

Contents

Part I Problem Posing and Solving Today

How Do Textbooks Incorporate Mathematical Problem Posing? An International Comparative Study	3
Jinfa Cai, Chunlian Jiang, Stephen Hwang, Bikai Nie, and Dianshun Hu	
Problem-Posing and Questioning: Two Tools to Help Solve Problems	23
José Carrillo and Jorge Cruz	
Affective Factors and Beliefs About Mathematics of Young Chilean Children: Understanding Cultural Characteristics.....	37
Valentina Giaconi, María Leonor Varas, Laura Tuohilampi, and Markku Hannula	
On the Role of Corporeality, Affect, and Metaphoring in Problem-Solving.....	53
Nicolás Libedinsky and Jorge Soto-Andrade	
Reformulating: Approaching Mathematical Problem Solving as Inquiry	69
Jeremy Kilpatrick	
Improving of Mathematical Problem-Solving: Some New IDEAS from Old Resources	83
Bernd Zimmermann	
Part 1 Reaction: Problem Posing and Solving Today	109
John Mason	

Part II Students, Problem Posing, and Problem Solving

Can Mathematical Problem Solving Be Taught? Preliminary Answers from 30 Years of Research.....	117
Frank K. Lester Jr. and Jinfa Cai	

Teaching Mathematical Problem Solving in Hungary for Students Who Have Average Ability in Mathematics	137
András Ambrus and Krisztina Barczy-Veres	
“Memorable Diagonals”: Exploratory Problems as Propositions for Doing Mathematics	157
Torsten Fritzlär	
Pupils’ Drawings as a Research Tool in Mathematical Problem-Solving Lessons.....	167
Erkki Pehkonen, Maija Ahtee, and Anu Laine	
The Use of Digital Technology to Frame and Foster Learners’ Problem-Solving Experiences	189
Manuel Santos-Trigo and Luis Moreno-Armella	
Proportional Word Problem Solving Through a Modeling Lens: A Half-Empty or Half-Full Glass?	209
Tine Degrande, Lieven Verschaffel, and Wim Van Dooren	
Conceptual Model-Based Problem Solving	231
Yan Ping Xin	
Reaction: Students, Problem Posing, and Problem Solving.....	255
Jeremy Kilpatrick	
Part III Teachers, Problem Posing, and Problem Solving	
When Is a Problem...? “When” Is Actually the Problem!.....	263
John Mason	
Novice Chilean Secondary Mathematics Teachers as Problem Solvers.....	287
Patricio Felmer and Josefa Perdomo-Díaz	
Infusing Mathematical Problem Solving in the Mathematics Curriculum: Replacement Units	309
Yew Hoong Leong, Eng Guan Tay, Tin Lam Toh, Khiok Seng Quek, Pee Choon Toh, and Jaguthsing Dindyal	
Mathematical Problem Posing: A Case of Elementary School Teachers Developing Tasks and Designing Instructions in Taiwan.....	327
Shuk-Kwan S. Leung	
Mathematical Problem Solving and Teacher Professional Learning: The Case of a Modified PISA Mathematics Task	345
Edward A. Silver	

Building Thinking Classrooms: Conditions for Problem-Solving	361
Peter Liljedahl	
Reaction: Teachers, Problem Posing and Problem-Solving	387
Kaye Stacey	
Index	393

Posing and Solving Mathematical Problems

Advances and New Perspectives

Felmer, P.; Pehkonen, E.; Kilpatrick, J. (Eds.)

2016, XI, 402 p. 99 illus., 66 illus. in color., Hardcover

ISBN: 978-3-319-28021-9
