

Contents

Glial Cells and Integrity of the Nervous System	1
Rommy von Bernhardt, Jaime Eugén-von Bernhardt, Betsi Flores and Jaime Eugén León	
Part I Glial Cell Function in the Healthy Nervous System	
NG2-glia, More Than Progenitor Cells	27
Jaime Eugén-von Bernhardt and Leda Dimou	
Pharmacological Tools to Study the Role of Astrocytes in Neural Network Functions	47
Fernando Peña-Ortega, Ana Julia Rivera-Angulo and Jonathan Julio Lorea-Hernández	
Microglia Function in the Normal Brain	67
Rommy von Bernhardt, Florencia Heredia, Nicole Salgado and Paola Muñoz	
Physiological Functions of Glial Cell Hemichannels	93
Juan A. Orellana	
Role of Astrocytes in Central Respiratory Chemoreception	109
Jaime Eugén León, María José Olivares and Sebastián Beltrán-Castillo	
Purine Signaling and Microglial Wrapping	147
Bernardo Castellano, Mar Bosch-Queralt, Beatriz Almolda, Nàdia Villacampa and Berta González	
Oligodendrocytes: Functioning in a Delicate Balance Between High Metabolic Requirements and Oxidative Damage	167
Alejandro D. Roth and Marco T. Núñez	
Schwann Cell and Axon: An Interlaced Unit—From Action Potential to Phenotype Expression	183
Felipe A. Court and Jaime Alvarez	

Part II Glial Cell Dysfunction and Pathological Implications

Age-Dependent Changes in the Activation and Regulation of Microglia	205
Francisca Cornejo and Rommy von Bernhardi	
Astrocyte Dysfunction in Developmental Neurometabolic Diseases	227
Silvia Olivera-Bravo, Eugenia Isasi, Anabel Fernández, Gabriela Casanova, Juan Carlos Rosillo and Luigi Barbeito	
Microglia in Cancer: For Good or for Bad?	245
Anna Carolina Carvalho da Fonseca, Rackele Amaral, Celina Garcia, Luiz Henrique Geraldo, Diana Matias and Flavia Regina Souza Lima	
Peripheral Inflammation and Demyelinating Diseases	263
Verónica Murta and Carina Ferrari	
Regulation of Oligodendrocyte Differentiation and Myelination by Nuclear Receptors: Role in Neurodegenerative Disorders	287
Adrián Sandoval-Hernández, María José Contreras, Jenny Jaramillo and Gonzalo Arboleda	
The Role of Galectin-3: From Oligodendroglial Differentiation and Myelination to Demyelination and Remyelination Processes in a Cuprizone-Induced Demyelination Model	311
H.C. Hoyos, Mariel Marder, R. Ulrich, V. Gudi, M. Stangel, G.A. Rabinovich, L.A. Pasquini and J.M. Pasquini	
Prenatal Systemic Hypoxia-Ischemia and Oligodendroglia Loss in Cerebellum	333
Penha Cristina Barradas, Tiago Savignon, Alex C. Manhães, Frank Tenório, Alan P. da Costa, Marta C. Cunha-Rodrigues and Juliana Vaillant	
Index	347

Glial Cells in Health and Disease of the CNS

von Bernhardt, R. (Ed.)

2016, XI, 348 p. 46 illus., 35 illus. in color., Hardcover

ISBN: 978-3-319-40762-3
