## Part I Historical and Constructive Aspects

|  |     |
|--|-----|
| <b>Cooperating Timber and Stone Antiseismic Frames in Historic Structures of Greece</b> . . . . .  | 3   |
| Panos Touliatos  |     |
| <b>The Role of a Post-Byzantine Timber Roof Structure in the Seismic Behavior of a Masonry Building—The Case of a Unique Type of Timber-Roofed Basilicas in Cyprus (15th–19th Century)</b> . . . . . | 17  |
| Marios Pelekanos   |     |
| <b>Historic Earthquake-Resistant Constructive Techniques Reinforced by Wooden Logs in Algeria</b> . . . . .  | 33  |
| Amina Abdessemed-Foufa   |     |
| <b>A Comparative Evaluation of the Results of Two Earthquakes: Istanbul and Lisbon Earthquake in 18th Century</b> . . . . .  | 47  |
| Şevket Erşan   |     |
| <b>Some Examples of Turkish Houses with Wooden Frame in the Seismic Zone Anatolia</b> . . . . .  | 55  |
| Ayten Erdem and Uzay Yergün  |     |
| <b>Traditional Timber Housing Structure in Zeyrek</b> . . . . .  | 75  |
| Aylin Akcabozan  |     |
| <b>Possible Precursors of Pombalino Cage</b> . . . . .   | 87  |
| Alice Tavares, Aníbal Costa and Dina D’Ayala   |     |
| <b>Local Seismic Cultures: The Use of Timber Frame Structures in the South of Portugal</b> . . . . .   | 101 |
| Javier Ortega, Graça Vasconcelos, Hugo Rodrigues and Mariana Correia   |     |

|  |     |
|--|-----|
| <b>The Use of Wood with an Anti-seismic Function in the Architecture of Palermo During the 18th Century</b> . . . . .                                      | 113 |
| Tiziana Campisi and Federica Scibilia  |     |
| <b>Urban Planning and Building Reconstruction of Southern Italy after the 1783 Earthquake: The Case of Mileto</b> . . . . .                                | 125 |
| Stefania Stellacci, Francesca Geremia, Enrico Pagano, Nicola Ruggieri, Ginevra Salerno and Michele Zampilli  |     |
| <b>The Masonry Timber Framed Load Bearing Structure of the <i>Palazzo Vescovile</i> in Mileto (Italy)</b> . . . . .  | 135 |
| Nicola Ruggieri, Francesca Geremia, Enrico Pagano, Ginevra Salerno, Stefania Stellacci and Michele Zampilli  |     |
| <b>A Multidisciplinary Approach to the Analysis of the Traditional Lefkada Houses</b> . . . . .  | 147 |
| Sandra Tonna and Claudio Chesi   |     |
| <b>Part II Numerical Analysis</b>  |     |
| <b>The “Gothic House” in Arquata Scrivia (Italy): Constructive Details and Seismic Assessment of a Timber Framed Masonry Structure</b> . . . . .           | 161 |
| S. Cattari, S. Lagomarsino, R. Vecchiattini and G. Stagno  |     |
| <b>Seismic Assessment of <i>Pombalino</i> Buildings</b> . . . . .  | 171 |
| Rita Bento, Ana Paula Falcão, Ricardo Catulo and Jelena Milosevic  |     |
| <b>Numerical Approaches for the Analysis of Timber Frame Walls</b> . . . . .   | 183 |
| Elisa Poletti, Graça Vasconcelos, Paulo B. Lourenço and Maria Pia Ciocci   |     |
| <b>Seismic Vulnerability of Borbone Masonry Reinforced with Timber Frames</b> . . . . .  | 193 |
| Nicola Ruggieri, Carmen Sandhaas and Ario Ceccotti   |     |
| <b>The Masonry Timber Framed Load Bearing Structure of “Baraccato” System: A Numerical Model</b> . . . . .   | 205 |
| Ginevra Salerno, Francesca Geremia, Enrico Pagano, Michele Zampilli, Nicola Ruggieri and Stefania Stellacci  |     |
| <b>Load-Bearing Capacity of Traditional Dovetail Carpentry Joints with and Without Dowels: Comparison of Experimental and Analytical Results</b> . . . . . | 215 |
| Karel Šobra, Coralie Avez, Yasemin D. Aktaş, Richard de Rijk, Isabela Burawska and Jorge M. Branco   |     |

### **Part III Codes Analysis and Safety Assessment**

|   |            |
|---|------------|
| <b>Reliability of Timber Framed Constructions in Seismic Prone Areas in the Practice Codes Issued from 18th to 19th Century . . . . .</b> | <b>229</b> |
| Nicola Ruggieri   |            |
| <b>Assessment and Safety Requirements for Existing Structures . . . . .</b>   | <b>241</b> |
| J.M. Catarino, Teresa O. Santos, Ana S. Louro and Helena Cruz   |            |
| <b>Building Regulations and Existing Buildings: Setting the Requirements on Structural Safety in Portugal. . . . .</b>                    | <b>253</b> |
| João Branco Pedro and Vítor Campos  |            |
| <b>Seismic Assessment Procedures for Flexible Timber Diaphragms . . . . .</b>   | <b>263</b> |
| Ivan Giongo, Gianni Schiro, Roberto Tomasi, Dmytro Dizhur and Jason Ingham  |            |

