Part I Parameters of Study

1 Landscape Evolution as Natural–Cultural History	3
Evolution of an Inhabited Landscape.....	7
The Marianas Landscape as a Model System.....	10
Structure and Content of This Book	11
References.....	12
2 Global Applicability of Landscape Evolution	13
Coastal China	14
California	23
Hawaiian Islands	28
Mariana Islands	36
References.....	36
3 Environmental Setting and Dynamics.....	41
Geological Structure	42
Sea-Level History	44
Coastal Geomorphology	48
Slope Erosion–Deposition Patterns.....	51
Soil Formation	53
Plant and Animal Communities	56
Climate and Weather.....	59
Water Sources	62
References.....	65
4 Marianas Archaeology in Local and Regional Perspectives	69
Marianas Settlement in Asia-Pacific Context	69
Foundations of Chamorro Heritage	74
References.....	78

5	Coordinating Perspectives of the Past	83
	Historical Perspectives	85
	Linguistics.....	89
	Human Biology and Genetics	94
	Faunal Records.....	96
	Botanical Records	99
	References.....	102
6	Range of Archaeological Material Culture	107
	Artefacts.....	108
	Midden	113
	Structural Features	113
	Rock Art.....	114
	Caves.....	116
	Landscapes	118
	References.....	119
 Part II Chronological Sequence		
7	Building an Archaeological Chronology	123
	Use of Radiocarbon Dating.....	126
	Marianas Chronological Outline.....	129
	References.....	131
8	1500–1100 B.C., Initial Settlement	133
	Site Inventory and Dating	133
	Landforms	138
	Resource Zones	140
	Material Culture	146
	Regional Context.....	159
	References.....	165
9	1100–700 B.C., Changing Coastlines	169
	Site Inventory and Dating	169
	Landforms	171
	Resource Zones	173
	Material Culture	174
	Regional Context.....	177
	References.....	181
10	700 B.C.–A.D. 1, Broadened Horizons	183
	Site Inventory and Dating	183
	Landforms	186
	Resource Zones	188
	Material Culture	189
	Regional Context.....	194
	References.....	196

11	A.D. 1–500, Temporary Stability	199
	Site Inventory and Dating	199
	Landforms	201
	Resource Zones	203
	Material Culture	204
	Regional Context.....	208
	References.....	209
12	A.D. 500–1000, Sustained Use of Coastal and Inland Zones.....	211
	Site Inventory and Dating	211
	Landforms	213
	Resource Zones	214
	Material Culture	214
	Regional Context.....	217
	References.....	218
13	A.D. 1000–1700, A Sea of Islands and Monuments.....	221
	Site Inventory and Dating	221
	Landforms	228
	Resource Zones	229
	Material Culture	233
	Regional Context.....	250
	References.....	253
14	A.D. 1700–Present, Living with Colonialism and Globalisation.....	259
	Site Inventory and Dating	260
	Landforms	261
	Resource Zones	264
	Material Culture	265
	Regional Context.....	265
	References.....	266

Part III Pursuing Research Questions

15	First Inhabiting of a Landscape.....	269
	Human Migration into a New Landscape	270
	Initial Inhabiting of a Landscape	276
	Origins of Landscape Evolution	279
	References.....	283
16	Long-Term Human–Environment Relations.....	287
	Geology and Landforms	288
	Climate	290
	Sea Level and Coastal Ecology.....	290
	Water Sources	291
	Plant and Animal Populations.....	292
	Patterns of Residence and Resource Use	293

Material Culture 294

Continuity and Change 295

References 297

17 Future Directions 299

Index 303

Archaeological Landscape Evolution
The Mariana Islands in the Asia-Pacific Region
Carson, M.T.
2016, XIII, 307 p. 113 illus., Hardcover
ISBN: 978-3-319-31399-3
