

Contents

General Strategies in Inflammasome Biology	1
Hanne Dubois, Andy Wullaert and Mohamed Lamkanfi	
Structural Mechanisms in NLR Inflammasome Assembly and Signaling	23
Zehan Hu and Jijie Chai	
<i>Salmonella</i> and the Inflammasome: Battle for Intracellular Dominance	43
Shauna M. Crowley, Leigh A. Knodler and Bruce A. Vallance	
Activation and Evasion of Inflammasomes by <i>Yersinia</i>	69
Naomi H. Philip, Erin E. Zwack and Igor E. Brodsky	
The Orchestra and Its Maestro: <i>Shigella</i>'s Fine-Tuning of the Inflammasome Platforms	91
Anna-Karin Hermansson, Ida Paciello and Maria Lina Bernardini	
Inflammasome Activation by <i>Helicobacter pylori</i> and Its Implications for Persistence and Immunity	117
Suneesh Kumar Pachathundikandi, Anne Müller and Steffen Backert	
<i>Listeria monocytogenes</i> and the Inflammasome: From Cytosolic Bacteriolysis to Tumor Immunotherapy	133
Erin Theisen and John-Demian Sauer	
Inflammasome Recognition and Regulation of the <i>Legionella</i> Flagellum	161
Ursula Schell, Sylvia Simon and Hubert Hilbi	
Inflammasome Activation and Function During Infection with <i>Mycobacterium tuberculosis</i>	183
Andrea Ablasser and Anca Dorhoi	

Role of Canonical and Non-canonical Inflammasomes During <i>Burkholderia</i> Infection	199
Manoranjan Sahoo, Louis Lantier and Fabio Re	
Inflammasomes in Pneumococcal Infection: Innate Immune Sensing and Bacterial Evasion Strategies	215
Anne Rabes, Norbert Suttorp and Bastian Opitz	
<i>Francisella</i> Inflammasomes: Integrated Responses to a Cytosolic Stealth Bacterium	229
Pierre Wallet, Brice Lagrange and Thomas Henry	
Inflammasome Activation Can Mediate Tissue-Specific Pathogenesis or Protection in <i>Staphylococcus aureus</i> Infection.	257
Jason H. Melehani and Joseph A. Duncan	

Inflammasome Signaling and Bacterial Infections

Backert, S. (Ed.)

2016, XI, 282 p. 29 illus., 28 illus. in color., Hardcover

ISBN: 978-3-319-41170-5
