

Contents

Invited Papers

Programming in Picat	3
<i>Neng-Fa Zhou</i>	
The RuleML Knowledge-Interoperation Hub	19
<i>Harold Boley</i>	

General RuleML Track

Handling Complex Process Models Conditions Using First-Order Horn Clauses	37
<i>Stefano Ferilli</i>	
Business Rules Uncertainty Management with Probabilistic Relational Models	53
<i>Hamza Agli, Philippe Bonnard, Christophe Gonzales, and Pierre-Henri Wuillemin</i>	
A Declarative Semantics for a Fuzzy Logic Language Managing Similarities and Truth Degrees	68
<i>Pascual Julián-Iranzo, Ginés Moreno, Jaime Penabad, and Carlos Vázquez</i>	
Controlling the Average Behavior of Business Rules Programs	83
<i>Olivier Wang, Leo Liberti, Claudia D'Ambrosio, Christian de Sainte Marie, and Changhai Ke</i>	
Bridge Rules for Reasoning in Component-Based Heterogeneous Environments	97
<i>Stefania Costantini and Giovanni De Gasperis</i>	
Choreographic Compilation of Decentralized Comprehension Patterns	113
<i>Iliano Cervesato, Edmund Soon Lee Lam, and Ali Elgazar</i>	
Minimal Objectification and Maximal Unnesting in PSOA RuleML	130
<i>Gen Zou and Harold Boley</i>	

Smart Contracts, Blockchain and Rules

Setting Standards for Altering and Undoing Smart Contracts	151
<i>Bill Marino and Ari Juels</i>	

Evaluation of Logic-Based Smart Contracts for Blockchain Systems	167
<i>Florian Idelberger, Guido Governatori, Régis Riveret, and Giovanni Sartor</i>	
Blockchain Temporality: Smart Contract Time Specifiability with Blocktime	184
<i>Melanie Swan</i>	
Constraint Handling Rules	
A Numerical Optimisation Based Characterisation of Spatial Reasoning.	199
<i>Carl Schultz and Mehul Bhatt</i>	
Why Can't You Behave? Non-termination Analysis of Direct Recursive Rules with Constraints	208
<i>Thom Frühwirth</i>	
Translation of Cognitive Models from ACT-R to Constraint Handling Rules . . .	223
<i>Daniel Gall and Thom Frühwirth</i>	
Legal Rules and Reasoning	
Enabling Reasoning with LegalRuleML	241
<i>Ho-Pun Lam, Mustafa Hashmi, and Brendan Scofield</i>	
SBVR to OWL 2 Mapping in the Domain of Legal Rules	258
<i>Firas Al Khalil, Marcello Ceci, Kosala Yapa, and Leona O'Brien</i>	
Rule- and Ontology-Based Data Access and Transformation	
OBDA Constraints for Effective Query Answering	269
<i>Dag Hovland, Davide Lanti, Martin Rezk, and Guohui Xiao</i>	
A Framework Enhancing the User Search Activity Through Data Posting . . .	287
<i>Nunziato Cassavia, Elio Masciari, Chiara Pulice, and Domenico Saccà</i>	
Rule Induction and Learning	
PRIMER – A Regression-Rule Learning System for Intervention Optimization.	307
<i>Greg Harris, Anand Panangadan, and Viktor K. Prasanna</i>	
Event Driven Architectures and Active Database Systems	
Rule-Based Real-Time ADL Recognition in a Smart Home Environment . . .	325
<i>George Baryannis, Przemyslaw Woznowski, and Grigoris Antoniou</i>	

SmartRL: A Context-Sensitive, Ontology-Based Rule Language
for Assisted Living in Smart Environments 341
William Van Woensel, Patrice C. Roy, and Syed Sibte Raza Abidi

Author Index 351

Rule Technologies. Research, Tools, and Applications
10th International Symposium, RuleML 2016, Stony
Brook, NY, USA, July 6-9, 2016. Proceedings
Alferes, J.J.; Bertossi, L.; Governatori, G.; Fodor, P.;
Roman, D. (Eds.)
2016, XXV, 351 p. 41 illus., Softcover
ISBN: 978-3-319-42018-9
