

# Contents

## Part I Keynotes

- 1 Partial Least Squares for Heterogeneous Data** ..... 3  
Peter Bühlmann
- 2 On the PLS Algorithm for Multiple Regression (PLS1)**..... 17  
Yoshio Takane and Sébastien Loisel
- 3 Extending the Finite Iterative Method for Computing the  
Covariance Matrix Implied by a Recursive Path Model** ..... 29  
Zouhair El Hadri and Mohamed Hanafi
- 4 Which Resampling-Based Error Estimator for Benchmark  
Studies? A Power Analysis with Application to PLS-LDA**..... 45  
Anne-Laure Boulesteix
- 5 Path Directions Incoherence in PLS Path Modeling:  
A Prediction-Oriented Solution** ..... 59  
Pasquale Dolce, Vincenzo Esposito Vinzi, and Carlo Lauro

## Part II New Developments in Genomics and Brain Imaging

- 6 Imaging Genetics with Partial Least Squares  
for Mixed-Data Types (MiMoPLS)** ..... 73  
Derek Beaton, Michael Kriegsman, ADNI, Joseph Dunlop,  
Francesca M. Filbey, and Hervé Abdi
- 7 PLS and Functional Neuroimaging: Bias and Detection  
Power Across Different Resampling Schemes** ..... 93  
Nathan Churchill, Babak Afshin-Pour, and Stephen Strother

<b>8</b>	<b>Estimating and Correcting Optimism Bias in Multivariate PLS Regression: Application to the Study of the Association Between Single Nucleotide Polymorphisms and Multivariate Traits in Attention Deficit Hyperactivity Disorder</b> .....	103
	Erica Cunningham, Antonio Ciampi, Ridha Joobar, and Aurélie Labbe	
<b>9</b>	<b>Discriminant Analysis for Multiway Data</b> .....	115
	Gisela Lechuga, Laurent Le Brusquet, Vincent Perlberg, Louis Puybasset, Damien Galanaud, and Arthur Tenenhaus	
<b>Part III New and Alternative Methods for Multitable and Path Analysis</b>		
<b>10</b>	<b>Structured Variable Selection for Regularized Generalized Canonical Correlation Analysis</b> .....	129
	Tommy Löfstedt, Fouad Hadj-Seleem, Vincent Guillemot, Cathy Philippe, Edouard Duchesnay, Vincent Frouin, and Arthur Tenenhaus	
<b>11</b>	<b>Supervised Component Generalized Linear Regression with Multiple Explanatory Blocks: THEME-SCGLR</b> .....	141
	Xavier Bry, Catherine Trottier, Frédéric Mortier, Guillaume Cornu, and Thomas Verron	
<b>12</b>	<b>Partial Possibilistic Regression Path Modeling</b> .....	155
	Rosaria Romano and Francesco Palumbo	
<b>13</b>	<b>Assessment and Validation in Quantile Composite-Based Path Modeling</b> .....	169
	Cristina Davino, Vincenzo Esposito Vinzi, and Pasquale Dolce	
<b>Part IV Advances in Partial Least Square Regression</b>		
<b>14</b>	<b>PLS-Frailty Model for Cancer Survival Analysis Based on Gene Expression Profiles</b> .....	189
	Yi Zhou, Yanan Zhu, and Siu-wai Leung	
<b>15</b>	<b>Functional Linear Regression Analysis Based on Partial Least Squares and Its Application</b> .....	201
	Huiwen Wang and Lele Huang	
<b>16</b>	<b>Multiblock and Multigroup PLS: Application to Study Cannabis Consumption in Thirteen European Countries</b> .....	213
	Aida Eslami, El Mostafa Qannari, Stéphane Legleye, and Stéphanie Bougeard	

<b>17 A Unified Framework to Study the Properties of the PLS Vector of Regression Coefficients .....</b>	<b>227</b>
Mélanie Blazère, Fabrice Gamboa, and Jean-Michel Loubes	
<b>18 A New Bootstrap-Based Stopping Criterion in PLS Components Construction .....</b>	<b>239</b>
Jérémy Magnanensi, Myriam Maumy-Bertrand, Nicolas Meyer, and Frédéric Bertrand	
<b>Part V PLS Path Modeling: Breakthroughs and Applications</b>	
<b>19 Extension to the PATHMOX Approach to Detect Which Constructs Differentiate Segments and to Test Factor Invariance: Application to Mental Health Data .....</b>	<b>253</b>
Tomas Aluja-Banet, Giuseppe Lamberti, and Antonio Ciampi	
<b>20 Multi-group Invariance Testing: An Illustrative Comparison of PLS Permutation and Covariance-Based SEM Invariance Analysis .....</b>	<b>267</b>
Wynne W. Chin, Annette M. Mills, Douglas J. Steel, and Andrew Schwarz	
<b>21 Brand Nostalgia and Consumers' Relationships to Luxury Brands: A Continuous and Categorical Moderated Mediation Approach .....</b>	<b>285</b>
Aurélié Kessous, Fanny Magnoni, and Pierre Valette-Florence	
<b>22 A Partial Least Squares Algorithm Handling Ordinal Variables .....</b>	<b>295</b>
Gabriele Cantaluppi and Giuseppe Boari	
<b>Author Index .....</b>	<b>307</b>
<b>Subject Index .....</b>	<b>313</b>

The Multiple Facets of Partial Least Squares and  
Related Methods

PLS, Paris, France, 2014

Abdi, H.; Esposito Vinzi, V.; Russolillo, G.; Saporta, G.;  
Trinchera, L. (Eds.)

2016, XIV, 316 p. 68 illus., 39 illus. in color., Hardcover
