

Contents

1	Introduction	1
1.1	Wastewater Treatment	1
1.2	Advanced Oxidation Processes	4
	References	5
2	Green Chemistry and Catalysis	7
2.1	Green Chemistry	7
2.2	General Considerations on Catalysts: Homogeneous versus Heterogeneous Catalysts	9
2.2.1	Homogeneous Catalysis	9
2.2.2	Heterogeneous Catalysis	9
2.2.3	Green Catalysts	10
2.3	Fundamentals in Catalyst Preparation	12
2.3.1	Basic Preparation Techniques for Bulk Catalysts and Supports	13
2.3.2	Basic Preparation Techniques for Supported Catalysts	15
2.4	Catalyst Characterization	17
	References	21
3	Advanced Oxidation Processes	23
3.1	General Process Principles	23
3.1.1	Classification of AOPs	24
3.1.2	Advantages and Disadvantages of AOPs	25
3.2	Catalysis in Advanced Oxidation Processes	25
3.2.1	Fenton Oxidation	26
3.2.2	Catalytic Wet Air Oxidation	28
3.2.3	Catalytic Ozonation	30
	References	32

4	Review on Catalysis in Advanced Oxidation Processes.	35
4.1	Nanotechnology in Green Catalysis in Advanced Oxidation Process.	35
4.2	Perovskite Type Catalysts in Advanced Oxidation Process	45
4.3	Greener Catalysts in Advanced Oxidation Process	47
	References	56
5	Concluding Remarks	59

Novel Catalysts in Advanced Oxidation of Organic
Pollutants

Atalay, S.; Ersöz, G.

2016, X, 60 p. 2 illus. in color., Softcover

ISBN: 978-3-319-28948-9
