

Contents

Part I Global Warming and Climate Change: General Issues and Challenges

General Aspects of Global Warming, Current Policies and Challenges Policies and General Aspects of Global Warming with Focus on Specific Examples

- 1 Urban Development Policy and Urban Sprawl
in Turkey 5**
Münevver Özge Balta
- 2 Perspectives on the Implementation of Climate
Change Public Policies in Brazil 13**
Rommel de Santana Freire, Monica Carvalho,
Charles Ulises de Montreuil Carmona, and
Alexandre Magno Vieira Gonçalves de Brito
- 3 30 Years Air Temperature Data Analysis in Athens
and Thessaloniki, Greece 21**
T. Slini and K.T. Papakostas
- 4 Mitigation and Adaptation Policies Related to Climate
Change in Greece 35**
I. Sebos, A. Progiou, L. Kallinikos, P. Eleni, I. Katsavou,
K. Mangouta, and I. Ziomas
- 5 Assessing Air Quality in the Urban Environment:
the Gender Gap 51**
Theodora Slini and Fotini-Niovi Pavlidou

6	Promotion of Sustainability by Quantifying and Reducing the Carbon Footprint: New Practices for Organizations	61
	Monica Carvalho, Rommel de Santana Freire, and Alexandre Magno Vieira Gonçalves de Brito	
Part II Global Warming and Climate Change: General Issues and Challenges		
Climate Change Mitigation Measures and Prospects		
7	Group Comparison, Trends and Cluster Analysis to Understand Historical Precipitation	77
	Raphael Abrahão	
8	Ground Response to Global Warming	89
	Mohamad Kharseh and Mohammed Al-Khawaja	
9	Specific Case: Regional Estimates of Global Climate Change: A Dynamical Downscaling Approach to Southeast Europe	99
	Rafaella-Eleni P. Sotiropoulou, Efthimios Tagaris, Andreas Sotiropoulos, Ioannis Spanos, Panagiotis Milonas, and Antonios Michaelakis	
Part III Global Warming and Climate Change: General Issues and Challenges		
Climate Change Observatory		
10	Drought Conditions in Turkey Between 2004 and 2013 Via Drought Indices Derived from Remotely Sensed Data	113
	Nazila Molavizadeh, Elif Sertel, and Hande Demirel	
11	Carbon Foot Print of a Passanger Aircraft Engine at Landing and Take-Off Cycle	123
	Yasin Şöhret and T. Hikmet Karakoç	
12	Greenhouse Gas Emissions Trends from Waste in Greece	131
	L. Kallinikos, I. Sebos, A. Progiou, P. Eleni, I. Katsavou, K. Mangouta, and I. Ziomas	
Part IV Global Warming and Climate Change: General Issues and Challenges		
Climate Prediction Tools		
13	Development of Models for the Estimation of Global Solar Radiation Over Selected Stations in India	149
	M. Maroof Khan, M. Jamil Ahmad, and Basharat Jamil	

14	Effect of Gap Between Absorber Plate and Condenser Cover on the Performance of a Solar Still	161
	Basharat Jamil and Naiem Akhtar	
15	Solar Assisted Organic Rankine Cycle for Power Generation: A Comparative Analysis for Natural Working Fluids	175
	Önder Kizilkan, Sandro Nizetić, and Gamze Yildirim	
16	Rainfall Trend Analysis in the Region of Curitiba Using Regional Climate Model Scenarios	193
	Robinson Ploszai and Miriam Rita Moro Mine	
17	Modelling of Wind Speed Using Artificial Neural Networks for University Campus of Burdur (Turkey)	209
	Alper Kerem, Önder Kizilkan, and Serdar Salman	
18	Cultural Landscapes as a Means of Energy Reduction at Global Warming	223
	Afroditi Venetsanou, Alexandros-Theodoros Venetsanos, and Lena Mantziou	
Part V Energy Technologies and Their Effect on Global Warming		
Solar Energy		
19	Solar-Driven Continuous Methane Reforming Reactor	249
	M. Lange, J. Lapp, R. Rieping, L. de Oliveira, M. Roeb, and C. Sattler	
20	Specific Applications/Examples: Use of Solar Energy in Fishing: Community Initiatives	257
	J. Vincent Jain and Satish Babu	
21	Diagnostic of Sensors for Induction Machine Powered by Photovoltaic Generator Based on Fuzzy Logic Techniques	269
	A. Amrane, A. Larabi, and A. Hamzaoui	
22	Air Conditioning Based on Hydroxides with Solar Driving for Low GHG Emissions	285
	R.J. Romero, S. Silva-Sotelo, Y.R. Galindo-Luna, C.V. Valdéz-Morales, J. Ibarra-Bahena, A. Hdz-Jasso, and A. Rodríguez-Martínez	
23	Life Cycle Analysis as a Decision Criterion for the Implementation of Solar Photovoltaic Panels in as Northeast Brazil Hospital	295
	Monica Carvalho, Danielle Bandeira de Mello Delgado, and Ricardo Chacartegui	

