Contents

1 Mitochondrial ROS and Apoptosis 1
Hazem El-Osta and Magdalena L. Circu

2 Dopamine Metabolism and Reactive Oxygen Species Production 25
Sylvie Delcambre, Yannic Nonnenmacher, and Karsten Hiller

3 The Consequences of Damaged Mitochondrial DNA 49
Li Zuo, Tingyang Zhou, and Chia-Chen Chuang

4 The Role of Chronic Inflammation in the Etiology of Parkinson's Disease 63
Yuval Nash and Dan Frenkel

5 Ion-Catalyzed Reactive Oxygen Species in Sporadic Models of Parkinson's Disease 75
Velmarini Vasquez, Joy Mitra, Erika N. Guerrero, Pavana M. Hegde, K.S. Rao, and Muralidhar L. Hegde

6 Toxin-Mediated Complex I Inhibition and Parkinson's Disease 115
Briana R. De Miranda, Bennett Van Houten, and Laurie H. Sanders

7 Parkinson's Disease-Associated Mutations Affect Mitochondrial Function 139
Javier Blesa, Ines Trigo-Damas, Ana Quiroga-Varela, and Natalia Lopez-Gonzalez del Rey

8 PARKIN/PINK1 Pathway for the Selective Isolation and Degradation of Impaired Mitochondria 159
Derek P. Narendra

9 Mitochondrial Therapeutic Approaches in Parkinson's Disease 183
Ana Raquel Esteves, Diana F. Silva, Maria G-Fernandes, Rui Gomes, and Sandra Morais Cardoso

10 Altering Mitochondrial Fusion and Fission Protein Levels Rescues Parkin and PINK1 Loss-of-Function Phenotypes 207
Lori M. Buhlman

11 Early Nicotine Exposure Is Protective in Familial and Idiopathic Models of Parkinson's Disease 219
Lori M. Buhlman and Jun Hu

12 Transcription Modulation of Mitochondrial Function and Related Pathways as a Therapeutic Opportunity in Parkinson's Disease 231
Audrey S. Dickey and Albert R. La Spada

13 Delivery of Biologically Active Molecules to Mitochondria 255
Diana Guzman-Villanueva and Volkmar Weissig

Index 269

Mitochondrial Mechanisms of Degeneration and Repair in Parkinson's Disease

Buhlman, L.M. (Ed.)

2016, XII, 275 p. 28 illus., 23 illus. in color., Hardcover
ISBN: 978-3-319-42137-7
