.7	Turnover	102
5.8	Safety Stock Ingredients	103
5.8.1	CS, SS and TS Needed for PF, Cov, L and MIB	104
5.8.2	Sensitivity of the Inventory to PF	105
5.8.3	Sensitivity of Inventory to Cov	105
5.8.4	Sensitivity of the Inventory to L	105
5.8.5	Sensitivity of the Inventory to MIB	105
5.8.6	Sensitivity of Turnover to PF, Cov, L and MIB	106
5.8.7	Percent of Safety Stock Over Total Stock	106
5.9	Low Demand Items	106
5.9.1	Cov of the Normal Distribution	107
5.9.2	Poisson Distribution	107
5.9.3	Cov of the Poisson Distribution	107
5.10	Inventory Flow for Low Demand Items	108
5.10.1	Percent Fill for Low Demand Items	108
5.10.2	Min OP and OL for F_L and PF	109
5.11	Replenishments for SKUs	109
5.12	Summary	111
6	Distribution Control	113
6.1	Introduction	113
6.2	Network Forecasts, Standard Deviation and Order Quantity	114
6.3	Location Percent Demand	114
6.4	Location Forecast and Standard Deviation	114

6.5	Location Order Quantity	115
6.6	Location Safety Stock	115
6.7	Location Order Point and Order Level	115
6.8	Location Buy	116
6.9	Allocation	117
6.10	Transfer	119
6.11	Share	121
6.12	Sourcing	124
6.13	Limit Buy	125
6.14	Discount Buy	127
6.15	Summary	130
7	Manufacturing Control	131
7.1	Introduction	131
7.2	Manufacturing Pioneer	131
7.3	Production Planning	132
7.3.1	Make-to-Stock	132
7.3.2	Make-to-Order	133
7.3.3	Make-to-Stock and Make-to-Order	135
7.4	Master Production Schedule	136
7.4.1	MPS Computations	138
7.4.2	MPS for Weeks 1–6	138
7.4.3	MPS Worksheet	139
7.4.4	Available to Promise Computations	139
7.4.5	Available to Promise for Weeks 0–6	139
7.4.6	MPS and AP Worksheet	140
7.5	Rough Cut Capacity Planning	140
7.6	Raw Load and Level Load Production Scheduling	141
7.7	Bill of Materials	144
7.8	Product Structured Record	145
7.9	Materials Requirement Planning	145
7.10	Summary	147
8	Just-in-Time	149
8.1	Introduction	149
8.2	Just-in-Time Pioneer	149
8.3	Kanban	150
8.4	Just-in-Time Manufacturers	151
8.4.1	Gift Baskets	152
8.4.2	Fast Food Grill	152
8.4.3	Florist	152
8.4.4	Book Publisher	153
8.4.5	Computer Firms	153
8.5	Lean Manufacturing	153
8.5.1	Identify Waste	154
8.5.2	Lean Tools	154

8.6	Setup Time Reduction	154
8.6.1	Batch Size	154
8.6.2	Setup Time	155
8.7	Economic Batch Size	155
8.8	Lead Time Reduction	156
8.9	Service Level Method of Safety Stock	157
8.10	Service Level Method in Months Supply	158
8.11	Aggregate Scheduling	159
8.12	Level Scheduling	162
8.13	Postponement Strategy	162
8.13.1	Make-to-Order	162
8.13.2	Postponement	163
8.14	Summary	164
9	Assembly	165
9.1	Introduction	165
9.2	Assembly Pioneer	166
9.3	Assembly	166
9.4	Single Model Assembly	166
9.4.1	Data	167
9.4.2	Computations	167
9.4.3	Line Balance	167
9.4.4	Line Measures	167
9.4.5	Precedence Diagram	168
9.5	Mixed Model Make-to-Stock Assembly	169
9.5.1	Data	170
9.5.2	Computations	170
9.5.3	Line Balance	171
9.5.4	Sequencing	171
9.5.5	Number of Station Operators	172
9.5.6	Line Measures	173
9.5.7	Sequence	173
9.6	Mixed Model Make-to-Order Assembly	174
9.6.1	Features and Options	174
9.6.2	Jobs	174
9.6.3	Work Elements	175
9.6.4	Computations	175
9.6.5	Operators	175
9.6.6	Line Balance	176
9.6.7	Line Efficiency	176
9.6.8	Daily Shift Schedule	176
9.6.9	Feature-Option Count for the Shift	177
9.6.10	Sequencing	177
9.6.11	Computations	178
9.6.12	Jobs for the Day	179

9.6.13	Feature-Option Tally	180
9.6.14	Sequence	180
9.7	Robotic Assembly	181
9.8	Summary	182
10	Statistical Process Control	183
10.1	Introduction	183
10.2	Statistical Process Control Pioneers	184
10.3	Statistical Control	184
10.4	Data Type	184
10.5	Attribute Type Data	185
10.5.1	Process Review Decisions	185
10.5.2	Pre-Study Subgroup Data	185
10.5.3	P-Chart	186
10.5.4	Np-Chart	188
10.5.5	C-Chart	190
10.5.6	U-Chart	193
10.6	Variable Type Data	195
10.6.1	Pre-study Stage	196
10.6.2	Specification Limits	196
10.6.3	Six Sigma	196
10.6.4	Process Potential	196
10.6.5	Process Capability	197
10.6.6	Monitor Stage	197
10.6.7	Statistical Coefficients	197
10.6.8	X-Bar and R Chart	197
10.6.9	Median and R Chart	200
10.6.10	Individual Chart	203
10.6.11	Statistical Coefficients	206
10.6.12	X-Bar and s Chart	206
10.7	Summary	209
11	Distribution Network	211
11.1	Introduction	211
11.2	Network	212
11.2.1	Master and Branch Locations	212
11.2.2	2-Level-Service Locations	213
11.2.3	Distributed and Non-distributed Parts	213
11.2.4	Stock Locations	213
11.3	Network Design	214
11.3.1	Network Locations	214
11.3.2	Demand Locations	215
11.4	Parameters	215
11.4.1	Stock and Non-stock Parts	215
11.4.2	Distributed and Non-distributed Parts	216
11.4.3	Distributed and Non-distributed Part Locations	216

