Medical Monitoring and Information Extraction

SilverLink: Smart Home Health Monitoring for Senior Care	3
<i>Joshua Chuang, Lubaina Maimoon, Shuo Yu, Hongyi Zhu, Casper Nybroe, Owen Hsiao, Shu-Hsing Li, Hsinmin Lu, and Hsinchun Chen</i>	
Real-Time Models to Predict the Use of Vasopressors in Monitored Patients	15
<i>André Braga, Filipe Portela, Manuel Filipe Santos, António Abelha, José Machado, Álvaro Silva, and Fernando Rua</i>	
An Approach to Automate Health Monitoring in Compliance with Personal Privacy	26
<i>Nikolay Kazantsev, Daniil Korolev, Dmitry Torshin, and Anna Mikhailova</i>	
Mobile Cloud Computing as an Alternative for Monitoring Child Mental Disorders	31
<i>Shavely S. Pusey, Jorge E. Camargo, and Gloria M. Díaz</i>	
Network Analysis of Ecological Momentary Assessment Data for Monitoring and Understanding Eating Behavior	43
<i>Gerasimos Spanakis, Gerhard Weiss, Bastiaan Boh, and Anne Roefs</i>	
Chronic Disease Related Entity Extraction in Online Chinese Question and Answer Services	55
<i>Yan Zhang, Yong Zhang, Yanshen Yin, Jennifer Xu, Chunxiao Xing, and Hsinchun Chen</i>	
Sentiment Analysis on Chinese Health Forums: A Preliminary Study of Different Language Models	68
<i>Yan Zhang, Yong Zhang, Jennifer Xu, Chunxiao Xing, and Hsinchun Chen</i>	

Clinical and Medical Data Mining

Clustering Analysis on Patient-Physician Communication and Shared Decision-Making During Cancer Prognosis Discussion	85
<i>Yikang Li, Yuxuan Liu, Nan Kong, and Cleveland G. Shields</i>	

Need for a Specialized Metamodel for Biomedical and Health Informatics Domain	99
<i>Rishi Kanth Saripalle</i>	
Predicting Pre-triage Waiting Time in a Maternity Emergency Room Through Data Mining	105
<i>Sónia Pereira, Filipe Portela, Manuel F. Santos, José Machado, and António Abelha</i>	
A Game Theoretic Predictive Modeling Approach to Reduction of False Alarm	118
<i>Fatemeh Afghah, Abolfazl Razi, S.M. Reza Soroushmehr, Somayeh Molaei, Hamid Ghanbari, and Kayvan Najarian</i>	
Information Credibility: A Probabilistic Graphical Model for Identifying Credible Influenza Posts on Social Media.	131
<i>Qiaozhen Guo, Wei (Wayne) Huang, Kai Huang, and Xiao Liu</i>	
Arrhythmia Classification Using Biosignal Analysis and Machine Learning Techniques.	143
<i>Jesus E. Nivia, Yesika M. Ramírez, and Jorge E. Camargo</i>	
Health Data Analysis and Management	
Skin Resistance as a Physiological Indicator for Quadriplegics with Spinal Cord Injuries During Activities of Daily Living	157
<i>Shruthi Suresh, Han Duerstock, and Bradley Duerstock</i>	
Monitoring and Estimating Medication Abuse.	169
<i>Upkar Varshney</i>	
Real-Time Prediction of Blood Alcohol Content Using Smartwatch Sensor Data	175
<i>Mario A. Gutierrez, Michelle L. Fast, Anne H. Ngu, and Byron J. Gao</i>	
Time and Economic Burden of Comorbidities Among COPD Inpatients	187
<i>Jiaqi Liu, James Ma, Jiaojiao Wang, Daniel Zeng, Hongbin Song, Ligui Wang, and Zhidong Cao</i>	
How Price Affect Online Purchase Behavior in Online Healthcare Consulting? Perceived Quality as a Mediator	196
<i>Jianwei Liu and Qiang Ye</i>	
Stress Quantification Using a Wearable Device for Daily Feedback to Improve Stress Management.	204
<i>Jesus Garcia-Mancilla and Victor M. Gonzalez</i>	

Relationship Between Multiple Joint Movements Using Fitts Law	210
<i>Neeraj K. Gupta, Siva Dantu, and Arvind Nana</i>	

Big Data and Smart Health

Electronic Health Records and Patient Activation – Their Interactive Role in Medication Adherence	219
<i>Yunfeng Shi, Veronica Fuentes-Caceres, Megan McHugh, Jessica Greene, Nina Verevkina, Lawrence Casalino, and Stephen Shortell</i>	
Chronic Knowledge Retrieval and Smart Health Services Based on Big Data	231
<i>Ye Liang, Ningning Guo, Chunxiao Xing, Yong Zhang, and Chaoran Guo</i>	
When a Teen’s Stress Level Comes to the Top/Bottom: A Fuzzy Candlestick Line Based Approach on Micro-Blog	241
<i>Yiping Li, Zhuonan Feng, and Ling Feng</i>	
Linking Obesity and Tweets	254
<i>Mohd Anwar and Zhuoning Yuan</i>	
Social Dynamics of the Online Health Communities for Mental Health	267
<i>Ronghua Xu and Qingpeng Zhang</i>	
Impact of Flavor on Electronic Cigarette Marketing in Social Media	278
<i>Yunji Liang, Xiaolong Zheng, Daniel Dajun Zeng, and Xingshe Zhou</i>	
Health-Related Spammer Detection on Chinese Social Media	284
<i>Xinhuan Chen, Yong Zhang, Jennifer Xu, Chunxiao Xing, and Hsinchun Chen</i>	

Healthcare Intelligent Systems and Clinical Practice

DiabeticLink: An Internationally Collaborative Cyber-Enabled Patient Empowerment Platform	299
<i>Grace Samtani, Lubaina Maimoon, Joshua Chuang, Casper Nybroe, Xiao Liu, Uffe Wiil, Shu-Hsing Li, and Hsinchun Chen</i>	
MedC: A Literature Analysis System for Chinese Medicine Research	311
<i>Xin Li, Yu Tong, and Wen Wang</i>	
Design of a Mobile Application to Support Non-pharmacological Therapies for People with Alzheimer Disease	321
<i>Angie K. Reyes, Jorge E. Camargo, and Gloria M. Díaz</i>	

A Speech-Based Mobile App for Restaurant Order Recognition and Low-Burden Diet Tracking.	333
<i>Xiaochen Huang and Emmanuel Agu</i>	
DRSTI: A Workbench for Querying Retinal Image Data of Age-Related Macular Degeneration Patients	340
<i>Abhinav Parakh, Parvathi Chundi, and Mahadevan Subramaniam</i>	
Proposal to Handle the Interoperability of Clinical Information Systems Across Different Stakeholders.	351
<i>Alexandra López, Brayan S. Reyes Daza, and Octavio J. Salcedo Parra</i>	
Author Index	353

Smart Health

International Conference, ICSH 2015, Phoenix, AZ, USA,

November 17-18, 2015. Revised Selected Papers

Zheng, X.; Zeng, D.D.; Chen, H.; Leischow, S.J. (Eds.)

2016, XIV, 354 p. 107 illus. in color., Softcover

ISBN: 978-3-319-29174-1
