

Contents

1	Perspectives on Auditory Translational Research	1
	Colleen G. Le Prell and Edward Lobarinas	
2	Current Issues in Clinical and Translational Research in the Hearing Sciences, Audiology, and Otolaryngology	19
	Colleen G. Le Prell	
3	Auditory Processing Disorder: Biological Basis and Treatment Efficacy	51
	Nina Kraus and Samira Anderson	
4	Sudden Sensorineural Hearing Loss	81
	Scott C. Montgomery, Carol A. Bauer, and Edward Lobarinas	
5	Development of Drugs for Noise-Induced Hearing Loss	105
	Eric D. Lynch, Jonathan Kil, and Colleen G. Le Prell	
6	Cisplatin-Induced Hearing Loss	141
	Kathleen C.M. Campbell and Daniel J. Fox	
7	Past, Present, and Future Pharmacological Therapies for Tinnitus	165
	Brian L. Allman, Ashley L. Schormans, Marei Typlt, and Edward Lobarinas	
8	Developing a Molecular Therapeutic for Hearing Loss	197
	Hinrich Staecker, Lloyd Klickstein, and Douglas E. Brough	
9	Photons in the Ear	219
	Xiaodong Tan, Nan Xia, and Claus-Peter Richter	
10	Clinical and Translational Research: Challenges to the Field	241
	Colleen G. Le Prell and Edward Lobarinas	

Translational Research in Audiology, Neurotology, and
the Hearing Sciences

Le Prell, C.; Lobarinas, E.; Popper, A.N.; Fay, R.R. (Eds.)
2016, XVIII, 265 p. 25 illus., 19 illus. in color., Hardcover
ISBN: 978-3-319-40846-0