11.5	Part Order Quantity	217
11.6	Part Safety Stock	218
11.7	Part Cycle Stock and Total Stock	218
11.8	Location Measures	218
11.9	Network Summary Table	219
11.10	Packagers	220
11.11	Cross-Docking	221
11.12	Cycle Counting	222
	11.12.1 Random Sampling Cycle Count	222
	11.12.2 ABC Cycle Count	223
	11.12.3 Pareto Cycle Count	224
11.13	Queuing Applications	225
11.14	Summary	228
12	Supply Chain Management	229
12.1	Introduction	229
12.2	Supply Chain Management Team	229
12.3	Vendor Managed Inventory (VMI)	230
12.4	Scan-Based Trading (SBT)	231
12.5	Electronic Data Interchange (EDI)	231
12.6	Bar Code	232
12.7	Data Matrix Barcode	233
12.8	Quick Response Code (QR)	234
12.9	Radio Frequency Identification (RFID)	234
12.10	Incoterms	235
12.11	Tracking and Tracing	236
12.12	Continuous Replenishment (CR)	236
12.13	Logistics	237
12.14	Third Party Providers (3PP)	237
12.15	Outsourcing	237
12.16	Make or Buy	238
12.17	Warehouse Management	238
12.18	Material Handler	239
12.19	Waste Management	239
12.20	Supply Chain Examples	239
	12.20.1 Make-to-Order Heavy-Duty Item	240
	12.20.2 Men's Shoe Stores	240
	12.20.3 Offshore Automotive Dealership	242
	12.20.4 Replenishing Seasonal Style Goods	243
	12.20.5 Delivery of a Popular Bakery Item to Stores	244
12.21	A Supply Chain	244
12.22	Summary	245
13	Transportation	247
13.1	Introduction	247
13.2	Shipping Categories	247

13.3	Transport Modes	248
13.3.1	Road	248
13.3.2	Air	248
13.3.3	Rail	248
13.3.4	Water	249
13.3.5	Pipeline	249
13.4	Transport Vehicles	249
13.4.1	Trucks	249
13.4.2	Freight Trains	250
13.4.3	Barge	250
13.4.4	Aircraft	251
13.4.5	Modal Rating	251
13.4.6	Cargo Ships	252
13.5	Cargo Handling	252
13.5.1	Ports	253
13.5.2	Container Terminals	253
13.5.3	Shipping Containers	253
13.5.4	Forklift Trucks	254
13.5.5	Cranes	254
13.5.6	Pallets	255
13.5.7	Dunnage	255
13.6	Maritime Security	256
13.7	Dispatchers	256
13.8	Bill of Lading	257
13.9	Freight Bill	257
13.10	Freight Claims	257
13.11	Manifest	258
13.12	Full Truckload (FTL)	258
13.13	Less Than Truckload Shipping	258
13.14	Parcel Carriers	259
13.15	Carrier Rating	259
13.16	Bulk Cargo	259
13.17	Break Bulk Cargo	259
13.18	International Trading Terms	260
13.18.1	Freight on Board (FOB)	260
13.18.2	Carriage and Freight	261
13.18.3	Carriage, Insurance and Freight	261
13.18.4	Best Way	261
13.19	Summary	261
14	Reverse Logistics	263
14.1	Introduction	263
14.2	Revenue from Returned Products	264
14.3	Refurbishment	264
14.4	Remanufacturing	264

14.5	Redistribution	265
14.6	Donation	265
14.7	Discard	265
14.8	Remanufacturing in the Appliance Industry	265
14.8.1	Finished Good Item (FGI)	265
14.8.2	OEM and 3PP	266
14.8.3	Engineering Analysis	266
14.8.4	Receiving Cores	266
14.8.5	Core Inventory	266
14.8.6	Remanufactured Parts	267
14.8.7	Demand Forecasts	267
14.8.8	Lot Size	267
14.8.9	Schedule Production	267
14.8.10	Workstations	267
14.8.11	Refurbish	268
14.8.12	Disassembly	268
14.8.13	Assembly	268
14.8.14	Packaging	269
14.9	Remanufactured Part Inventory	269
14.9.1	Production Schedule	269
14.10	Remanufacturing in the Auto Industry	270
14.10.1	Rebuilt Engine Example	270
14.10.2	Planning	271
14.10.3	Master Production Schedule (MPS)	271
14.10.4	Material Requirement Planning (MRP)	271
14.10.5	Production	272
14.10.6	Disassembly (DSM)	272
14.10.7	Cleaning, Inspection and Machining	272
14.10.8	Assembly (ASM)	272
