

# Contents

## Part I Text Processing

|   |           |
|---|-----------|
| <b>Automatic Sentiment Analysis in Polish Language . . . . .</b>                                  | <b>3</b>  |
| Antoni Sobkowicz  |           |
| <b>Learning Curve with Machine Translation Based on Parallel,<br/>Bilingual Corpora . . . . .</b> | <b>11</b> |
| Maciej Kowalski   |           |
| <b>N-Gram Collection from a Large-Scale Corpus of Polish Internet . . . . .</b>                   | <b>23</b> |
| Szymon Roziewski, Wojciech Stokowiec and Antoni Sobkowicz   |           |
| <b>Study Fields Clustering Using KRK Competences. . . . .</b>                                     | <b>35</b> |
| Marek Kozłowski   |           |
| <b>Semantic Textual Similarity Using Various Approaches . . . . .</b>                             | <b>49</b> |
| Maciej Kazuła and Marek Kozłowski   |           |

## Part II Data Mining

|  |           |
|--|-----------|
| <b>Identification of Diabetes Disease Using Committees of Neural<br/>Network-Based Classifiers . . . . .</b> | <b>65</b> |
| Ali Hassan El-Baz, Aboul Ella Hassanien and Gerald Schaefer  |           |
| <b>Enzyme Function Classification Based on Borda Count Ranking<br/>Aggregation Method . . . . .</b>          | <b>75</b> |
| Mahir M. Sharif, Alaa Tharwat, Aboul Ella Hassanien,<br>Hesham A. Hefny and Gerald Schaefer                  |           |
| <b>Mining of Frequent Action Rules . . . . .</b>   | <b>87</b> |
| Agnieszka Dardzinska and Anna Romaniuk   |           |

### **Part III Text and Multimedia Processing**

|  |            |
|--|------------|
| <b>Automatic Translation of Multi-word Labels . . . . .</b>                  | <b>99</b>  |
| Grzegorz Protaziuk, Marcin Kaczyński and Robert Bembenik                     |            |
| <b>VTLN Using Different Warping Functions for Template Matching . . . .</b>  | <b>111</b> |
| Maulik C. Madhavi, Shubham Sharma and Hemant A. Patil                        |            |
| <b>A Comparative Study on Music Genre Classification Algorithms. . . . .</b> | <b>123</b> |
| Wojciech Stokowiec   |            |

### **Part IV Software**

|  |            |
|--|------------|
| <b>Information Selection and Data Compression RapidMiner Library . . . .</b>             | <b>135</b> |
| Marcin Blachnik and Mirosław Kordos  |            |
| <b>Automatic Clustering Methods of Offers in an E-Commerce Marketplace . . . . .</b>     | <b>147</b> |
| Anna Wroblewska, Bartłomiej Twardowski, Paweł Zawistowski and Dominik Ryżko              |            |
| <b>Application of Machine Learning Algorithms for Bitcoin Automated Trading. . . . .</b> | <b>161</b> |
| Kamil Żbikowski  |            |

### **Part V Complex Systems, Internet of Things and Agent Systems**

|  |            |
|--|------------|
| <b>Maximal Discernibility Discretization of Attributes—A FPGA Approach . . . . .</b>             | <b>171</b> |
| Maciej Kopczyński, Tomasz Grzes and Jarosław Stepaniuk   |            |
| <b>Big Data Solutions for Smart Grids and Smart Meters . . . . .</b>                             | <b>181</b> |
| Joanna Konopko   |            |
| <b>Intelligent System of Limited Resource Allocation for Large-Scale Agent Systems . . . . .</b> | <b>201</b> |
| Jakub Weclawski and Stanisław Jankowski  |            |
| <b>Searching for Logical Patterns in Multi-sensor Data from the Industrial Internet. . . . .</b> | <b>217</b> |
| Mohit Yadav, Ehtesham Hassan, Gautam Shroff, Puneet Agarwal and Ashwin Srinivasan                |            |
| <b>Author Index . . . . .</b>  | <b>235</b> |

Machine Intelligence and Big Data in Industry

Ryżko, D.; Gawrysiak, P.; Kryszkiewicz, M.; Rybiński, H.  
(Eds.)

2016, VIII, 236 p. 62 illus., 39 illus. in color., Hardcover

ISBN: 978-3-319-30314-7
