1	Introduction	1
1.1	Background	1
1.2	Methods	18
1.2.1	Theoretical Basis	18
1.2.2	A “Realist” Review of Evidence	20
1.2.3	Data Collection	21
1.2.4	Data Analysis	23
	References	25
 Part I Why: Rationale for Taxing Sugar-Sweetened Beverages		
2	Reasons for Specifically Targeting Sugar-Sweetened Beverages	35
2.1	Definition of a Sugar-Sweetened Beverage (SSB)	35
2.2	SSB and Health Risks	38
2.3	SSB Marketing and Sales Trends	41
2.4	SSB Consumption Trends	46
2.5	Additional Considerations on Other Non-alcoholic Beverages	50
	References	51
3	Sugar-Sweetened Beverage Taxation as a Public Health Policy Instrument	59
3.1	Taxing Sugar-Sweetened Beverages (SSBs) as Part of a Comprehensive Strategy	59
3.1.1	International Evidence	60
3.1.2	The Canadian Situation	61
3.2	SSB, An Affordable Choice	64
3.3	Learning from Tobacco Taxation	64
3.4	Taxation, A Highly Cost-Effective and Potentially Cost-Saving Option	66
	References	67

4	Sugar-Sweetened Beverage Taxation Logics and Ethical Concerns	75
4.1	Clarifying Sugar-Sweetened Beverage (SSB) Taxation Logics	75
4.2	Debates About the Normative Justification of SSB Taxes	77
4.3	Ethical Concerns Surrounding Freedom of Choice and Autonomy	79
	References	81
 Part II What: Impact of Taxing Sugar-Sweetened Beverages		
5	Effects of Taxation on Sugar-Sweetened Beverage Prices	85
5.1	Factors That May Impair Sugar-Sweetened Beverage (SSB) Tax Shift onto Prices	85
5.2	Preliminary Evidence from Taxes Implemented Across the World.	87
5.3	Additional Proposals to Secure the Pass-Through	92
	References	92
6	Effects of Taxation on Sugar-Sweetened Beverage Demand	95
6.1	Findings from Experimental Studies	96
6.2	Factors that May Impair Tax Effects on Demand in the “Real World”	97
6.3	“Real-World” Price Elasticity of SSB Demand	99
6.4	Preliminary Evidence from Taxes Implemented Across the World.	101
	References	104
7	Effects of Sugar-Sweetened Beverage Taxation on Energy Intakes and Population Health	109
7.1	Overview of Substitution Concerns	109
7.2	Results from Simulations	111
7.2.1	Individual-Oriented Simulations	111
7.2.2	Population-Oriented Simulations	113
7.2.3	Limitations	114
7.3	Preliminary Evidence from Taxes Implemented Across the World.	115
7.3.1	Substitution Towards Untaxed Beverages	115
7.3.2	Substitution Towards Taxed Beverages Sold at a Lower Price.	116
7.4	Results from Systematic Reviews.	117
7.5	Concluding Comments	118
	References	119

8	Distribution of Sugar-Sweetened Beverage Taxation Effects in the Population	121
8.1	Introduction.	121
8.2	Would a SSB Tax Impose a Larger Financial Burden on Lower-Income Households?	123
8.3	Would a SSB Tax Bring Larger Health Benefits to Lower-income Households?.	124
8.4	Could Equity Concerns Be Mitigated?	125
8.5	Would a SSB Tax Be Effective Towards Heavy SSB Consumers?.	126
	References	127
9	Potential Undesirable Effects Related to Sugar-Sweetened Beverage Taxation	131
9.1	Tax-Related Administration Costs	132
9.2	Tax Impact on Profitability	132
9.3	Tax Impact on Employment	133
9.4	Tax Impact on Investments	136
9.5	Tax Impact on Competitiveness	136
9.6	Tax Impact on Cross-border Trade and Smuggling	137
	References	139
10	Raising Revenues from Sugar-Sweetened Beverage Taxation	141
10.1	Introduction.	141
10.2	Justifying the Fiscal Focus on SSBs.	142
10.3	Revenues Potentially Raised from SSB Taxation	143
10.4	Refuting Apparent Antagonism Between Fiscal and Behavioural Logics	144
10.5	Weighing Fiscal Revenues Against Other Potential Economic Losses	145
10.6	Earmarking SSB Tax Revenues for Health Promotion.	146
	References	148
11	Potential “Signal” Effects from Sugar-Sweetened Beverage Taxation	151
11.1	An “Alarm Signal” to the Population	151
11.2	A “Coercive Signal” to Manufacturers	154
11.3	Arguments for a Comprehensive “denormalization” Strategy	156
11.4	The Complex Evaluation of Signal Effects	157
	References	158

Part III How: Applicability of Sugar-Sweetened Beverage Taxation

12 Feasibility of Sugar-Sweetened Beverage Taxation in Canada	163
12.1 Introduction.	163
12.2 Public Health and Taxation Prerogatives in Canada's Political System.	166
12.3 Tax Types.	169
12.3.1 Modulation of Sales Taxes	169
12.3.2 Increase or Introduction of an Excise Tax	174
12.3.3 Creation of a Special Tax	176
12.3.4 Other Options	178
12.3.5 Summary	180
12.4 Considerations on SSB Taxation Scope, Rate and Base	181
12.4.1 SSB Taxation Scope.	181
12.4.2 SSB Taxation Rate.	181
12.4.3 SSB Taxation Base	182
12.5 Feasibility to Earmark SSB Tax Revenues for Health-Related Causes.	183
12.5.1 General Considerations	183
12.5.2 Learning from the Tobacco Case	184
12.5.3 The Canadian Situation.	185
References	187
13 Social and Political Acceptability of Sugar-Sweetened Beverage Taxation	193
13.1 International Perspective	194
13.2 Canadian Experts.	198
13.3 Canadian Civil Society	200
13.4 Canadian Elected Representatives.	201
13.5 Canadian Public Opinion	202
13.6 Importance to Consider Jointly Public Health and Budgetary Rationales	203
References	206
14 Evaluability of Sugar-Sweetened Beverage Taxation	213
14.1 Importance of Sugar-Sweetened Beverage (SSB) Taxation Evaluation	213
14.2 Evaluation of a Price-Induced Behavioural Logic.	214
14.3 Evaluation of a Fiscal Logic	217
14.4 Evaluation of a Signal-Induced Denormalization Logic.	218
14.5 The Challenge of Economic Evaluations	218
References	219

Part IV Conclusion

15 Conclusion 225
