

# Contents

<b>1</b>	<b>Introduction</b>	1
1.1	Colloidal Suspensions	1
1.2	Scope of the Book	3
1.3	On the Structure and Thinking of This Book	4
	References	5
<b>2</b>	<b>Characterisation of Colloidal Suspensions</b>	7
2.1	Particle Size Distribution	8
2.2	Particle Sizing	10
2.3	Selected Characterisation Techniques	14
2.3.1	Ultramicroscopy	14
2.3.2	Imaging Methods	17
2.3.3	Fractionating Sizing Techniques	18
2.3.4	Static Scattering Techniques	28
2.3.5	Dynamic Scattering	37
2.3.6	Further Spectroscopic Techniques	45
2.3.7	Zeta-Potential and Interfacial Properties	51
2.3.8	Final Remarks on Particle Sizing	55
	References	58
<b>3</b>	<b>Fundamentals in Colloid Science</b>	75
3.1	Physico-Chemical Properties of Colloids and Interfaces	76
3.1.1	Scattering in Colloidal Suspensions	76
3.1.2	Particle Diffusion and the Sedimentation-Diffusion Equilibrium	78
3.1.3	Interfacial Energy	79
3.1.4	Influence of the Interfacial Energy on the Bulk Properties of Fine Particles	80
3.1.5	Electric Double Layer	81
3.1.6	Interaction of Charged Surfaces with Ions and Molecules	88
3.1.7	Surface Dissolution	93

3.2	Interactions Between Colloidal Particles . . . . .	96
3.2.1	Van-der-Waals Interaction . . . . .	97
3.2.2	Double Layer Interaction . . . . .	98
3.2.3	DLVO-Theory . . . . .	102
3.2.4	Non-DLVO Interactions . . . . .	104
	References . . . . .	108
<b>4</b>	<b>Suspensions of Colloidal Aggregates . . . . .</b>	<b>119</b>
4.1	Aggregation Mechanisms and Kinetics . . . . .	120
4.1.1	Origin of Aggregation . . . . .	121
4.1.2	Aggregation Kinetics . . . . .	122
4.1.3	Conceptual Aggregation Mechanisms . . . . .	124
4.2	Structure of Colloidal Aggregates . . . . .	126
4.2.1	Concept of Fractality . . . . .	126
4.2.2	Morphological Parameters of Fractal Aggregates . . . . .	128
4.2.3	Fractal Dimension of Aggregates . . . . .	137
4.3	Scattering on Aggregates . . . . .	143
4.3.1	Scattering on Aggregates in the Rayleigh-Debye-Gans Limit . . . . .	144
4.3.2	Light Scattering on Aggregates with Intracuster Multiple Scattering . . . . .	148
4.3.3	Scattering on Polydisperse Aggregate Populations . . . . .	154
4.4	Hydrodynamic Properties of Aggregates . . . . .	157
4.4.1	Diffusion and Settling of Aggregates . . . . .	158
4.4.2	Calculation of the Hydrodynamic Drag on Aggregates . . . . .	162
4.4.3	Hydrodynamic Drag on Fractal Aggregates . . . . .	170
4.5	Characterisation of Suspensions of Pyrogenic Powders . . . . .	174
4.5.1	Characterisation of Pyrogenic Aggregates with Static Scattering Techniques . . . . .	176
4.5.2	Characterisation of Pyrogenic Aggregates with Multi-angle DLS . . . . .	180
4.5.3	Sizing of Pyrogenic Aggregates with Optical Centrifugation and DLS . . . . .	187
4.6	Interaction Forces Between Aggregates . . . . .	195
4.6.1	Van-der-Waals Interaction Between Two Aggregates . . . . .	196
4.6.2	Double Layer Interaction Between Two Aggregates . . . . .	201
	References . . . . .	210
<b>5</b>	<b>Dispersion of Colloidal Suspensions and Their Stability . . . . .</b>	<b>221</b>
5.1	Dispersion of Colloidal Suspensions . . . . .	222
5.1.1	Introduction to the Dispersion of Colloidal Suspensions . . . . .	222
5.1.2	Mechanisms of Deagglomeration in Viscous Media . . . . .	225
5.1.3	Dispersion Techniques . . . . .	230

5.1.4	Comparison of Dispersion Procedures . . . . .	237
5.1.5	Characterising the Progress of Dispersion . . . . .	243
5.2	Stability of Colloidal Suspensions . . . . .	249
5.2.1	Microscopic Stability . . . . .	250
5.2.2	Criteria for Microscopic Stability. . . . .	250
5.2.3	Stability Ratio. . . . .	253
5.2.4	Experimental Evaluation of Suspension Stability . . . . .	255
5.2.5	Stability Measurement—Aspects of Data Interpretation. . . . .	263
5.2.6	Stability of Binary Suspensions. . . . .	268
	References . . . . .	275
<b>6</b>	<b>Summary and Conclusion . . . . .</b>	<b>285</b>
6.1	Main Ideas . . . . .	285
6.2	Summary of the Book . . . . .	286
6.3	Final Remarks. . . . .	287
	<b>Appendix A: Glossary . . . . .</b>	<b>289</b>
	<b>Appendix B: Physical Basics . . . . .</b>	<b>301</b>
	<b>Appendix C: Mathematical Basics . . . . .</b>	<b>327</b>

Suspensions of Colloidal Particles and Aggregates

Babick, F.

2016, XXI, 341 p. 96 illus., 24 illus. in color., Hardcover

ISBN: 978-3-319-30661-2