Part VI Energy Technologies and Their Effect on Global Warming

Green Buildings Technology

- 24 Energy Conservation Through Sunrays Reflecting Coating
on Buildings 315**
Imre Benkő
- 25 Comparison of Heating and Cooling Loads of a Typical
Building with TRNSYS and eQUEST 327**
E. Bellos, C. Tzivanidis, A. Kouvari, and K.A. Antonopoulos
- 26 Optimum Insulation Thickness for Cooling Applications
Through Exergy Analysis and Environmental Methods 339**
Beyza Nur Daldal, İbrahim Sarioğlu, Gülcan Özel Erol,
Emin Açıkkalp, and Hasan Yamık
- 27 Novel Tungsten Bronze Nanoparticles for Shielding
Near Infrared Ray and Decreasing CO₂ Emission 349**
Tsugio Sato, Chong-shen Guo, and Shu Yin
- 28 Modelling of a Solar Assisted Floor Heating System
with TRNSYS 355**
E. Bellos, C. Tzivanidis, A. Prassas, and K.A. Antonopoulos

Part VII Energy Technologies and Their Effect on Global Warming

Bioenergy–Biofuel Technologies

- 29 Biogas Production from Napier Grass at Various
Cutting Intervals 375**
Nusara Sinbuahong, Yuwadee Sangsil, and Suriya Sawanon
- 30 Sustainability Assessment of Fuels Production
via Hydrotreating Waste Lipids and Co-processing
Waste Lipids with Petroleum Fractions 387**
Stella Bezergianni and Loukia P. Chrysikou

Part VIII Energy Technologies and Their Effect on Global Warming

Hydrogen Energy and Technologies

- 31 Spark-Ignition Engine Fueled with Methane-Hydrogen
Blends 405**
G.M. Kosmadakis, F. Moreno, J. Arroyo, M. Muñoz,
and C.D. Rakopoulos

32	Hydrogen Fueled Airplanes, Test Case: Aviation in Libya	421
	Satya P. Bindra, Ali Alwafi, Ashour Saasi, Elbahlul Musa Abogrean, Mohsen Masaud A. Maatugh, and Khaled Khalifa	
33	Perspectives of Hydrogen Automotive Applications in Croatia	433
	Ankica Đukić, Ivan Güttler, and Robert Pašičko	
Part IX Energy Technologies and Their Effect on Global Warming		
Fossil Fuels and Climate Change		
34	Contribution to Multi-Criteria Evaluation of the Impacts of Air Pollution: Case of Cement Plant (Ain Touta-ALGERIA)	451
	Lylia Bahmed, Samia Daas, Mourad Chebila, and Loubna Khadoudja Aggabou	
35	Environmental Impact Assessment of Electricity Production, A Case Study of Turkey	463
	Fatih Yılmaz, M. Tolga Balta, Reşat Selbaş, and Doğan Demiral	
36	Hybridization of Parabolic Trough Power Plants with Natural Gas Through Integration of Industrial Gas Turbines	475
	Tobias Vogel, Gerd Oeljeklaus, and Klaus Görner	
Part X Energy Technologies and Their Effect on Global Warming		
Thermodynamic System Analysis and Optimization		
37	Performance Analyses of CO₂-N₂O Cascade System for Cooling	499
	Fatih Yılmaz, Reşat Selbaş, Arif Emre Özgür, and M. Tolga Balta	
38	Comparison of Thermal Repowering Alternatives for Thermal Power Plants	513
	M. Zeki Yilmazoglu	
39	Experimental Study of Heat Transfer for a Non-Newtonian Fluid in a Heated Cylindrical Pipe	527
	Mounir Mellal, Hacina Abchiche, and Sabrina Ait Ouazzou	
40	The SOC Estimation of LCO Battery Based on BP Neural Network	543
	Sy-Ruen Huang, Yen-Huai Ma, Jheng-Shyun Li, and Jun-Han Chan	

