

Contents

1	Rank-Based Analysis of Linear Models and Beyond: A Review	1
	Joseph W. McKean and Thomas P. Hettmansperger	
2	Robust Signed-Rank Variable Selection in Linear Regression	25
	Asheber Abebe and Huybrechts F. Bindele	
3	Generalized Rank-Based Estimates for Linear Models with Cluster Correlated Data	47
	John Kloeke	
4	Iterated Reweighted Rank-Based Estimates for GEE Models	61
	Asheber Abebe, Joseph W. McKean, John D. Kloeke, and Yusuf K. Bilgic	
5	On the Asymptotic Distribution of a Weighted Least Absolute Deviation Estimate for a Bifurcating Autoregressive Process	81
	Jeff T. Terpstra	
6	Applications of Robust Regression to “Big” Data Problems	101
	Simon J. Sheather	
7	Rank-Based Inference for Multivariate Data in Factorial Designs ...	121
	Arne C. Bathke and Solomon W. Harrar	
8	Two-Sample Rank-Sum Test for Order Restricted Randomized Designs	141
	Yiping Sun and Omer Ozturk	
9	On a Partially Sequential Ranked Set Sampling Paradigm	163
	Douglas A. Wolfe	
10	A New Scale-Invariant Nonparametric Test for Two-Sample Bivariate Location Problem with Application	175
	Sunil Mathur, Deepak M. Sakate, and Sujay Datta	

11	Influence Functions and Efficiencies of k-Step Hettmansperger–Randles Estimators for Multivariate Location and Regression	189
	Sara Taskinen and Hannu Oja	
12	New Nonparametric Tests for Comparing Multivariate Scales Using Data Depth	209
	Jun Li and Regina Y. Liu	
13	Multivariate Autoregressive Time Series Using Schweppe Weighted Wilcoxon Estimates	227
	Jaime Burgos and Jeff T. Terpstra	
14	Median Stable Distributions	249
	Gib Bassett	
15	Confidence Intervals for Mean Difference Between Two Delta-Distributions	261
	Karen V. Rosales and Joshua D. Naranjo	
	Author Index	273
	Subject Index	275

Robust Rank-Based and Nonparametric Methods
Michigan, USA, April 2015: Selected, Revised, and
Extended Contributions

Liu, R.; McKean, J.W. (Eds.)

2016, XIV, 277 p. 31 illus., 6 illus. in color., Hardcover

ISBN: 978-3-319-39063-5
