# Contents

<b>1</b>	<b>Introduction to Differential Diagnosis in Neurology .....</b>	<b>1</b>
1.1	General Principles.....	1
1.2	Organizational Principles.....	2
1.2.1	Neurological Diagnosis .....	5
1.3	Systematic Approach to Neurological Problems .....	6
1.3.1	Diagnosis by Time and Space Factors.....	8
1.3.2	Diagnosis: Signs and Symptoms .....	9
1.3.3	Organizational Overview of the Text .....	10
1.3.4	Neurologic Disease Is Very Prevalent .....	11
1.3.5	Data for USA in 2005 .....	11
1.3.6	Neurological Emergencies .....	11
	References.....	13
<b>2</b>	<b>Cellular and Subcellular Elements of the Nervous System .....</b>	<b>15</b>
	References.....	30
<b>3</b>	<b>Stroke .....</b>	<b>31</b>
3.1	Introduction.....	31
3.2	General Facts About Stroke .....	31
3.3	Establishing a Stroke Diagnosis .....	31
3.4	Historical Aspects of Cerebrovascular Disease .....	33
3.5	Modern Concepts in Cerebrovascular Anatomy and Disease .....	33
3.6	Acute Management Issues with ICH .....	41
3.7	Cerebral Aneurysms.....	43
3.7.1	Hypertension-Related Intracranial Hemorrhage ...	45
3.7.2	Intracranial Hemorrhage: Relation to Thrombocytopenia .....	46
3.7.3	Facts on TIA .....	53
3.8	Thrombolytic Therapy .....	55
3.9	Clinical Analysis by Time and Space Methodology .....	56
3.9.1	Details of the Ninds Stroke Protocol.....	58
3.10	Stroke in Young Adults .....	59
3.11	IV tPA Contraindicated with Anticoagulation .....	62
3.11.1	Common Normal Developmental Variations .....	62
3.12	New Developments in Acute Stroke Care .....	63
3.13	Stroke in Special Populations .....	64

3.14	Seasonal Fluctuations in Stroke Mortality.....	66
3.15	Circadian Variation in the Timing of Stroke Onset.....	67
3.15.1	CT Angiography in the Management of Carotid Disease .....	67
3.15.2	Circle of Willis Is Crucial in Maintaining Flow in Setting of Unilateral ICA Disease.....	69
3.16	Functional Recovery After Stroke: New Insights Using MRI and PET .....	77
	References.....	79
<b>4</b>	<b>Epilepsy</b> .....	83
4.1	Introduction.....	83
4.2	Historical Aspects of Epilepsy.....	83
	References.....	105
<b>5</b>	<b>Demyelinating Diseases of the Peripheral and Central Nervous System: Guillain–Barre and Multiple Sclerosis</b> .....	107
5.1	Introduction.....	107
5.2	Guillain–Barre Syndrome or Acute Inflammatory Demyelinating Polyneuropathy .....	107
5.3	Multiple Sclerosis .....	111
5.4	Leukodystrophies and Other Diseases of the White Matter.....	120
	References.....	125
<b>6</b>	<b>The Hippocampus</b> .....	127
6.1	Introduction.....	127
6.1.1	Clinical Case Examples.....	138
	References.....	140
<b>7</b>	<b>Alzheimer’s Disease</b> .....	143
7.1	Clinical and Radiographic Aspects of Alzheimer’s Disease .....	152
	References.....	158
<b>8</b>	<b>Neurodegenerative Diseases</b> .....	161
	References.....	174
<b>9</b>	<b>Diseases of Skeletal Muscle</b> .....	177
9.1	Introduction.....	177
	References.....	186
<b>10</b>	<b>Diseases of the Spinal Cord</b> .....	187
	References.....	194
<b>11</b>	<b>The Cerebellum</b> .....	197
11.1	Introduction.....	197
	References.....	205
<b>12</b>	<b>The Visual Cortex</b> .....	207
12.1	Migraine and the Occipital Cortex .....	214
	References.....	218

---

<b>13</b>	<b>Infections of the Nervous System.....</b>	<b>219</b>
	References.....	228
<b>14</b>	<b>Neoplastic Diseases.....</b>	<b>229</b>
14.1	Radiation Necrosis.....	235
14.2	Genetic Defects and Primary Neoplasms .....	235
	References.....	243
<b>15</b>	<b>Traumatic and Toxic Effects on the Nervous System .....</b>	<b>245</b>
15.1	Toxins and the Nervous System: Alcohol, Mercury, Lead, Medications.....	247
	References.....	251
<b>16</b>	<b>Conclusions.....</b>	<b>253</b>
16.1	Introduction.....	253
	References.....	254
	<b>Index.....</b>	<b>255</b>

Neurologic Disease

A Modern Pathophysiologic Approach to Diagnosis and  
Treatment

Meyer, M.A.

2016, IX, 260 p. 322 illus., 303 illus. in color., Hardcover

ISBN: 978-3-319-39579-1