41 Investigating the Effect of Different Refrigerants on the Performance of a Supercritical Organic Rankine Cycle	553
Duygu Melek Çakıcı and Can Özgür Çolpan	
Part XI Environmental Technologies Related to Global Warming	
Carbon Capture and Storage (CCS) and Geotechnology Issues	
42 CaO-Based Sorbents for Post Combustion CO₂ Capture via Carbonate Looping	571
Zinovia Skoufa, Andy Antzara, Ioannis Milios, Eleni Heracleous, and Angeliki A. Lemonidou	
43 Kinetics of CO₂ Capture by Carbon Dioxide Binding Organic Liquids	591
Ozge Yuksel Orhan, Hakan Kayi, and Erdogan Alper	
44 Flue Gas CO₂ Sequestration by Turkish Coal Fly Ashes and Anatolian Geothermal Hot Waters	605
Yıldırım İsmail Tosun	
45 Geo.: Gas Production in Offshore Reservoirs in Brazil's Pre-salt Region	617
Isabella Vaz Leal da Costa, Pedro Rochedo, Mariana Império, Alexandre Salem Szklo, and Roberto Schaeffer	
Part XII Environmental Technologies Related to Global Warming	
Water Resources and Management Issues	
46 Spatial and Temporal Patterns of the Water Quality in the Hammam Boughrara Reservoir in Algeria	635
Belkheir DJELITA, Souaad Bouzid-Lagha, and Kheira Camellia NEHAR	
47 Natural Tracers for Identifying Causes of the Quality Reduction in Groundwater Emerging Along the Aegean Volcanic Arc (Greece)	655
E. Dotsika and P. Chantzi	
48 Experimental Study of Longitudinal Dispersion on Trapezoidal Open Channel	667
Ali Mansour Lagoun and Salim Benziada	

49	Mygdonia Basin (N. Greece) in the View of Isotope Geochemistry	677
	P. Chantzi and E. Dotsika	
50	Sustainable Management of Sewage Sludge Conditioning and Valorization	685
	S. Igoud, F. Souahi, and C.-E. Chitour	
51	Photocatalytic Degradation of Tylosin and Spiramycin in Water by Using TiO₂ and ZnO Catalysts Under UV Radiation	695
	D. Tassalit, N. Chekir, O. Benhabiles, F. Bentahar, and N.A. Laoufi	
52	Comparison Between the Photocatalytic Degradation of a Textile Dye Under Sun Light and Artificial Irradiation	707
	N. Sahraoui, N. Chekir, and D. Tassalit	
53	Vulnerability and Impact of Climate Change Processes on Water Resource in Semi-Arid Areas: In Essaouira Basin (Morocco)	719
	Salah Ouhamdouch, Mohammed Bahir, Abdellatif Souhel, and Carreira Paula	
 Part XIII Environmental Technologies Related to Global Warming		
Waste Management		
54	Experimental Study of Transverse Mixing of Pollutants in Trapezoidal Open Channel	741
	Ali Mansour Lagoun and Salim Benziada	
55	Elimination of Micropollutant Lysine Acetylsalicylate by Adsorption on Natural and Synthetical Supports	755
	Amel Djouadi and Fatiha Bentahar	
56	Integrated System for Optimized Data Collection and processing of End of Life Tires: Case of Greece	759
	Panagiotis Vounatsos, John Vournas, George Mavrias, and Panagiotis Grammelis	
57	Smart Recovery of Materials and Upgrade of Organic Compost and RDF in Existing Mechanical Biological Treatment Plants by Using NIR Technology	771
	Dimitrios-Sotirios Kourkoumpas, Georgios Kontopoulos, Ioannis Vournas, Dimitrios Koulocheris, Panagiotis Grammelis, and Emmanouel Kakaras	

Part XIV Securing Sustainable Mobility to Mitigate Climate Change

Transport Operation and Resilience Issues

- 58 Road Transport Induced GHG Emissions Calculation for Urban Transportation Networks: The Case of Athens and Thessaloniki in Greece 783**
Christos Samaras, Iraklis Stamos, Leonidas Ntziachristos, Evangelos Mitsakis, Zissis Samaras, and Georgia Ayfantopoulou
- 59 The Effect of Parameter Selection on Fume Formation Rate in SMAW of AH36 Shipbuilding Steel and Analysis with ANOVA Method 795**
Tolga Mert, Levent Bilgili, Kutsi Mert Senoz, Uğur Buğra Çelebi, and Serkan Ekinci
- 60 An Online Visualization Tool for Assessing the Robustness of Multimodal Transport Networks in Case of Extreme Weather Events and Natural Hazards 803**
Iraklis Stamos, Evangelos Mitsakis, and Georgia Aifadopoulou

Part XV Securing Sustainable Mobility to Mitigate Climate Change

Climate Impact Effects of Air and Maritime Transport

- 61 Manmade Changes in Cirrus Clouds from 1984 to 2007: A Preliminary Study 827**
Kostas Eleftheratos, Gunnar Myhre, Patrick Minnis, Ioannis Kapsomenakis, and Christos Zerefos
- 62 Emission Routing in Maritime Transportation 837**
Levent Bilgili and Ugur Bugra Celebi
- 63 Pollution Effects Onboard and Its Generated Solution for Minimized Pollution Effect 851**
Munir Suner and Tankut Yildiz
- 64 Carbon-Mitigating Air Transport: Analysis of Current Policy Instruments 867**
Ioanna Pagoni and Voula Psaraki-Kalouptsidi
- 65 Ship Life Cycle Greenhouse Gas Emissions 883**
Stefanos Chatzinikolaou, Nikolaos Ventikos, Levent Bilgili, and Ugur Bugra Celebi