### **Part IV Diagnosis**

|  |            |
|--|------------|
| <b>The Role of Terrestrial LiDAR for Mechanical and Safety Evaluation of Historic Timber Floors. . . . .</b>                                       | <b>277</b> |
| Clara Bertolini-Cestari, Antonia Spanò, Stefano Invernizzi, Elisabetta Donadio, Tanja Marzi and Giulia Sammartano                                  |            |
| <b>Traditional Timber-Framed Infill Structure Experimentation with Four Scales Analysis (To Connection from a House Scale) . . . . .</b>           | <b>287</b> |
| Yannick Sieffert, Florent Vieux-Champagne, Stéphane Grange, Philippe Garnier, Jean-Charles Duccini and Laurent Daudeville                          |            |
| <b>Characterization of Timber Masonry Walls with Dynamic Tests. . . . .</b>  | <b>299</b> |
| Ana Gonçalves, Paulo Candeias, Luís Guerreiro, João Ferreira and Alfredo Costa   |            |
| <b>Assessment and Diagnosis of Two Collar Timber Trusses by Means of Visual Grading and Non-destructive Tests . . . . .</b>                        | <b>311</b> |
| Isabel D. Gomes, Fotis Kondis, Hélder S. Sousa, Jorge M. Branco and Paulo B. Lourenço  |            |
| <b>Retrofitting Assessment and Numerical Models for the Historical Timber Roof Structures of the Towers of Valentino Castle in Turin . . . . .</b> | <b>321</b> |
| Clara Bertolini-Cestari, Antonia Spanò, Stefano Invernizzi and Tanja Marzi   |            |

### **Part V Repair/Reinforcement**

|   |            |
|---|------------|
| <b>Development of Dissipation Panels for Seismic Retrofitting of Historic Buildings . . . . .</b> | <b>337</b> |
| Raquel Paula, Vítor Córias and Luís Guerreiro   |            |

|   |     |
|---|-----|
| <b>Pombaline Buildings—Consequences of Some Rehabilitation Interventions</b> . . . . .  | 349 |
| Jorge Mascarenhas, Lurdes Belgas and Fernando G. Branco   |     |
| <b>Experimental and Analytical Assessment of the Capacity of Traditional Single Notch Joints and Impact of Retrofitting by Self-tapping Screws</b> . . . . .                                  | 359 |
| Karel Šobra, Richard de Rijk, Yasemin D. Aktaş, Coralie Avez, Isabela Burawska and Jorge M. Branco  |     |
| <b>Repairing of a Timber Truss Through Two Different Techniques Using Timber Elements and Screwed Metal Plates</b> . . . . .  | 371 |
| Daniele Cibecchini, Niclas Bjorngrim, Hélder S. Sousa, Marco Jorge and Jorge M. Branco  |     |
| <b>Stiffness of Prosthetic Repairs for Historic Timber Beams</b> . . . . .  | 383 |
| Coralie Avez and Thierry Descamps   |     |
| <b>Consolidation of a Collar Truss with a Steel Cable System</b> . . . . .  | 395 |
| Giacomo Crivellari and Jorge M. Branco  |     |
| <b>A Timber Roof Structure for the Milreu Rural House Rehabilitation</b> . . . . .  | 405 |
| Jorge N. Bastos   |     |
| <b>Design and Maintenance of a Long-Span Timber Roof</b> . . . . .  | 415 |
| Jorge N. Bastos   |     |
| <b>Part VI Timber Structures</b>  |     |
| <b>Assessment of the Mechanical Characteristics of Timber Floors Through Simple Dynamic Identification</b> . . . . .  | 427 |
| José Coelho, João M. Guedes, Bruno Silva and Tiago Ilharco  |     |
| <b>Assessment of the Mechanical Behaviour of Tabique Walls Through Experimental Tests</b> . . . . .   | 437 |
| Andreia Rebelo, João M. Guedes, Bruno Quelhas and Tiago Ilharco   |     |
| <b>Robustness Assessment of an Ancient Timber Roof Structure</b> . . . . .  | 447 |
| Leonardo G. Rodrigues, Chrysl A. Aranha and Hélder S. Sousa   |     |
| <b>FP1101 and RILEM TC 245 RTE Training School on Assessment and Reinforcement of Timber Elements and Structures: The Role of the Academic Community in Disseminating Knowledge</b> . . . . . | 459 |
| Jorge M. Branco, Hélder S. Sousa, Eleftheria Tsakanika, Marco Jorge and Paulo B. Lourenço   |     |
